Ibn Kathir

Heavenly Voice Tarek Abdul Basit, Widely considered to be one of the greatest Quran reciters of the modern era, Abdul Basit Abdus Samad received the global acclaim that no other Quran reciter has received to this day. Born in 1927 in a village in Upper Egypt, he finished memorising the entire Quran by heart at the tender age of ten. He also learnt the seven styles of Quran recitation by the age of twelve and the ten styles of Quran recitation by the age of fourteen. In 1951, at the age of nineteen, he went to the capital Cairo for the first time and recited the Quran at Zaynab Mosque. It was an event where many famous Quran reciters were present. His performance was so outstanding that the crowd requested him to recite beyond his allocated ten minutes — in fact, he continued to recite for over an hour and a half. There began his journey of ascension. In the same year, he started reciting the Quran on Egyptian National Radio. Abdul Basit later went on to win three international Quran competitions in the seventies and toured the world mesmerising audiences with his breathtaking recitation. He was the founding president of the Union of Quran Reciters in Egypt. He was dubbed the “Golden Throat and the Voice of Heaven” due to his melodious style, remarkable breath control, and unique emotional and engaging tone. His legacy remains unmatched as Quran reciters across the world attempt to imitate his unique and mesmerising style. This profile charts his journey from a village in Upper Egypt to international fame and recognition.

The Art of Reciting the Qur'an Kristina Nelson,2014-11-11 For the Muslim faithful, the familiar sound of the Qur'anic recitation is the predominant and most immediate means of contact with the Word of God. Heard day and night, on the street, in taxis, in shops, in mosques, and in homes, the sound of recitation is far more than the pervasive background music of daily life in the Arab world. It is the core of religious devotion, the sanctioning spirit of much cultural and social life, and a valued art form in its own right. Participation in recitation, as reciter or listener, is itself an act of worship, for the sound is basic to a Muslim's sense of religion and invokes a set of meanings transcending the particular occasion. For the most part, Westerners have approached the Qur'an much as scriptural scholars have studied the Bible, as a collection of written texts. The Art of Reciting the Qur'an aims at redirecting that focus toward a deeper understanding of the Qur'an as a fundamentally oral phenomenon. By examining Muslim attitudes toward the Qur'an, the institutions that regulate its recitation, and performer-audience expectations and interaction, Kristina Nelson, a trained Arabist and musicologist, casts new light on the significance of Qur'anic recitation within the world of Islam. Her landmark work is of importance to all scholars and students of the modern Middle East, as well as ethnomusicologists, anthropologists, linguists, folklorists, and religious scholars.

Music and the Play of Power in the Middle East, North Africa and Central Asia Laudan

Nooshin,2016-04-29 What is it about the history, geographical position and cultures of the Middle East, North Africa and Central Asia that has made music such a potent and powerful agent? This volume presents the first direct look at the complex relationship between music and power across a range of musical genres and countries. Discourses of power in the region centre on some of the most contested social issues, most notably in relation to nationhood, gender and religion. Individual chapters examine the ways in which music serves as a forum for playing out issues of power, ideology, resistance and subversion. How does music become a space for promoting - or conversely, resisting or subverting - particular ideologies or positions of authority? How does it accrue symbolic power in ways that are very particular, perhaps unique? And how does music become a site of social control or, alternatively, a vehicle for agency and empowerment, at times overt and at others highly subtle? What is it about music that facilitates, and sometimes disrupts, the exercise and flows of power? Who controls such flows, how and for what purposes? In asking such questions in the context of countries such as Afghanistan, Egypt, Iran, Tunisia and Tajikistan, the book draws on a wide range of relevant theoretical and critical ideas, and many disciplines including ethnomusicology, anthropology, sociology, politics, Middle Eastern studies, globalization studies, gender studies and cultural and media studies. The countries and areas explored share a great deal in historical and cultural terms, including a legacy of colonial and neo-colonial encounters and predominantly Judeo-Muslim religious traditions. It is hoped that the volume will contribute ultimately to a richer understanding of the role that music plays in these societies.

All Strangers Are Kin Zora O'Neill,2016-06-14 An American woman determined to learn the Arabic language travels to the Middle East to pursue her dream in this “witty memoir” (Us Weekly). The shadda is the key difference between a pigeon (hamam) and a bathroom (hammam). Be careful, our professor advised, that you don’t ask a waiter, ‘Excuse me, where is the pigeon?’—or, conversely, order a roasted toilet . . . If you’ve ever studied a foreign language, you know what happens when you first truly and clearly communicate with another person. As Zora O’Neill recalls, you feel like a magician. If that foreign language is Arabic, you just might feel like a wizard. They say that Arabic takes seven years to learn and a

lifetime to master. O'Neill had put in her time. Steeped in grammar tomes and outdated textbooks, she faced an increasing certainty that she was not only failing to master Arabic, but also driving herself crazy. She took a decade-long hiatus, but couldn't shake her fascination with the language or the cultures it had opened up to her. So she decided to jump back in—this time with a new approach. In this book, she takes us along on her grand tour through the Middle East, from Egypt to the United Arab Emirates to Lebanon and Morocco. She's packed her dictionaries, her unsinkable sense of humor, and her talent for making fast friends of strangers. From quiet, bougainvillea-lined streets to the lively buzz of crowded medinas, from families' homes to local hotspots, she brings a part of the world thousands of miles away right to your door—and reminds us that learning another tongue leaves you rich with so much more than words. "You will travel through countries and across centuries, meeting professors and poets, revolutionaries, nomads, and nerds . . . [A] warm and hilarious book." —Annia Ciezadlo, author of *Day of Honey* "Her tale of her 'Year of Speaking Arabic Badly' is a genial and revealing pleasure." —The Seattle Times

The Believer William McCants, 2015-09-01 In *The Believer*, Will McCants tells the story of Abu Bakr al-Baghdadi, the leader of the Islamic State (a.k.a. ISIS), a group so brutal and hardline that even al-Qaida deemed them too extreme. Baghdadi, an introverted religious scholar, with a passion for soccer, now controls large swaths of land in Iraq and Syria. McCants shows how Baghdadi became radicalized in the Saddam Hussein era and found his path to power after connecting with other radicals in an American prison during the Iraq War, culminating in his declaration of a reborn Islamic empire bent on world conquest.

The Glorious Quran Word-for-Word Translation to Facilitate Learning of Quranic Arabic Shehnaz Shaikh, 2007-07-01 There are about 80,000 words in the Quran but the actual words are only around 2000!!! This could also be termed as one of the many miracles of the Quran. Accordingly, if a reader decides to learn only 10 new words every day, he can understand the basic message of the Quran within a period of seven months! So it is indeed very easy to understand the Quran, provided one is willing to learn it. This word-for-word translation may not be considered as an addition to the existing translations, but an attempt to equip the reader to understand the revelation directly from the Arabic text; thus it will Insha-Allah be a very useful tool for those who are willing to study the Quran and try to understand it. A beginner can bear in mind the meanings of each Arabic word provided right below it. Since many words are repeated in the Quran, the student will find for himself that within a few months of regular study, he is indeed able to understand the Quran through the text itself. It may also be pointed out that a beginner does not have to, in the start itself, be worried about learning extensive grammar or how to speak the Arabic language. In fact, one has to develop vocabulary before learning grammar for the following reasons: * A child first learns words and then starts linking them together. We speak our mother tongue fluently without ever learning the grammatical rules. That is to say, we learn it by repeatedly listening to the words. * Learning

extensive grammar before improving vocabulary is like putting the cart before the horse. Or it is like learning different styles of swimming by moving hands in the air inside a swimming pool without water. One has to fill the swimming pool with water (i.e., increase vocabulary) and then learn to swim (i.e., to connect the words with grammatical rules).

The Holy Quran: English Translation of the Meanings Abdullah Yusuf Ali, 2016-08-05 The Quran is among the most influential books in the history of literature, and is a source of Islam. This translation by Sir Yusuf Ali is one of the most widely known and used in the English-speaking world.

The Masnavi of Rumi, Book Two Jalaloddin Rumi, 2020-02-20 Jalaloddin Rumi's Masnavi-ye Ma'navi, or 'Spiritual Couplets', composed in the 13th Century, is a monumental work of poetry in the Sufi tradition of Islamic mysticism. For centuries before his love poetry became a literary phenomenon in the West, Rumi's Masnavi had been revered in the Islamic world as its greatest mystical text. Drawing upon a vast array of characters, stories and fables, and deeply versed in spiritual teaching, it takes us on a profound and playful journey of discovery along the path of divine love, toward its ultimate goal of union with the source of all Truth. In Book Two of the Masnavi, the second of six volumes, we travel with Rumi toward an understanding of the deeper truth and reality, beyond the limits of the self. Alan Williams's authoritative new translation is rendered in highly readable blank verse and includes the original Persian text for reference. True to the spirit of Rumi's poem, this new translation establishes the Masnavi as one of the world's great literary achievements for a global readership. Translated with an introduction, notes and analysis by Alan Williams and including the Persian text edited by Mohammad Este'lami.

No God but God Geneive Abdo, 2002-10-24 Shrouded in mystery, the Islamic presence in the Middle East evokes longstanding Western fears of terrorism and holy war. Our media have consistently focused on these extremes of Islam, overlooking a quiet yet pervasive religious movement that is now transforming the nation of Egypt. Drawing on hundreds of interviews, *No God But God* opens up previously inaccessible segments of Egyptian society--from the universities and professional sectors to the streets--to illustrate the deep penetration of Popular Islamic influence. Abdo provides a firsthand account of this peaceful movement, allowing its moderate leaders, street preachers, scholars, doctors, lawyers, men and women of all social classes to speak for themselves. Challenging Western stereotypes, she finds that this growing number of Islamists do not seek the violent overthrow of the government or a return to a medieval age. Instead, they believe their religious values are compatible with the demands of the modern world. They are working within and beyond the secular framework of the nation to gradually create a new society based on Islamic principles. Abdo narrates fascinating accounts of their methods and successes. Today, for example, university students meet in underground unions, despite a state ban. In addition, sheikhs have recently used their new legislative power to censor books and movies deemed to violate religious values. Both fascinating and unsettling, Abdo's findings identify a grassroots model for transforming a secular nation-state to an Islamic social order that will likely inspire other Muslim nations. This model cannot be ignored, for it will soon help organized Islamists to undermine secular control of Egypt and potentially jeopardize Western interests in the Arab world.
