The Art of Reciting the Qur'an Kristina Nelson,2014-11-11 For the Muslim faithful, the familiar sound of the Qur'anic recitation is the predominant and most immediate means of contact with the Word of God. Heard day and night, on the street, in taxis, in shops, in mosques, and in homes, the sound of recitation is far more than the pervasive background music of daily life in the Arab world. It is the core of religious devotion, the sanctioning spirit of much cultural and social life, and a valued art form in its own right. Participation in recitation, as reciter or listener, is itself an act of worship, for the sound is basic to a Muslim's sense of religion and invokes a set of meanings transcending the particular occasion. For the most part, Westerners have approached the Qur'an much as scriptural scholars have studied the Bible, as a collection of written texts. *The Art of Reciting the Qur'an* aims at redirecting that focus toward a deeper understanding of the Qur'an as a fundamentally oral phenomenon. By examining Muslim attitudes toward the Qur'an, the institutions that regulate its recitation, and performer-audience expectations and interaction, Kristina Nelson, a trained Arabist and musicologist, casts new light on the significance of Qur'anic recitation within the world of Islam. Her landmark work is of importance to all scholars and students of the modern Middle East, as well as ethnomusicologists, anthropologists, linguists, folklorists, and religious scholars.

Resurgent Islam and the Politics of Identity Ali A. Mazrui,2014-10-16 One of the most important functions of religion is to serve as a basis of identity. This collection of essays by Ali A. Mazrui, a distinguished scholar of Islam, discusses how Islam differentiates Muslims from non-Muslims and affects how Muslims view each other. In the light of the upheaval currently occurring in the Muslim world, this collection provides readers with valuable context for the challenges of modernity and multiculturalism faced by Muslims. In these essays, Mazrui deploys his formidable knowledge of theology, history, and Muslim societies to analyze the theological, historical, and political influences on Muslim identity. In his usual style of comparative analysis, Mazrui draws most frequently in these essays from examples in Africa, the Middle East, South Asia and Muslim communities in the West. These essays delve into the complexities of Muslim identity and stratification, and provide contributions to key debates on modern Islamic political ideology. These essays will be of interest to readers engaged with Islam, religion, culture, comparative politics and international relations.

Translation of the Holy Quran in English Maulana Muhammad Ali,2013-12-25 The Quran, literally meaning the recitation, also romanised (Koran) is the central religious text of Islam, which Muslims believe to be a revelation from God (Arabic: Allah). It is widely regarded as the finest piece of literature in the Arabic language. Muslims consider the Quran to be the only book that has been protected by God from distortion or corruption. Quranic chapters are called suras and verses are called ayahs. Muslims believe that the Quran was verbally revealed from God to Muhammad through the angel Gabriel (Jibril), gradually over a period of approximately 23

years, beginning on 22 December 609 CE, when Muhammad (Peace be upon Him) was 40, and concluding in 632 CE, the year of his death. Shortly after Muhammad's death, the Quran was collected by his companions using written Quranic materials and everything that had been memorized of the Quran. Muslims regard the Quran as the most important miracle of Muhammad, the proof of his prophet hood and the culmination of a series of divine messages that started with the messages revealed to Adam and ended with Muhammad. The Quran assumes familiarity with major narratives recounted in the Jewish and Christian scriptures. It summarizes some, dwells at length on others and, in some cases, presents alternative accounts and interpretations of events. The Quran describes itself as a book of guidance. It sometimes offers detailed accounts of specific historical events, and it often emphasizes the moral significance of an event over its narrative sequence. The Quran is used along with the hadith to interpret sharia law. During prayers, the Quran is recited only in Arabic. Someone who has memorized the entire Quran is called a hafiz. Some Muslims read Quranic ayahs (verses) with elocution, which is often called tajweed. During the month of Ramadan, Muslims typically complete the recitation of the whole Quran during tarawih prayers. Inimitability of the Quran (or I'jaz) is the belief that no human speech can match the Quran in its content and form. The Quran is considered an inimitable miracle by Muslims, effective until the Day of Resurrection-and, thereby, the central proof granted to Muhammad in authentication of his prophetic status. The concept of inimitability originates in the Quran where in five different verses challenges opponents to produce something like the Quran: If men and sprites banded together to produce the like of this Quran they would never produce its like not though they backed one another (17:88). So the suggestion is that if there are doubts concerning the divine authorship of the Quran come forward and create something like it. From the ninth century, numerous works appeared which studied the Quran and examined its style and content. Medieval Muslim scholars including al-Jurjani (d. 1078CE) and al-Baqillani (d. 1013CE) have written treatises on the subject, discussed its various aspects, and used linguistic approaches to study the Quran. Others argue that the Quran contains noble ideas, has inner meanings, maintained its freshness through the ages and has caused great transformations in individual level and in the history. Some scholars state that the Quran contains scientific information that agrees with modern science. The doctrine of miraculousness of the Quran is further emphasized by Muhammad's illiteracy since the unlettered prophet could not have been suspected of composing the Quran.

The Glorious Quran Word-for-Word Translation to Facilitate Learning of Quranic Arabic Shehnaz Shaikh, 2007-07-01 There are about 80,000 words in the Quran but the actual words are only around 2000!!! This could also be termed as one of the many miracles of the Quran. Accordingly, if a reader decides to learn only 10 new words every day, he can understand the basic message of the Quran within

a period of seven months! So it is indeed very easy to understand the Quran, provided one is willing to learn it. This word-for-word translation may not be considered as an addition to the existing translations, but an attempt to equip the reader to understand the revelation directly from the Arabic text; thus it will Insha-Allah be a very useful tool for those who are willing to study the Quran and try to understand it. A beginner can bear in mind the meanings of each Arabic word provided right below it. Since many words are repeated in the Quran, the student will find for himself that within a few months of regular study, he is indeed able to understand the Quran through the text itself. It may also be pointed out that a beginner does not have to, in the start itself, be worried about learning extensive grammar or how to speak the Arabic language. In fact, one has to develop vocabulary before learning grammar for the following reasons: * A child first learns words and then starts linking them together. We speak our mother tongue fluently without ever learning the grammatical rules. That is to say, we learn it by repeatedly listening to the words. * Learning extensive grammar before improving vocabulary is like putting the cart before the horse. Or it is like learning different styles of swimming by moving hands in the air inside a swimming pool without water. One has to fill the swimming pool with water (i.e., increase vocabulary) and then learn to swim (i.e., to connect the words with grammatical rules).

Crossed Swords Shuja Nawaz, 2008 Based on 30 years of research and analysis, this definitive book is a profound, multi-layered, and historical analysis of the nature and role of the Pakistan army in the country's polity as well as its turbulent relationship with the United States. Shuja Nawaz examines the army and Pakistan in both peace and war. Using many hitherto unpublished materials from the archives of the United States, the United Kingdom, and the General Headquarters of the Pakistan Army, as well as interviews with key military and political figures in Pakistan and the United States, he sheds light not only on the Pakistan Army and its US connections but also on Pakistan as a key Muslim country in one of the world's toughest neighborhoods. In doing so, he lays bare key facts about Pakistan's numerous wars with India and its many rounds of political musical chairs, as well as the Kargil conflict of 1999. He then draws lessons from this history that may help Pakistan end its wars within and create a stabler political entity.

Quran: A Simple English Translation (Goodword ! Koran) Maulana Wahiduddin Khan (Translator) , 2013-12-19 The Quran, a book which brings glad tidings to mankind along with divine admonition, stresses the importance of man's discovery of truth on both spiritual and intellectual planes. Every book has its objective and the objective of the Quran is to make man aware of the Creation plan of God. That is, to tell man why God created this world; what the purpose is of settling man on earth; what is required from man in his pre-death life span, and what he is going to confront after death. The purpose of the Quran is to make man aware of this reality, thus serving to guide man on his entire journey through life into the after-life. The main themes of the Quran are enlightenment, closeness to God, peace and spirituality. The Quran uses several terms, tawassum, tadabbur, and tafakkur, which indicate the learning of lessons through reflection, thinking and contemplation on the signs of God scattered across the world. The present translation of the Quran and its explanatory notes are written keeping in mind these very themes. Koran, Qur'an, Coran, Kuran, Islam, Prophet Muhammad

The Islamic State Taqiuddin an Nabahani, 2017-06-20 The Islamic state is not a dream, nor is it a figment of the imagination, for it had dominated and influenced history for more than thirteen hundred years. It was indeed a reality which provided the most successful system for society - political, economic, social, and judicial and so on. It was a state that included Muslims and non - Muslims both living in harmony until its destruction in 1924 at the hands of the West and its treacherous agents within the state. Today, the Muslims worldwide are eagerly working for the re-establishment of this state, and they are eager for the return of the Islamic glory. This book essentially highlights the methodology of Muhammad (saw) in his struggle to establish the State in Madinah, and it focuses on the rise and expansion of the Islamic State after his (saw) death. The book goes on to explain the factors that led to the decline and then the tragic end of the Islamic State in 1924 CE.
