Off-Track and Online Holly Kruse,2016-04-01 How horse racing's pioneering use of communication and information networks helped shape the modern media, information, and leisure environment. The horse racing industry has been a pioneer in interactive media, information networks, and their deployment. The race track and the off-track betting parlor offer interactive media environments that reconfigure the relationships among private and public space and presence and copresence. In this book, Holly Kruse explores how horse racing has used media over the last several decades, arguing that examining the history and context of horse racing and gambling gives us a clearer understanding of the development of data networks, media complexes, public entertainment, and media publics. Kruse describes an enormous industry that depends on global information and communication flows made possible by a network linking racetracks, homes, off-track betting, farms, and auction sites. Racetrack architecture now allows for the presence of screens, most showing races from other locations. Online betting sites enable bettors to wager from home. Off-track betting facilities collect wagers on races from all over the country. Odds are set interactively through the pari-mutuel market system. Kruse considers the uses of public space, and its redefinition by public screens; the effect of interactive media on the racing industry, including networked, in-home betting; the "technopanic" over online poker and the popularity of in-home pari-mutuel wagering; and the use of social media by racing fans to share information and creative work with no financial payoff.

American Auto Racing J.A. Martin,Thomas F. Saal,2014-07-15  
As soon as there were automobiles, there was racing. The first recorded race, an over road event from Paris to Rouen, France, was organized by the French newspaper Le Petit Journal in 1894. Seeing an opportunity for a similar event, Hermann H. Kohlsaat--publisher of the Chicago Times-Herald--sponsored what was hailed as the Race of the Century, a 54-mile race from Chicago's Jackson Park to Evanston, Illinois, and back. Frank Duryea won in a time of 10 hours and 23 minutes, of which 7 hours and 53 minutes were actually spent on the road. Race cars and competition have progressed continuously since that time, and today's 200 mph races bear little resemblance to the event Duryea won. This work traces American auto racing through the 20th century, covering its significant milestones, developments and personalities. Subjects included are: Bill Elliott, dirt track racing, board track racing, Henry Ford, Grand Prix races, Dale Earnhardt, the Vanderbilt Cup, Bill France, Gordon Bennett, the Indianapolis Motor Speedway, the Mercer, the Stutz, Duesenberg, Frank Lockhart, drag racing, the Trans Am, Paul Newman, vintage racing, land speed records, Al

Unser, Wilbur Shaw, the Corvette, the Cobra, Richard Petty, NASCAR, Can Am, Mickey Thompson, Roger Penske, Mario Andretti, Jeff Gordon, and Formula One. Through interviews with participants and track records, this text shows where, when and how racing changed. It describes the growth of each different form of auto racing as well as the people and technologies that made it ever faster.
