*Music, Race, and Nation* Peter Wade, 2000-08 Long a favorite on dance floors in Latin America, the porro, cumbia, and vallenato styles that make up Colombia's música tropical are now enjoying international success. How did this music—which has its roots in a black, marginal region of the country—manage, from the 1940s onward, to become so popular in a nation that had prided itself on its white heritage? Peter Wade explores the history of música tropical, analyzing its rise in the context of the development of the broadcast media, rapid urbanization, and regional struggles for power. Using archival sources and oral histories, Wade shows how big band renditions of cumbia and porro in the 1940s and 1950s suggested both old traditions and new liberties, especially for women, speaking to a deeply rooted image of black music as sensuous. Recently, nostalgic, whitened versions of música tropical have gained popularity as part of government-sponsored multiculturalism. Wade's fresh look at the way music transforms and is transformed by ideologies of race, nation, sexuality, tradition, and modernity is the first book-length study of Colombian popular music.

Modernity and Colombian Identity in the Music of Carlos Vives Y La Provincia Manuel Sevilla, Manuel Sevilla Peñuela, Juan Sebastián Ochoa, Carolina Santamaría-Delgado, Carlos Eduardo Cataño, Carlos Eduardo Cataño Arango, 2020-07-24 With extensive ethnographic and archival work, this book analyzes the works of Carlos Vives and La Provincia, the most influential artists of Colombia's music scene in the last twenty-five years, to uncover the basis of the Land of Oblivion, a musical and literary metaphor for Colombia's national identity.

**Latin Music [2 volumes]** Ilan Stavans,2014-07-29 This definitive two-volume encyclopedia of Latin music spans 5 centuries and 25 countries, showcasing musicians from Celia Cruz to Plácido Domingo and describing dozens of rhythms and essential themes. Eight years in the making, *Latin Music: Musicians, Genres, and Themes* is the definitive work on the topic, providing an unparalleled resource for students and scholars of music, Latino culture, Hispanic civilization, popular culture, and Latin American countries. Comprising work from nearly 50 contributors from Spain, Latin America, the Caribbean, and the United States, this two-volume work showcases how Latin music—regardless of its specific form or cultural origins—is the passionate expression of a people in constant dialogue with the world. The entries in this expansive encyclopedia range over topics as diverse as musical instruments, record cover art, festivals and celebrations, the institution of slavery, feminism, and patriotism. The music, traditions, and history of more than two dozen countries—such as Argentina, Brazil, Costa Rica, Cuba, El Salvador, Guatemala, Honduras, Mexico, Panama, Spain, and Venezuela—are detailed, allowing readers to see past common stereotypes and appreciate the many different forms of this broadly defined art form.

Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago, the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people, networks and organizations, regulation and policies, audience research, and radio's technology. This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old, with essays that provide essential information on the subject as well as comment on the significance of the particular person, organization, or topic being examined.

**Aaron Copland in Latin America** Carol A. Hess, 2023-06-06 Between 1941 and 1963, Aaron Copland made four government-sponsored tours of Latin America that drew extensive attention at home and abroad. Interviews with eyewitnesses, previously untapped Latin American press accounts, and Copland's diaries inform Carol A. Hess's in-depth examination of the composer's approach to cultural diplomacy. As Hess shows, Copland's tours facilitated an exchange of music and ideas with Latin American composers while capturing the tenor of United States diplomatic efforts at various points in history. In Latin America, Copland's introduced works by U.S. composers (including himself) through lectures, radio broadcasts, live performance, and conversations. Back at home, he used his celebrity to draw attention to regional composers he admired. Hess's focus on Latin America's reception of Copland provides a variety of outside perspectives on the composer and his mission. She also teases out the broader meanings behind reviews of Copland and examines his critics in the context of their backgrounds, training, aesthetics, and politics.

*The City of Musical Memory* Lise A. Waxer, 2012-01-01 Winner of the ASCAP Deems Taylor Award for Popular Music Books (2002) Winner of the Society for Ethnomusicology's (SEM) Alan P. Merriam Prize (2003) Salsa is a popular dance music developed by Puerto Ricans in New York City during the 1960s and 70s, based on Afro-

Cuban forms. By the 1980s, the Colombian metropolis of Cali emerged on the global stage as an important center for salsa consumption and performance. Despite their geographic distance from the Caribbean and from Hispanic Caribbean migrants in New York City, Caleños (people from Cali) claim unity with Cubans, Puerto Ricans and New York Latinos by virtue of their having adopted salsa as their own. *The City of Musical Memory* explores this local adoption of salsa and its Afro-Caribbean antecedents in relation to national and regional musical styles, shedding light on salsa's spread to other Latin American cities. Cali's case disputes the prevalent academic notion that live music is more real or authentic than its recorded versions, since in this city salsa recordings were until recently much more important than musicians themselves, and continued to be influential in the live scene. This book makes valuable contributions to ongoing discussions about the place of technology in music culture and the complex negotiations of local and transnational cultural identities.

**Music as a Spandrel of Evolutionary Adaptation for Speech** Gregor Tomc, 2023-07-14 Some forms of human behavior make no sense in the light of evolution. Music is one of them, and it is the main subject of this book. Here, it is interpreted from a holistic perspective; music is embedded in our nature, it is embodied in our organisms, and it is emergent, a language that opens the doors of imagination for us. The first half of the book is dedicated to cognitive aspects of acoustic signalization: of learned bird song, of automatic mammal calls, and of speech and music in humans. The second part of the book deals with the culture of music in European modernity. The question of the relation of music and imagination is also addressed. The book posits that music makes it easier for us to depart from paramount reality and become creative – not bad for something that started as a spandrel of speech.

**Afro-Colombian Hip-hop** Christopher Dennis, 2012 *Afro-Colombian Hip-Hop: Globalization, Transcultural Music, and Ethnic*

Identities, by Christopher Dennis, explores the impact that globalization and the transnational spread of U.S. popular culture--specifically hip-hop and rap--are having on the social identities of younger generations of black Colombians. Along with addressing why and how hip-hop has migrated so effectively to Colombia's black communities, Dennis introduces readers to some of the country's most renowned Afro-Colombian hip-hop artists, their musical innovations, and production and distribution practices. Above all, Dennis demonstrates how, through a mode of transculturation, today's young artists are transforming U.S. hip-hop into a more autonomous art form used for articulating oppositional social and political critiques, reworking ethnic identities, and actively contributing to the reimagining of the Colombian nation. Afro-Colombian Hip-Hop uncovers ways in which young Afro-Colombian performers are attempting to use hip-hop and digital media to bring the perspectives, histories, and expressive forms of their marginalized communities into national and international public consciousness.
