Flashbacks to Happiness Randolph Michaels,2005-09 What do Gregory Abbott, Boy Meets Girl, Lou Christie, Club Nouveau, Gardner Cole, Cutting Crew, Rick Dees, The Escape Club, Expose, Michael Sembello, Billy Vera & the Beaters, Rob Hyman, Tiffany, The Knack, A Taste of Honey and Wild Cherry all have in common? For starters, they are all pop stars that have enjoyed the experience of having their songs reach the Number One position on the American music charts. They are also among the 140 artists who responded to writer Randolph Michael's call to be questioned for this book, Flashbacks to Happiness, which is a survey of hit songs of the 1980's and what it took to make them. Readers who are interested in popular music, and the '80's decade in particular, will find the interviews included within these pages to be fascinating testaments of how the music industry has changed to such a drastic extent in the last 20 years. It also details how artists have managed to keep their careers alive despite today's increasingly unstable marketplace and often-fickle music buying public.

Analogue Deyan Sudjic,2024-03-14 The perfect antidote to your digital diet, this is a delightful exploration of analogue product design that crosses categories and generations, celebrating the timeless allure of the real and tactile over the merely virtual. Covering sound, vision, communication and information, Analogue: A Field Guide is an evocative trip through an era of innovative design, profiling 250 classic objects from radios to turntables, TVs to cameras, and typewriters to telephones. Along the way, it surveys all the iconic brands as well as the technological developments that have made these devices possible. There is a growing nostalgia for physical, real-world interaction with design and technology and a desire to reconnect with both things and people, something that has been eroded by the digital revolution. The wide-ranging approach of this book enables it to show the deeper cultural and social significance of the analogue era, with the authority to convince those who know a lot about each category and the breadth to attract the non-specialist. Ideal for those nostalgic for physical media, as well as those who collect, use and maintain these older technologies. Written by leading design historian, Deyan Sudjic, the book includes works by such renowned designers as Dieter Rams, Philippe Starck, Ettore Sottsass and Richard Sapper, and taps into the ever-growing renaissance of interest in the analogue world.
