Immigration and Strategic Public Health Communication Robert Smith, Don Waisanen, Guillermo Yrizar Barbosa, 2019-07-05 This book engages a key question facing governments and similar institutions in countries of immigration or emigration: how should these governments and institutions communicate with immigrants so that they will listen to and act on their messages? Drawing on original research with Mexican emigrants in New York and the Mexican government's Seguro Popular health care program, the authors examine the ways in which governments integrate migrants into diasporic political, medical, educational, and other systems, and how migrant-sending countries communicate with their emigrants abroad. In analyzing how these efforts fail or succeed, this book presents strategies and policy recommendations that many governments and institutions can use to engage their citizens or clients ethically and effectively. Offering a valuable approach to the study of race, migration, and public policy, this book will be of key importance to researchers and graduate students in public health, sociology, marketing and business, political science, Latinx studies, and international communication.

EBOOK: The Media In Russia Anna Arutunyan, 2009-09-16 This book introduces readers to the Russian media, its current landscape, and its history by outlining the chief challenges faced by Russian journalists on their quest for media freedom. Focusing on how the Government has traditionally controlled the media through censorship, financial involvement, and relations between media moguls and the State, the book analyses to what extent the Russian media has become 'free' since the fall of Communism. The author questions whether freedom is possible at all in a society where the media has traditionally been so closely linked to the State. There are chapters on different forms of media including print, television, radio and the Internet. Each chapter identifies the main hurdles faced by the particular medium and considers the potential it has for becoming truly independent. Key features include: Vivid examples and case studies of the power play between television and the State during the tumultuous 1990s Clear outline of various different forms of media Comprehensive historical overview supported with examples from relevant publications Drawing on her own experience as a professional journalist, the author, provides a first hand account of what journalists in Russia are encountering today. This position allows the author to frankly discuss the tangible issues that impact those involved in the media and their audiences. By providing both a description of the current situation and an overview of Russian media history, The Media in Russia offers a unique introduction to the field and is key reading for students across various disciplines including Russian studies, media studies and politics.

Building the Fourth Estate Chappell Lawson, Joseph Chappell Hutcheson Lawson, 2002-08-05 Building the Fourth Estate reveals the crucial part played by the Mexican media in the country's remarkable recent political transformation. Based on an in-depth examination of Mexico's print and broadcast media over the last twenty-five years, Chappell Lawson traces the role of the media in that country's move toward democracy, demonstrating the reciprocal relationship between changes in the press and changes in the political system. In addition to illuminating the nature of political change in Mexico, Lawson's findings have broad implications for understanding the role of the mass media in democratization around the world. -- from back cover.

Constitutional Democracy in Crisis? Mark A. Graber, Sanford Levinson, Mark Tushnet, 2018-08-23 Is the world facing a serious threat to the protection of constitutional democracy? There is a genuine debate about the meaning of the various political events that have, for many scholars and observers, generated a feeling of deep foreboding about our collective futures all over the world. Do these events represent simply the normal ebb and flow of political possibilities, or do they instead portend a more permanent move away from constitutional democracy that had been thought triumphant after the demise of the Soviet Union in 1989? Constitutional Democracy in Crisis? addresses these questions head-on: Are the forces weakening constitutional democracy around the world general or nation-specific? Why have some major democracies seemingly not experienced these problems? How can we as scholars and citizens think clearly about the ideas of constitutional crisis or constitutional degeneration? What are the impacts of forces such as globalization, immigration, income inequality, populism, nationalism, religious sectarianism? Bringing together leading scholars to engage critically with the crises facing constitutional democracies in the 21st century, these essays diagnose the causes of the present afflictions in regimes, regions, and across the globe, believing at this stage that diagnosis is of central importance - as Abraham Lincoln said in his House Divided speech, If we could first know where we are, and whither we are tending, we could then better judge what to do, and how to do it.

The Bloomsbury Handbook of Radio Kathryn McDonald,Hugh Chignell,2023-01-26 The Bloomsbury Handbook of Radio presents exciting new research on radio and audio, including broadcasting and podcasting. Since the birth of radio studies as a distinct subject in the 1990s, it has matured into a second wave of inquiry and scholarship. As broadcast radio has partly given way to podcasting and as community initiatives have pioneered more diverse and innovative approaches so scholars have embarked on new areas of inquiry. Divided into seven sections, the Handbook covers: - Communities - Entertainment - Democracy - Emotions - Listening - Studying Radio - Futures The Bloomsbury Handbook of Radio is designed to offer academics, researchers and practitioners an international, comprehensive collection of original essays written by a combination of well-established experts, new scholars and industry practitioners. Each section begins with an introduction by Hugh Chignell and Kathryn McDonald, putting into context each contribution, mapping the discipline and capturing new directions of radio research, while providing an invaluable resource for radio studies.

The Routledge Handbook of the Politics of the #MeToo Movement Giti Chandra,Irma Erlingsdóttir,2020-11-26 Since the MeToo hashtag went viral in 2017, the movement has burgeoned across social media, moving beyond Twitter and into living rooms and courtrooms. It has spread unevenly across the globe, with some countries and societies more impacted than others, and interacted with existing feminist movements, struggles, and resistances. This interdisciplinary handbook identifies thematic and theoretical areas that require attention and interrogation, inviting the reader to make connections between the ways in which the #MeToo movement has panned out in different parts of the world, seeing it in the context of the many feminist and gendered struggles already in place, as well as the solidarities with similar movements across countries and cultures. With contributions from gender experts spanning a wide range of disciplines including political science, history, sociology, law, literature, and philosophy, this groundbreaking book will have contemporary relevance for scholars, feminists, gender researchers, and policy-makers across the globe.

Violence on Television Cynthia A. Cooper,1996 Congressional scrutiny and public criticism of violent television have spanned nearly four decades with little change in the emphasis of those protests. Despite the intensive spotlight cast on broadcasters, few in Congress have really tried to affect any real changes in the amount and nature of violence in television programming. Although there have been many studies conducted on the effects of television, few authors have explored the political, cultural and societal influences in the battles over television violence. This book explores the complexities of Congressional and public scrutiny and the dynamics of communications policy-making in the United States.
