

Raging Fish

Clifford Lane

The Secret Life of Fish Doug Mackay-Hope,2021-11-02 Discover the astonishing truth about our aquatic cousins: how they think and what they know, their experiences and unique behaviours, and the many things we have in common. There are 33,000 species of fish on our planet, and that number is constantly increasing. In context, that is more than all the species of mammals, birds, amphibians and reptiles added together, making fish the most numerous vertebrates on our planet. Waters worldwide are teeming with these elusive creatures, but how much do we really know about them? Grouped into thematic chapters - including the Dangerous and Deadly,Unusual Giants and Mini Marvels - in this comprehensive book biologist Doug Mackay-Hope profiles the secret lives of 50 of our most interesting underwater cousins in an insightful and myth-busting study, complete with charming watercolour diagrams and expert insights. Learn about the White-Spotted Pufferfish, whose spines hide a deadly toxin, or the Ocellate River Stingray, who lurks in the rivers of South America and who can kill with just one touch of it's barbed stinger. Meet Bargibant's Pygmy Seahorse, who measures just 2cm in length, as well as the enourmous Whale Shark, which grows to around 13m in length. Be fascinated by the wierd creatures of the deep ocean, such as the Peter's Elephantnosed Fish or the kaleidescopic Picasso's Triggerfish. With a foreword by Jeremy Wade, presenter of River Monsters and Mighty Rivers, and official fish aficionado, this book is a complete compendium of fascinating fish facts, with maps showing where in the globe they can be found, plus facts on how they live, hunt and escape predators. Beautiful illustrations and photographs accompany each entry, as well as interesting facts on how they evolved to adapt tochanging environments, making this book the perfect guide to all things aquatic.

Hot Tub Spaceship Brian A. Pankratz,2018-02-07 This is the story of a guy trying to find his way through some tough years, one page at a time. These are the irradiated thoughts of a doubter trying to find some humour and meaning in the midst of a health crisis, a spiritual crisis, and an employment crisis. And this is the gift from a dad trying to find the words to leave behind for his children. Something to remember him by when he's gone.

Pre-Meiji Education in Japan Frank Alanson Lombard,1913

Astor Circle Emory Clark,2024-02-13 Through the use of poetry and prose, I hope to express the love, affection, tenderness and devotion which I first found with my family in our big log house, far back in the woods. I want to show how the urge to write about my life has followed me along moutain trails, down city streets, and within my own special friendships and romantic adventures. All those events do not hold a candle to the importance of raising my beautiful children, or to the myriad of the ongoing spendid experiences with my grandchildren and great grandchildren! Happy reading!
