It's implicit that no matter their vocation, what they do after hours must be something that will shatter the images of what they consistently see and hear.

Houses burn down. It is a jungle out there. *Unflappable* is a book that helps readers not only survive but embrace these ups and downs of life and learn to stay centered and peaceful regardless of the circumstances. Drawing on the wisdom of the mystics and her NLP (neuro-linguistic programming) training Michaels offers a six-step process for happiness and serenity regardless of how crazy life gets. The Six Steps include: Discover the lay of the land: Look at the inner contours of your life. Decide where you are and where you want to go. Examine the river running through your inner landscape—in all of its inconsistencies and incongruities. Ride the river's rapids: go with the flow. Learn to identify personal challenges on your journey. Learn how to reduce heightened emotional distress. Enjoy the ride. *Unflappable* offers a unique route to a different brand of happiness—one that doesn't depend on

outside circumstances, and incorporates a model for conscious living that leads to serenity.

Transforming Preschool Storytime Betsy Diamant-Cohen,Melanie A. Hetrick,2013 According to recent research, the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly, maintaining interest. Using a selected book in a number of consecutive preschool storytimes, but presenting it differently each time, can help children learn new skill sets. This book presents a new approach to storytime, one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant-Cohen, recently awarded the 2013 ASCLA Leadership and Professional Achievement Award, and Hetrick offer a year's worth of activities specifically

designed to address multiple intelligences through a repetition-based process. Incorporating recent theories on developmental learning, this book includes Scripts for 8 different books, with enough activities to repeat each one for six weeks, along with lists of optional alternative books Planning aids such as outlines of storytime sessions, a fill-in-the-blanks planning sheet, questions for evaluation, and tips for enhanced storytimes using props and crafts Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents, caregivers, and other stakeholders From setup to execution, here's everything you need to create and implement a successful, elevated storytime.
