Creating the Reflective Habit Michelle Lucas, 2023-06-12 Reflection is a critical skill which can enhance the quality of our professional and domestic lives. Yet in a world of busy, reflective practice often falls to the bottom of the list. We are not alone in the struggle to use the pause button well. This book is here to help. The book offers a practical toolkit which shows you how to create a sustainable reflective habit. We begin by exploring the meaning and territory of reflection, drawing from the literature to provide context and understanding. The following chapters contain prompts and exercises which will appeal to different processing preferences. The intention throughout this book is firstly, to show that reflection means so much more than journaling, and secondly, to encourage an appetite for experimentation that results in a desire to reflect on a regular and sustainable basis. We invite you into an immersive experience, playing with the multitude of reflective possibilities on offer. It is only through repeated trial and error, enlightenment and frustration that we will come to create our own reflective habit. Written by a coach and coach supervisor, this practical book is an invaluable resource for helping practitioners, but will also be immensely helpful to anyone and everyone who wants to get their pause button in good working order. The book also provides Learning & Development professionals with a suite of tools and materials to help build the reflective practice skill set in their organisation.

Singing in the Rain Tim Hopgood, 2022-07-07 'I'm singing in the rain, Just singing in the rain. What a glorious feeling. I'm happy again!' Based on the classic song, this beautifully illustrated picture book celebrates rain and all its fun. Jump in puddles, raise umbrellas, and dance with joy through the pages of this gorgeous story. Sweet and positive in its message, with bright, eye-catching art, this book is an uplifting celebration of rain! 'Singing in the Rain' is one of the world's best-loved songs and the centrepiece of one of my favourite films. I love the song's positive message, and the iconic sequence of Gene Kelly dancing in the rain always raises a smile. As adults we tend to think of rain as an inconvenience rather than the joyous thing that it is. Next time it rains, step outside, feel the rain on your face, and give the clouds up above your biggest smile!'

The Happiest Baby on the Block Harvey Karp, M.D., 2008-11-19 Perfect for expecting parents who want to provide a soothing home for the newest member of their family, *The Happiest Baby on the Block*, the national bestseller by respected pediatrician and child development expert Dr. Harvey Karp, is a revolutionary method for calming a crying infant and promoting healthy sleep from day one. In perhaps the most important parenting book of the decade, Dr. Harvey Karp reveals an extraordinary treasure sought by parents for centuries --an automatic "off-switch" for their baby's crying. No wonder pediatricians across the country are praising him and thousands of Los Angeles parents, from working moms to superstars like Madonna and Pierce Brosnan, have turned to him to learn the secrets for making babies happy. Never again will parents have to stand by helpless and frazzled while their poor baby cries and cries. Dr. Karp has found there IS a remedy for colic. "I share with parents techniques known only to the most gifted baby soothers throughout history ...and I explain exactly how they work." In a innovative and thought-provoking reevaluation of early infancy, Dr. Karp blends modern science and ancient wisdom to prove that newborns are not fully ready for the world when they are born. Through his research and experience, he has developed four basic principles that are crucial for understanding babies as well as improving their sleep and soothing their senses: ·The Missing Fourth Trimester: as odd as it may sound, one of the main reasons babies cry is because they are born three months too soon. ·The Calming Reflex: the automatic reset switch to stop crying of any baby in the first few months of life. ·The 5 "S's": the simple steps (swaddling, side/stomach position, shushing, swinging and sucking) that trigger the calming reflex. For centuries, parents have tried these methods only to fail because, as with a knee reflex, the calming reflex only works when it is triggered in precisely the right way. Unlike other books that merely list these techniques Dr. Karp teaches parents exactly how to do them, to guide cranky infants to calm and easy babies to serenity in minutes...and help them sleep longer too. ·The Cuddle Cure: the perfect mix the 5 "S's" that can soothe even the most colicky of infants. In the book, Dr. Karp also explains: What is colic? Why do most babies get much more upset in the evening? How can a parent calm a baby--in mere minutes? Can babies be spoiled? When should a parent of a crying baby call the doctor? How can a parent get their baby to sleep a few hours longer? Even the most loving moms and dads sometimes feel pushed to the breaking point by their infant's persistent cries. Coming to the rescue, however, Dr. Karp places in the hands of parents, grandparents, and all childcare givers the tools they need to be able to calm their babies almost as easily as...turning off a light. From the Hardcover edition.
