**Raising Children with Autism** Katherine Smiley,2015-03-24 Questions Every Parent Has About Their Autistic Child; And The Answers... Autism is a complex disorder, and there really is no one singular way to discuss or define it. But there is one thing that is true across the board when it comes to autism: the number of questions parents have. I know what it's like to be unsure and worried about what to do for the best for a loved one with autism. I know all too well about the many challenges and frustrations that you are facing with your autistic child. When my son was diagnosed with autism in 2009, I scoured every book and website I could find looking for answers. And for every question answered, there always seemed to be three more

questions related to the original, and on and on. Many resources I found were either out of date, or written with medical jargons that only doctors could understand. You probably have the same frustrations on your journey to understand autism. Fortunately you don't have to spend countless hours searching and verifying information like I did. I wrote this guide to cover a lot of the basic questions parents have, and a few you may have never thought of. If you'd like to have a better understanding of the reasons behind your autistic child's behaviors, so you can help your child more and take some of the pressure off you and the rest of your family then this is the guide for you. Here are just some of the things you will learn in Raising Children with Autism: 100 Things Every Parent of an Autistic Child Must Know: - What are the characteristics of Autism? - What are the early warning signs of Autism that parents should look for? - How do I get my child evaluated? & Will insurance cover all this? - I want to have more children. Will they also be autistic? - What does Early Intervention entail? - How much therapy does my child really need? - What are biomedical treatments? - How dieting can help control autism naturally? - The effectiveness of the most common alternative autism treatments - What kind of services will the school district offer my child? - My child never sleeps! What can I do? - How to choose an ABA provider? - How to cope with the stress of raising an autistic child? - How to ensure the safety of my child? - Is joining a parent support group really beneficial? - Will my child ever marry or have children of their own? - And much more...

Us parents must devote most of our time to accomplish this significant progress. Hopefully, you will find genuine happiness of what you and your child can and will have accomplished. My story will hopefully be very helpful to you and change your entire concept that autistic children can become successful, independent and productive in life, no matter what negativity is ever told to you.

Raising Sebastian Kah Ying Choo, 2006 Studienarbeit aus dem Jahr 2009 im Fachbereich Pädagogik - Allgemein, Note: 1,0, Technische Universität Darmstadt (Institut für Allgemeine Pädagogik und Berufspädagogik), Veranstaltung: Seminar Reformschulen und Schulreform, Sprache: Deutsch, Abstract: Mit der Veröffentlichung der Ergebnisse aus der ersten PISA-Studie (Programme for International Student Assessment) aus dem Jahr 2000 setzte auch in Deutschland eine Diskussion um die Leistungsfähigkeit des nationalen Bildungssystems ein. Es wurden Ursachen für das unerwartet schwache Abschneiden der deutschen Schülerinnen und Schüler gesucht. Die vorliegende Arbeit beschäftigt sich mit der Frage, welche Forderungen sich anhand der in PISA getesteten Kompetenzen zum einen für eine mögliche Reform des deutschen Bildungssystems und zum anderen für die (Aus-) Bildung junger Menschen stellen lassen. Darüber hinaus wird zu überprüfen sein, ob die getesteten Kompetenzen tatsächlich das Erreichen eines bestimmten Bildungsniveaus sichern und somit jungen Menschen ein Wissen an die Hand gibt, um erfolgreich im (Erwerbs-) Leben bestehen zu können. Das erste Kapitel befasst sich mit den Begriffen Bildung, Schlüsselqualifikationen und Kompetenz. Hierzu werden verschiedene Konzepte und Definitionen gegenübergestellt, um letztendlich die Anforderungen einer modernen Wissensgesellschaft an ihre Menschen darstellen zu können. Das zweite Kapitel stellt die in PISA getesteten Basiskompetenzen (Lesekompetenz, Mathematische Kompetenz, Naturwissenschaftliche Kompetenz) dar. Zusätzlich wird das Konzept der Problemlösungskompetenz beispielhaft für den Bereich der Fächerübergreifenden Kompetenzen erläutert. Im letzten Kapitel der Arbeit werden Reaktionen auf PISA, Reformvorschläge für das Bildungssystem und Bewertungen der Studie gegenübergestellt. Es werden Vorschläge aufgezeigt und Kriterien erläutert, anhand derer eine Reform des deutschen Bildungssystems erfolgen könnte bzw. sollte. Das abschließende Resümee gibt einen Überblick über die gesamte Arbeit und bringt die wesentlichen Ergebnisse auf den Punkt und stellt einen Zusammenhang der verschiedenen Aspekte her.

Turn Autism Around Mary Lynch Barbera, Ph.D.,2022-03-29 Help remediate—and in some cases eliminate—autism and other developmental delays in young children, even in as little as 15 minutes a day with this toolkit of behavioral practices that can be taught at home. Developmental delays and signs of autism usually show up before 18 months of age, yet children are often not diagnosed until they are 4 or 5 years old. In Turn Autism Around, Dr. Mary Barbera explains why parents can't afford to worry and wait in long lines for evaluations and treatment while not knowing how to help their children. She empowers parents, caregivers, and early intervention professionals to regain hope and take back control with simple strategies to dramatically improve outcomes for their children. Dr. Barbera has created a new approach to teaching kids with developmental delays that uses the science of Applied Behavior Analysis (ABA) married with a positive, child-friendly methodology that any parent can use—whether or not their child has delays—to learn to teach communication skills, socialization strategies, as well as tackle sleep, eating, potty training, and behavior challenges in a positive, effective, and lasting way. Turn Autism Around is the first book of its kind that calls attention to an important fact: parents can make a tremendous impact on their child's development through behavioral practices taught at home, even in as little as 15 minutes a day. Her program shows these autism and developmental delays can be remediated, and in some cases, delays can be caught up altogether, if parents intervene while the child is young. This book is for parents of young children aged one-to-five years who are passionate about helping their child as well as learning how they can change the trajectory of their child's and family's life.
