Tracing the Visual Language of Raphael's Circle to 1527 Alexis R. Culotta, 2020-06-22 Alexis R. Culotta explores how the Renaissance master's recombination of visual sources ultimately served as a springboard for artistic innovation for his close associates as they collaborated in the years following Raphael's death.

Raphael and America David Alan Brown, National Gallery of Art (U.S.), 1983

The Boston Raphael Belinda Rathbone, 2014-10 The riveting story of a museum director caught in a web of local and international intrigue while secretly pursuing a forgotten Renaissance painting—the Boston Raphael. On the eve of its centennial celebrations in 1969, the Boston MFA announced the acquisition of an unknown and uncatalogued painting attributed to Raphael. Boston's coup made headlines around the world. Soon, an Italian art sleuth began investigating the painting's export from Italy, challenging the museum's ownership. Simultaneously, experts on both sides of the Atlantic lined up to debate its very authenticity. The museums charismatic director, Perry T. Rathbone, faced the most challenging crossroads of his career. The Boston Raphael was a media sensation in its time, but the full story of the forces that converged on the museum and how they intersected with the challenges of the Sixties is now revealed in full detail by the director's daughter.

Revival: Raphael (1948) Oskar Fischel, 2018-04-20 Beginning with a dissertation on Raphael's drawings, Oskar Fischel made it his endeavor, with an ever growing knowledge of Raphael, to arrive at a comprehensive representation, and this he has left behind this book. The illustrations gathered together by him over a period of many years are intended, in the selection here provided, to induce the reader to seek out the works of the artist. The book speaks of Raphael's influential manner on society.

Raphael Catherine Whistler, Benjamin David Harwood Thomas, Achim Gnann, Angelamaria Aceto, 2017 The selection of drawings demonstrates how Raphael created a specific mode of visual invention and persuasive communication through drawing. He used drawing both as conceptual art (including brainstorming sheets) and as a practice based on attentive observation (such as drawing from the posed model). Yet Raphael's drawings also reveal how the process of drawing in itself, with its gestural rhythms and spontaneity, can be a form of thought, generating new ideas. The Oxford exhibition will present drawings that span Raphael's entire career, encompassing many of his major projects and exploring his visual language from inventive ideas to full compositions. The extraordinary range of drawings by Raphael in the Ashmolean and the Albertina, enhanced by appropriate loans, will enable this exhibition to cast new light on this familiar artist, transforming our understanding of Raphael's art.

Raphael, 1900

Raphael to Renoir Stijn Alsteens, Metropolitan Museum of Art (New York, N.Y.), National Gallery of Scotland, 2009 The works from the Bonna Collection are illustrated in color, and whenever possible, at their actual sizes. They are arranged chronologically by the artist's date of birth and are

grouped according to the main artistic schools. This volume is introduced by an interview with Jean Bonna by George Goldner. Each drawing is then described in an entry, many of which have comparative illustrations that shed further light on individual works.--BOOK JACKET.

Raphael Sanzio ,1900

Raphael's World Michael Collins,2020-05-23 Hailed by his contemporaries as “the divine painter,” Raphael Sanzio of Urbino (1483-1520) was one of the greatest artists of the Italian Renaissance. A contemporary of Michelangelo and Leonardo Da Vinci, Raphael was sought out by popes, kings and aristocrats to decorate their residences. Michael Collins’ new biography, *Raphael’s World*, portrays the era in which the divine painter lived. Born thirty years after the invention of the printing press and nine years before the discovery of the New World, Raphael harnessed the new techniques of printing and the riches which flowed from the Americas into Europe in the early 16th century. The political map of Europe was changing as Raphael painted for his wealthy patrons. Pope Julius II commissioned him to decorated his apartments at the Vatican while Pope Leo X appointed him architect of the new St. Peter’s which replaced the 1000 year old Constantinian basilica. While Raphael painted the Apostolic Palace and designed tapestries to be hung in the Sistine Chapel, a German friar, Martin Luther was about to rend Christendom apart. *Raphael’s World* brings the reader into the ducal court of Urbino, and follows the young Raphael to Perugia where he studied in the studio of Perugino, to Florence where he saw Michaelangelo and Da Vinci at work, to Rome where he painted for popes and cardinals, as well as Agostino Chigi, one of the wealthiest patrons of the day. Based on contemporary documentation, *Raphael’s World* explores the complex era in which the artist flourished and introduces the reader to the fascinating panoply of patrons. The 500th anniversary of the death of Raphael occurs on 6 April 2020. There will be a number of events to

celebrate the event, including the rare display of his Sistine tapestries and a symposium at the Vatican and other galleries around the world.

The Complete Paintings of Raphael Raphael, Pierluigi De Vecchi, 1987

Our America Smithsonian American Art Museum, 2014 Explores how one group of Latin American artists express their relationship to American art, history and culture.

The Cults of Raphael and Michelangelo Tamara Smithers, 2022-07-29 This study explores the phenomenon of the cults of Raphael and Michelangelo in relation to their death, burial, and posthumous fame—or second life—from their own times through the nineteenth century. These two artists inspired fervent followings like no other artists before them. The affective response of those touched by the potency of the physical presence of their art- works, personal effects, and remains—or even touched by the power of their creative legacy—opened up new avenues for artistic fame, divination, and commemoration. Within this cultural framework, this study charts the elevation of the status of dozens of other artists in Italy through funerals and tomb memorialization, many of which were held and made in response to those of Raphael and Michelangelo. By bringing together disparate sources and engaging material as well as a variety of types of artworks and objects, this book will be of great interest to anyone who studies early modern Italy, art history, cultural history, and Italian studies.

Marcantonio Raimondi, Raphael and the Image Multiplied Edward H. Wouk, David Morris, 2016 An in-depth collection of essays on the leading engraver and printmaker of the Italian Renaissance, accompanying the first major exhibition of his work in over three decades, at the Whitworth Gallery, Manchester.

What makes a Raphael a Raphael? Richard Mühlberger, Raphael, 1993

Raphael and His Age Paul Joannides, Raphael, Cleveland Museum of Art, Lille (France). Musée des beaux-arts, 2002 One of the purposes of this exhibition and its catalogue is to help familiarize North American audiences with a great French collection of Italian drawings that, famous for its remarkable holding of sheets by Raphael, remains otherwise insufficiently known. The point is to show Raphael in his context and, perhaps more significantly, the context in the light of Raphael. It aims to provide pleasure and excitement for the visitor in encountering some of the most incisive and intelligent drawings produced in a period universally acknowledged to be one of great draftsmanship, but also to demonstrate that even geniuses require soil in which to grow. Thus while works by Raphael form the exhibition's center, they are placed in dynamic relation with those by his predecessors, contemporaries, and successors. /

The Picturesque, The Sublime, The Beautiful: Visual Artistry in the Works of Charlotte Smith (1749-1806) Valerie Derbyshire, 2019-12-04 This book considers the relationships between British Romantic-era novelist, poet and writer of educational works for children, Charlotte Smith (1749-1806), and a number of visual artists of the eighteenth century with whom she had connections. By exploring these associations with artists such as George Smith of Chichester, George Romney, James Northcote, John Raphael Smith and Emma Smith, the book demonstrates how the artwork of these individual artists influenced Charlotte Smith's literary corpus. It also shows a mutual influence: how the literary works of Charlotte Smith impacted the corpora of these artists. This study uncovers information which was not heretofore known regarding these artists: it reveals a mistaken attribution of a sketch which accompanied the second volume of Smith's *Elegiac Sonnets* (1797) and sheds light on a print, held by the British Museum, which was previously shrouded in mystery. The artworks also enhance the existing scholarly knowledge about Smith's

biography. This book analyses the tropes and motifs employed by Smith's artist-associates in the context of the popular aesthetics of the period and undertakes parallel readings between such visual artistry and Smith's literary works. The book deliberates on how Smith utilises these aesthetics as narrative devices, making use of the tropes of the picturesque, the sublime and the beautiful, as well as that of a national British heraldic artwork, in order to produce and enhance meaning in her literary oeuvre. Thus, Smith uses aesthetic structures as vehicles for social critique, commenting on political, gender, moral and class concerns in addition to enhancing the perceived authenticity of her own artistry. The scholarship aims to correct the common misperception that Smith was a lonely marginal figure of Romanticism and instead asserts her central position in an enormous network of key artistic figures of British Romanticism.
