**Calvin Coolidge in the Black Hills** Seth Tupper,2017-05-22 “Well-written . . . analysis and insight into what role the crisp, clean Black Hills air may have had in the culmination of a successful political career” (The Washington Times). On August 2, 1927, President Calvin Coolidge shocked the nation by announcing he would not seek reelection. The declaration came from the Black Hills of South Dakota, where Coolidge was vacationing to escape the oppressive Washington summer and to win over politically rebellious farmers. He passed his time at rodeos, fishing, meeting Native American dignitaries and kick-starting the stagnant carving of Mount Rushmore. But scandal was never far away as Coolidge dismissed a Secret Service man in a fit of anger. Was it this internal conflict that led Coolidge to make his famous announcement or the magic of the Black Hills? Veteran South Dakota journalist Seth Tupper chronicles Coolidge’s Black Hills adventure and explores the lasting legacy of the presidential summer on the region. Includes photos “The book sets out to examine such questions as why the president chose to travel west and why he used the trip to make the announcement that he would not run for president again in 1928 . . . well documented and filled with fascinating details.” —The Washington Free Beacon

*Remembering Rapid City* Beverly Pechan,Bill Groethe,2000 Rapid City-The Summer Playground of America-was founded in 1876 by gold seekers, fueled by a rush to the Black Hills following the Custer Expedition of 1874. Merchants supplying the miners and military units patrolling the region were the ones who ultimately prospered, however. When the railroad arrived a decade later, cattlemen replaced the prospectors, and Rapid City remained a hub of activity. By the end of World War I, the popularity of the automobile and newly constructed roads helped to shape area tourism. Mount Rushmore, 23 miles distant, was under construction in 1927, and the new Alex Johnson Hotel was completed in 1928. Together, they were natural draws to complement the pine-scented beauty surrounding Rapid City, making it the center of Western hospitality. On June 9, 1972, a flood roared through the heart of the community, taking 238 lives. By the end of the decade, many new civic improvements began to change the face of Rapid City again. With this growth, Rapid City retains its early charm as the gate city of the Black Hills.

**The Rapid City Indian School, 1898-1933** Scott Riney,1999 The Rapid City Indian School was one of twenty-eight off-reservation boarding schools built and operated by the Bureau of Indian Affairs to prepare American Indian children for assimilation into white society. From 1898 to 1933 the School of the Hills housed Northern Plains Indian children--including Sioux, Northern Cheyenne, Shoshone, Arapaho, Crow, and Flathead--from elementary through middle grades. Scott Riney uses letters, archival materials, and oral histories to provide a candid view of daily life at the school as seen by students, parents, and school employees. The Rapid City Indian School, 1898-1933 offers a new perspective on the complexities of American Indian interactions with a BIA boarding school. It shows how parents and students made the best of their limited educational choices--using the school to pursue their own educational goals--and how the school linked urban Indians to both the services and the controls of reservation life.

*Wild Bill Hickok & Calamity Jane* James D. McLaird,2008 Chronicles the lives of Wild Bill Hickok and Calamity Jane, describing their legendary relationship and how novelists, journalists, and movie makers portrayed them.

Gleaned from the best of his photo essays originally published in the Rapid City Journal, here are stunning close-ups of free-ranging pronghorn, mountain goats in the Black Hills, spectacular sunsets, waterfowl and bald eagles, fields of wildflowers, and vast skiesapes. protectors, Native people have built and lived in cities—a fact little noted in either urban or Indigenous histories. By foregrounding Indigenous peoples as city makers and city dwellers, as agents and subjects of urbanization, the essays in this volume simultaneously highlight the impact of Indigenous people on urban places and the effects of urbanism on Indigenous people and politics. The authors—Native and non-Native, anthropologists and geographers as well as historians—use the term “Indian cities” to represent collective urban spaces established and regulated by a range of institutions, organizations, churches, and businesses. These urban institutions have strengthened tribal and intertribal identities, creating new forms of shared experience and giving rise to new practices of Indigeneity. Some of the essays in this volume explore Native participation in everyday economic activities, whether in the commerce of colonial Charleston or in the early development of New Orleans. Others show how Native Americans became entwined in the symbolism associated with Niagara Falls and Washington, D.C., with dramatically different consequences for Native and non-Native perspectives. Still others describe the roles local Indigenous community groups have played in building urban Native American communities, from Dallas to Winnipeg. All the contributions to this volume show how, from colonial times to the present day, Indigenous people have shaped and been shaped by urban spaces. Collectively they demonstrate that urban history and Indigenous history are incomplete without each other.

**Hugh Glass** James D. McLaird, 2016-05-31 The most famous grizzly-bear attack in the history of the American West took place in 1823 and left Glass struggling for life. Setting out on a journey of revenge and forgiveness, he eventually crawled 200 miles across the plains back to civilization. The story of Hugh Glass has provided fertile ground for articles, books and film, but the real man remains much of a mystery. McLaird, a historian, traces the few existing threads of Glass's life and delves into the role of popular history in making a legend. He also looks at the grizzly bear itself, examining popular sentiments towards the creature that led to its near-extinction. Had it not been for a chance encounter with a grizzly bear along the Grand River in what is now northwestern South Dakota, says McLaird, Hugh Glass would barely warrant a passing note in fur-trade history. That fact made researching him a challenge. *Hugh Glass: Grizzly Survivor* is the latest addition to the South Dakota Biography Series.

*A Christmas Railway Mystery* Edward Marston, 2017-10-27 December 1860. Headed for the morning shift at the Swindon Locomotive works is an army of men pouring out of terraced houses built by the GWR, a miniature town and planned community that aims to provide for its employees from cradle to grave. Unfortunately, boiler smith Frank Rodman is headed for the grave sooner than he'd expected, or he will be once his missing head is found. Colbeck, the Railway Detective, finds his investigation into Rodman's murder mired in contradictions. Was the victim a short-tempered brawler, or a committed Christian and chorister who aimed to better himself? On the trail of Rodman's enemy as the season starts to bite, Colbeck finds little festive cheer in the twists and turns of this peculiar case.

**American Legion Baseball** William E. Akin, 2021-11-22 In the wake of the 1919 White Sox scandal and the suspension for life of eight players, baseball saw a precipitous decline in popularity, especially among America's youth. To combat this, a group of World War I veterans who were members of the newly formed American Legion created an organization to promote teenage interest in baseball. Led by John L. Griffith, who became the first commissioner of the Big Ten Conference, the Legion undertook the revival of baseball. In the 1920s and through the Great Depression and World War II, Legion baseball grew steadily. By 1950 it had become the principal training ground for major league players, boasting at its peak more than 16,000 teams across the country. Tracing the long history of this uniquely American institution, this work details each year's American Legion World Series and the ups and downs of participation over nearly a century.

**Wild Games** Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human, both literally and figuratively, in reference to wild animals. Our relationships with wildlife have traditionally been expressed in terms of hunting; more recently, these relationships have also been manifest as efforts to prevent hunting. Hunting and fishing traditions are, in fact, under fire by critics at the same time that they are receding of their own accord - perhaps becoming even more endangered than any of the pursued animals. These traditions form the major focus of *Wild Games*, a new collection of essays that looks at the folklore and culture of various hunting and fishing practices, documenting the central importance of hunting to many rural societies, even in modern times. Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but, rather, identify strongly with a natural order - integrated with, rather than standing apart from, the fluctuation of ecosystems. And they frequently don't see wild animals as set apart but understand them as food sources, competitors, friendly rivals, and even equals. Featuring contributions from a variety of distinguished scholars and writers - including an essay by the noted folklorist Simon Bronner on the culture of the deer camp, a fascinating account of coyote tracking by Eric Eliason, and an examination of the role of gender in outdoor life by Diane Humphrey Lueck - this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture. --Book Jacket.

**Financial Therapy** Bradley T. Klontz, Sonya L. Britt, Kristy L. Archuleta, 2014-09-10 Money-related stress dates as far back as concepts of money itself. Formerly it may have waxed and waned in tune with the economy, but today more individuals are experiencing financial mental anguish and self-destructive behavior regardless of bull or bear markets, recessions or boom periods. From a fringe area of psychology, financial therapy has emerged to meet increasingly salient concerns. *Financial Therapy* is the first full-length guide to the field, bridging theory, practical methods, and a growing cross-disciplinary evidence base to create a framework for improving this crucial aspect of clients' lives. Its contributors identify money-based disorders such as compulsive buying, financial hoarding, and workaholism, and analyze typical early experiences and the resulting mental constructs (money scripts) that drive toxic relationships with money. Clearly relating financial stability to larger therapeutic goals, therapists from varied perspectives offer practical tools for assessment and intervention, advise on cultural and ethical considerations, and provide instructive case studies. A diverse palette of research-based and practice-based models meets monetary mental health issues with well-known treatment approaches, among them: Cognitive-behavioral and solution-focused therapies. Collaborative relationship models. Experiential approaches. Psychodynamic financial therapy. Feminist and humanistic approaches. Stages of change and motivational interviewing in financial therapy. A text that serves to introduce and define the field as well as plan for its future, *Financial Therapy* is an important investment for professionals in psychotherapy and counseling, family therapy, financial planning, and social policy.
