All the Rules Ellen Fein, Sherrie Schneider, 2008-11-15 The search for Mr. Right starts here. This simple set of dating dos and don'ts-combining *The Rules* and *The Rules II*-will teach you how to find (and keep!) a man who treats you with the respect and dignity you deserve. You are a creature unlike any other (Rule #1)-that's why you need... *The Rules*. Refreshingly blunt, astonishingly effective, and at times hilarious, *All the Rules* will lead you to where you want to be: in a healthy, committed relationship. These commonsense guidelines will help you: Lead a full, satisfying, busy life outside of romance. Accept occasional defeat and move on. Bring out the best in you and in the men you date. Whether you're eighteen or eighty, these time-tested techniques will help you find the man of your dreams.

**What Our Mothers Didn't Tell Us** Danielle Crittenden, 2009-08-25 Talk to women under forty today, and you will hear that in spite of the fact that they have achieved goals previous generations of women could only dream of, they nonetheless feel more confused and insecure than ever. What has gone wrong? What can be done to set it right? These are the questions Danielle Crittenden answers in *What Our Mothers Didn't Tell Us*. She examines the foremost issues in women's lives -- sex, marriage, motherhood, work, aging, and politics -- and argues that a generation of women has been misled: taught to blame men and pursue independence at all costs. Happiness is obtainable, Crittenden says, but only if women will free their minds from outdated feminist attitudes. By drawing on her own experience and a decade of research and analysis of modern female life, Crittenden passionately and engagingly tackles the myths that keep women from realizing the happiness they deserve. And she introduces a new way of thinking about society's problems that may, at long last, help women achieve the lives they desire.

*For Her Own Good* Barbara Ehrenreich, Deirdre English, 2013-10-02 This women's history classic brilliantly exposed the constraints imposed on women in the name of science and exposes the myths used to control them. Since the nineteenth century, professionals have been invoking scientific expertise to prescribe what women should do for their own good. Among the experts' diagnoses and remedies: menstruation was an illness requiring seclusion; pregnancy, a disabling condition; and higher education, a threat to long-term health of the uterus. From clitoridectomies to tame women's behavior in the nineteenth century to the censure of a generation of mothers as castrators in the 1950s, doctors have not hesitated to intervene in women's sexual, emotional, and maternal lives. Even domesticity, the most popular prescription for a safe environment for woman, spawned legions of "scientific" experts. Barbara Ehrenreich and Deirdre English has never lost faith in science itself, but insists that we hold those who interpret it to higher standards. Women are entering the medical and scientific professions in greater numbers but as recent research shows, experts continue to use pseudoscience to tell women how to live. *For Her Own Good* provides today's readers with an indispensable dose of informed skepticism.

**Media, Sex, and the Adolescent** Bradley S. Greenberg, Jane Delano Brown, Nancy Buerkel-Rothfuss, 1993

**Gaydar Culture** Sharif Mowlabocus, 2016-04-22 Popular culture has recognized urban gay men's use of the Web over the last ten years, with gay Internet dating and Net-cruising featuring as narrative devices in hit television shows. Yet to date, the relationship between urban gay male culture and digital media technologies has received only limited critical attention. *Gaydar Culture* explores the integration of specific techno-cultural practices within contemporary gay male sub-culture. Taking British gay culture as its primary interest, the book locates its critical discussion within the wider global context of a proliferating model of Western 'metropolitan' gay male culture. Making use of a series of case studies in the development of a theoretical framework through which past, present and future practices of digital immersion can be understood and critiqued; this book constitutes a timely intervention into the fields of digital media studies, cultural studies and the study of gender and sexuality.

*Monsoon Diary* Shoba Narayan, 2007-12-18 Shoba Narayan's *Monsoon Diary* weaves a fascinating food narrative that combines delectable Indian recipes with tales from her life, stories of

her delightfully eccentric family, and musings about Indian culture. Narayan recounts her childhood in South India, her college days in America, her arranged marriage, and visits from her parents and in-laws to her home in New York City. Monsoon Diary is populated with characters like Raju, the milkman who named his cows after his wives; the iron-man who daily set up shop in Narayan's front yard, picking up red-hot coals with his bare hands; her mercurial grandparents and inventive parents. Narayan illumines Indian customs while commenting on American culture from the vantage point of the sympathetic outsider. Her characters, like Narayan herself, have a thing or two to say about cooking and about life. In this creative and intimate work, Narayan's considerable vegetarian cooking talents are matched by stories as varied as Indian spices—at times pungent, mellow, piquant, and sweet. Tantalizing recipes for potato masala, dosa, and coconut chutney, among others, emerge from Narayan's absorbing tales about food and the solemn and quirky customs that surround it.

**Women and Self-Help Culture** Wendy Simonds, 1992-06-01 Examines what the phenomenon of self-help reading reveals about gender relations in contemporary American culture. She interviews women readers and editors of self-help books, and looks at bestsellers since 1963 -- those offering advice about managing relationships, enhancing sexuality, developing self-esteem, becoming assertive, and improving spiritual life. Drawing on feminist theory and critical cultural studies, she explores the appeal of self-help books and asks what readers are making of them. She includes discussions of readers' assessments of the meaning and effectiveness of self-help reading, and creators' views of their work.

**Mismeasure of Woman** Carol Tavris, 1993-02-26 When man is the measure of all things, woman is forever trying to measure up. In this enlightening book, Carol Tavris unmaskes the widespread but invisible custom -- pervasive in the social sciences, medicine, law, and history -- of treating men as the normal standard, women as abnormal. Tavris expands our vision of normalcy by illuminating the similarities between women and men and showing that the real differences lie not in gender, but in power, resources, and life experiences. Winner of the American Association for Applied and Preventive Psychology's Distinguished Media Contribution Award

**Making Connections** Carol Gilligan, Nona Lyons, Trudy J. Hanmer, 1990 These essays are a series of exercises en route to a new psychology of adolescence and of women...[and] part of a process that they also describe: of changing a tradition by including girls' voices, of listening to girls and asking again about the meaning of self, relationship, and morality--concepts central to any psychology of human development.

**Adolescents and the Media** Victor C. Strasburger, Marjorie J. Hogan, 2005 The media rank as one of the most important and misunderstood influences on today's adolescents. Violence, sex, drug use, eating disorders -- all have important roots in today's TV, movies, Internet, and music videos. This volume will provide the reader with a state-of-the-art update on what is known about the influence of the media on teenagers in contemporary society.

**Little Daughter** Zoya Phan, 2009-04-20 Zoya Phan was born in the remote jungles of Burma, to the Karen ethnic group. For decades the Karen have been under attack from Burma's military junta; Zoya's mother was a guerrilla soldier, her father a freedom activist. She lived in a bamboo hut on stilts by the Moei River; she hunted for edible fungi with her much-loved adopted brother, Say Say. Many Karen are Christian or Buddhist, but Zoya's parents were animist, venerating the spirits of forest, river and moon. Her early years were blissfully removed from the war. At the age of fourteen, however, Zoya's childhood was shattered as the Burmese army attacked. With their house in flames, Zoya and her family fled. So began two terrible years of running from guns, as Zoya joined thousands of refugees hiding in the jungle. Her family scattered, Zoya sought sanctuary across the border in a Thai refugee camp. Conditions in the camp were difficult, and Zoya now had to care for her ailing mother. Zoya, a gifted pupil, was eventually able to escape, first to Bangkok and then, with her enemies still pursuing her, in 2004 she fled to the UK and claimed asylum. The following year, at a 'free Burma' march, she was plucked from the crowd to appear on the BBC, the first of countless interviews with the world's media. She became the face of a nation enslaved, rubbing shoulders with

presidents and film stars. By turns uplifting, tragic and entirely gripping, this is the extraordinary true story of the girl from the jungle who became an icon of a suffering land.

**The Force of Fantasy** Ernest G. Bormann,2001 In this book, first published in 1985, Ernest G. Bormann explores mass persuasion in America from 1620 to 1860, examining closely four rhetorical communities: the revivals of 1739-1740, the hot gospel of the postrevolutionary period, the evangelical revival and reform of the 1830s, and the Free Soil and Republican parties. Each community varies greatly, but Bormann asserts that each succeeding community shares a rhetorical vision of restoring the American Dream that is essentially a modification of the previous visions. Thus, they form a family of rhetorical visions that constitutes a rhetorical tradition of importance in nineteenth-century American popular culture.

**The Game** Neil Strauss,2012-05-01 Hidden somewhere, in nearly every major city in the world, is an underground seduction lair. And in these lairs, men trade the most devastatingly effective techniques ever invented to charm women. This is not fiction. These men really exist. They live together in houses known as Projects. And Neil Strauss, the bestselling author and journalist, spent two years living among them, using the pseudonym Style to protect his real-life identity. The result is one of the most explosive and controversial books of the last decade—guaranteed to change the lives of men and transform the way women understand the opposite sex forever. On his journey from AFC (average frustrated chump) to PUA (pick-up artist) to PUG (pick-up guru), Strauss not only shares scores of original seduction techniques but also has unforgettable encounters with the likes of Tom Cruise, Britney Spears, Paris Hilton, Heidi Fleiss, and Courtney Love. And then things really start to get strange—and passions lead to betrayals lead to violence. The Game is the story of one man's transformation from frog to prince to prisoner in the most unforgettable book of this generation.
