Self-(re)presentation now Nancy Thumim, 2020-05-18 Questions of presentation and representation of individuals, groups, and communities have become key sites of struggle, as evidenced by the battles in both physical and digital spaces – battles which have also thrown the roles of digital affordances, systems, industries, and structures into relief. This book shows that questions about the (re)presentation of the self in digital culture are now key to how the field of media and communication must engage with the political; and demonstrates the wide range of scholarship focusing on presentation and representation of the self in recent times. The contributors show that questions of self-presentation and representation in digital culture are the focus of lively debate, critique, and investigation and that this is taking place from a number of theoretical perspectives and locations across the globe. This book was originally published as a special issue of Popular Communication.

Energy Justice and Energy Law Iñigo del Guayo, Lee Godden, Donald D. Zillman, Milton Fernando Montoya, José Juan González, 2020-05-21 Energy justice has emerged over the last decade as a matter of vital concern in energy law, which can be seen in the attention directed to energy poverty, and the United

Nations Sustainable Development Goals. There are energy justice concerns in areas of law as diverse as human rights, consumer protection, international law and trade, and in many forms of regional and national energy law and regulation. This edited collection explores in detail at four kinds of energy justice. The first, distributive justice, relates to the equitable distribution of the benefits and burdens of energy activities, which is challenged by the existence of people suffering from energy poverty. Secondly, procedural (or participation) justice consists of the right of all communities to participate in decision-making regarding energy projects and policies that affect them. This dimension of energy justice often includes procedural rights to information and access to courts. Under the concept of reparation (or restorative) justice, the book looks at even-handed enforcement of energy statutes and regulations, as well as access to remedies when legal rights are violated. Finally, the collection addresses social justice, with the recognition that energy injustice cannot be separated from other social ills, such as poverty and subordination based on race, gender, or indigeneity. These issues feed into a wider conversation about how we achieve a 'just' energy transition, as the world confronts the urgent challenges of climate change.

Pablo Escobar Jacopo Pezzan, Giacomo Brunoro, 2016-01-01 «Pablo Escobar ha scoperto più di ogni altro prima di lui, che la morte può essere il più efficace strumento di potere». Con queste parole il giornale colombiano

Semana “celebrava” nel dicembre del 1993 la morte di Pablo Escobar, il leader dello spietato e potentissimo Cartello di Medellin, l’organizzazione che tra gli anni ’80 e gli anni ’90 controllava l’80% del traffico mondiale della cocaina. Ma Pablo Escobar è stato molto di più di un semplice narcotrafficante. Conosciuto con i soprannomi di “El Patron”, “Re della Cocaina”, “El Capo”, per anni Escobar si è permesso di trattare a tu per tu con stati ed istituzioni, dal Governo colombiano alla DEA statunitense. Fondatore dello storico Cartello di Medellin insieme ai fratelli Ochoa, Escobar è stato un uomo capace di costruire un impero multimiliardario, al punto che il Cartello nel suo momento di massimo splendore spendeva 2.500 dollari al mese soltanto per gli elastici per sistemare le mazzette di dollari che piovevano nelle sue casse. Pablo Escobar è stato un uomo di potere e un criminale spietato capace di azioni brutali, ma allo stesso tempo è ricordato come un uomo del popolo, una sorta di Robin Hood sudamericano che aiutava i più poveri. Politico, benefattore, assassino spietato, narcotrafficante, terrorista sanguinario, padre affettuoso... Escobar è stato tutto questo e molto di più. Questa è la sua storia.

Drugs John Baselmans, 2016-12-06 When we think of drugs, we immediately think of the old guard drugs like cocaine, heroin and hemp. Other than that, there are for some time synthetic drugs (XTC) made in many forms, colors and effects. We talk in this book about the ordinary old-fashioned drugs in the form of cocaine. We're going to expose what is behind and who are the true drug dealers. The old-fashioned drug is still the trade with which the super rich enrich themselves. Also, it is the elite who use a lot of this stuff. You can make it clear that most of the top in the business world, but also the politics and those who move into higher layers, are the permanent users of the cocaine stuff. Often in the most pure form and often used daily like a breakfast and dinner. But first I like to elaborate some things; what is

cocaine and who are the driving forces behind these drugs according to world organizations of detecting drugs. Let's talk about drugs.

The Media in Latin America Jairo Lugo, 2008-04-16 Ably edited, this volume offers an unusually wide-ranging collection of well-informed chapters by experts from across the region. For those who want to understand the current realities that shape media performance from the Gulf of Mexico to the Tierra del Fuego, here is the ideal starting-point. Professor Philip Schlesinger, University of Glasgow, UK For those of us in the area of Latin American studies, this text comes to fill a gap in the field, both in terms of teaching and research. Charles Jones, Centre of Latin American Studies, University of Cambridge, UK More than an introduction, it provides a comprehensive insight into the modern Latin America media landscape. Ramesh Jaura, Chairman of the Global Cooperation Council and Euro-Mediterranean coordinator of the IPS News Agency The media's role as a mechanism of control throughout Latin America has become increasingly sophisticated. Many repressive elements of the dictatorship periods have remained in place or have mutated into more subtle means of censorship and control. Media owners and political elites are more than keen to use the media's increasingly prominent role in framing politics in the region, in order to pursue their own agenda and interests. This book provides a comprehensive and critical overview of some of the most important media systems in Latin America. Drawing on original and critical essays from some of the most prominent

authors in the field, the author approaches the subject with a country-by-country analysis, exploring the most relevant aspects of the media in each society. The essays cover: Media history Organisation The interrelationship of the media and the state Media regulation and policy and ownership Broadcast media Film, music, advertising and digital media The Media in Latin America is valuable reading for students of media and journalism studies.

Global Journalism in Comparative Perspective Dhiman

Chattopadhyay, 2024-02-13 This book explores how journalism is practiced around the world and how there are multiple factors at the structural and contextual level shaping journalism practice. Drawing on case studies of how conflicts, pandemics, political developments, or human rights violations are covered in an online-first era, the volume analyzes how journalism is conducted as a process in different parts of the world and how such knowledge can benefit today's globally connected journalist. A global team of scholars and practicing journalists combine theoretical knowledge and empirically rich scholarship with real-life experiences and case studies to offer a storehouse of knowledge on key aspects of international journalism. Divided into four sections – journalistic autonomy, safety, and freedom; mis(information), crises, and trust; technology, news flow, and audiences; and diversity, marginalization, and journalism education – the volume examines both trends and patterns, as well as cultural and geographical uniqueness that distinguish journalism in different parts of the world. This volume will be

of interest to students and scholars of journalism, media studies, and mass communication, as well as practicing journalists who want to report globally and anyone interested in gaining a foundational understanding of or researching journalism practices around the world.

Humor político audiovisual en Colombia: de los gloriosos años noventa en televisión a Internet como alternativa Medina Cartagena, María

Alejandra, 2017-10-31 El humor político alrededor del mundo ha sido un recurso para criticar al poder y a la esfera política con la mordacidad que otros escenarios no permiten y con lenguajes que generan empatía con el público. En la capacidad de criticar a todos los poderes –y a los poderosos– por igual, sin condescendencias, recae la credibilidad de esa crítica, la cual se debe poder hacer sin censura en una sociedad pluralista y democrática. En Colombia, el humor político en televisión emergió y vivió su época dorada en la década de los noventa, hasta que su principal exponente, Jaime Garzón, fue asesinado. Este trabajo de grado buscó indagar por qué, a pesar de que nuevos productos de crítica política con humor surgieron en el país, esa oferta no ha encontrado estabilidad en la televisión y, de hecho, desapareció por completo de la televisión abierta nacional y privada entre el 2013 y el 2016. La respuesta se pudo encontrar en múltiples factores: un nuevo modelo económico en la industria de la televisión, un ambiente político polarizado y la ausencia o falta de promoción de talentos detrás de los libretos. Asimismo, en medio de esta coyuntura, se plantea que Internet ha sido un

vehículo para expresar, incluso de manera anónima, lo que miembros de la sociedad creen que anda mal con el poder y la política.

Matt Rendell, 2020-03-19 By winning the 2019 Tour de France, Egan Bernal became the race's youngest champion in 110 years, and the first from the South American nation of Colombia. His victory brought decades of national yearning to fruition. Colombia has long been the only developing nation contending at cycling's highest level. Yet its cycling sons are not the products of a rigorous sports system that spots them in childhood and nurtures them through the ranks to the pinnacle of globalised sport. They come from harder backgrounds, that surprise, shock - even, at times, enchant. Colombia Es Pasión! explores the lives and dreams of each of the nation's leading cyclists. Theirs are inspiring stories of overcoming poverty and violence, sickness and corruption, and achieving global sporting glory. 'Takes you into the heart of both a sport and a country.
