What Makes This Book So Great Jo Walton, 2014-01-21 As any reader of Jo Walton's *Among Others* might guess, Walton is both an inveterate reader of SF and fantasy, and a chronic re-reader of books. In 2008, then-new science-fiction mega-site Tor.com asked Walton to blog regularly about her re-reading—about all kinds of older fantasy and SF, ranging from acknowledged classics, to guilty pleasures, to forgotten oddities and gems. These posts have consistently been among the most popular features of Tor.com. Now this volume presents a selection of the best of them, ranging from short essays to long reassessments of some of the field's most ambitious series. Among Walton's many subjects here are the Zones of Thought novels of Vernor Vinge; the question of what genre readers mean by mainstream; the underappreciated SF adventures of C. J. Cherryh; the field's many approaches to time travel; the masterful science fiction of Samuel R. Delany; Salman Rushdie's *Midnight's Children*; the early Hainish novels of Ursula K. Le Guin; and a Robert A. Heinlein novel you have most certainly never read. Over 130 essays in all, *What Makes This Book So Great* is an immensely readable, engaging collection of provocative, opinionated thoughts about past and present-day fantasy and science fiction, from one of our best writers. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Classics Old and New Edwin a Alderman, 2017-09-17 Excerpt from Classics Old and New: A Series of School Readers Good expression in reading is the product of sympathy and understanding, and therefore, the child who likes to read is quite sure to take first rank as a good reader. The controlling purpose of Classics, Old and New is to inspire in children a love for reading, and thus, without their being conscious of the fact, induce in them the reading habit. This is about the best and safest of all habits. If we contrive to teach young people the mechanical art of reading, and fail, at the same time, to breed in them the impulse and desire to continue their education throughout life by reading, we have cheated them out of the best thing to be obtained by going to school. Good literature is an expression for the best of the world's activity, and the power latent in such literature to lift and en lighten the mind and spirit is greater than any other power, save, perhaps, the influences of home. The formal education of many of the children that will use this series of readers will cease with the elementary schools. This fact makes the preparation of the readers a very serious task, especially to one who knows children well enough to realize how difficult it is to know them at all. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime.
