This is an open access book. The 5th INTERNATIONAL  
CONFERENCE ON ARTS AND DESIGN EDUCATION (ICADE)  
“Digital Media Literacy and Mastery of Post-  
pandemic in Arts and Design Education” BACKGROUND  
The past year has been one of enormous turbulence  
and upheaval where nobody has been left untouched  
by the impact of the global pandemic, even a great  
change has been forced upon artists and educators  
in their work creation process as well as learning  
and teaching practice. What and how artists and  
educators have thought and gone through to keep  
their field sustained should be disseminated as a  
mutual learning to enhance our awareness on arts  
and design sustainability and role during  
pandemic. ICADE 5 aims to bring together leading  
academic artists, arts and design researchers and  
scholars to exchange and share their notion,  
experiences, and research results on all aspects  
of Digital Media Literacy and Mastery in Arts and  
Design education during pandemic and its urgencies  
after pandemics. It also provides a premier  
interdisciplinary platform for arts and design  
researchers, practitioners, and educators to  
present and discuss the most recent innovations,  
trends, and concerns as well as practical  
challenges encountered and solutions adopted which  
involves digital media literacy or mastery in the

fields of Arts and Design education. The 5th International Conference on Arts and Design Education (ICADE) is a conference hosted by Faculty of Arts and Design Education Universitas Pendidikan Indonesia. This conference will be held on September 22nd, 2022 through Zoom Webinar. ICADE has covered a broad range of topic on music, dance, drama, visual arts, visual communication design, arts education, film and television, and multidiciplinary arts fields. This conference scopes may pertain how artist, designer, or arts and design educators finally adapt and conquer digital media to support their work creation and studies activities during pandemic; attitude changes toward art and design works creation; best practice of art and design creation and studies during pandemic; sorts of digital media which might be left or continuously used after pandemic; what finally the digital media can't ever cover during pandemic even to this moment (post-pandemic); potential disruptive/constructive point of digital media use; as well as other substance where we spot a relation between a digital media with arts and design creation and studies.

Stick Control George Lawrence Stone, 2013-11-06  
George Lawrence Stone's Stick Control is the original classic, often called the bible of drumming. In 1993, Modern Drummer magazine named it one of the top 25 drumming books of all-time. In the words of the author, this is the ideal book for improving control, speed, flexibility, touch, rhythm, lightness, delicacy, power, endurance, preciseness of execution, and muscular coordination, with extra attention given to the

development of the weak hand. This indispensable book for drummers of all types includes hundreds of basic to advanced rhythms and moves through categories of single-beat combinations, triplets, short roll combinations, flam beats, flam triplets and dotted notes, and short roll progressions.

**The Drum** Matt Dean, 2012 In *The Drum: A History*, drummer, instructor, and blogger Matt Dean details the earliest evidence of the drum from all regions of the world, looking at cave paintings, statues, temple reliefs, burial remains, even existing relics of actual drums that have survived for thousands of years. Highlighting the different uses and customs associated with drumming, Dean examines how the drum developed across many cultures and over thousands of years before it became the instrument we know today. A celebration of this remarkable instrument, *The Drum* explores how war, politics, trade routes, and religion influenced the instrument's development. Bringing its history to the present, Dean considers the modern cultural and commercial face of the drum, detailing its role in military settings and the creation of the modern drum kit, as well as the continuing evolution of the drum, manufacturers, and the increased dependence on electronic drums, sampling machines\* and drum recorders. Finally, drum fans will have at their fingertips the biographies of great drummers and major drumming achievements in the history of performance. *The Drum: A History* will appeal to every drummer, regardless of genre or style, as well as readers with a general interest in the evolution of this universal instrument. **Dancing to the Drum Machine** Dan LeRoy, 2022-10-06 Dancing to the Drum Machine is a never-before-attempted history of what is perhaps the most controversial musical instrument ever invented: the drum machine. Here, author Dan LeRoy reveals the untold story of how their mechanical pulse became the new heartbeat of popular music. The pristine snap of the LinnDrum. The bottom-heavy beats of the Roland 808. The groundbreaking samples of the E-MUSP-1200. All these machines-and their weirder, wilder-sounding cousins-changed composition, recording, and performance habits forever. Their distinctive sounds and styles helped create new genres of music, like hip hop

and EDM. But they altered every musical style, from mainstream pop to heavy metal to jazz. Dan LeRoy traces the drum machine from its low-tech beginnings in the Fifties and Sixties to its evolution in the Seventies and its ubiquity in the Eighties, when seemingly overnight, it infiltrated every genre of music. Drum machines put some drummers out of work, while keeping others on their toes. They anticipated virtually every musical trend of the last five decades: sequencing, looping, sampling, and all forms of digital music creation. But the personalities beneath those perfect beats make the story of drum machines a surprisingly human one-told here for the very first time.

Greif Inc and Blagden Packaging Group Great Britain: Competition Commission,2007-09-17 Greif UK Ltd is the largest manufacture of new large steel drums in the UK. On 30 November 2006 Grief UK acquired the new steel drum and closure businesses of Blagden Group, which was the second-largest producer of new steel drums in the UK. The merged businesses' combined share of supply of new steel drums in the UK is 85 per cent. Steel drums are the most widely-used form of large rigid industrial packaging, used in a range of industry sectors to package, transport and store a variety

of substances. Demand for them has been declining, due to demand for less packaging and competition from plastic drums and intermediate bulk containers. The merger has resulted in a highly concentrated market, and has removed the main competitive restraint on Greif's prices and future behaviour. The Commission then examined what other developments might prevent the merged entity from exploiting its market position and increasing prices to customers. Schètz Group in the Netherlands is building a new large steel drum line, and the Commission feels that imports from there could be competitive. Other entrants into the market are thought unlikely. Recent developments in multi-layer plastic extrusion and coating techniques could allow more products to be packed in plastic containers. Suppliers of alternative packaging have invested in increased capacity so this might be a stronger competitive restraint in future. The Commission does not expect a substantial lessening of competition (SLC) to result from the merger.

**Let The Drums Speak!** Jack Hoban, 2021-01-10  
Biography of Bernard Pretty Purdie, the world's most recorded drummer. Bernard Pretty Purdie is arguably the most recorded drummer in the world. He hit the New York music scene in the early 1960s, and landed his first hit with Mickey and Sylvia the beginning of a stellar career. This led to his 25-year association with Aretha Franklin. Purdie has been a regular guest in the studios of the stars of Jazz, Soul and Rock, working together with Lonnie Youngblood, King Curtis, Les Cooper, Paul Butterfield, Larry Coryell, Miles Davis, Hall

& Oates, Al Kooper, Herbie Mann, Todd Rundgren and Cat Stevens, as well, as regularly producing his own solo albums. Who provided the backbeat for Steely Dan's Aja ? And for whom have Isaac Hayes, Donny Hathaway, B.B. King, Joe Cocker, Jeff Beck and Alan Jackson reserved that stool behind the drum kit? Bernard Pretty Purdie. He has anchored sessions with the Rolling Stones, James Brown and Tom Jones with equal ease. The list is incomplete. It must be, because no other drummer in the last four decades has seen the interior of a recording studio as often as Bernard Pretty Purdie. BERNARD PURDIE was born June 11, 1942 in Elkton, Maryland, as the eleventh of fifteen children. As a six-year-old, he began banging out rhythms on improvised equipment. At 14 years of age he purchased his first real drum set and became the most important provider for the family - earning his pay playing with country and carnival bands. This schooling enabled Purdie to feel my way into nearly every kind of music, 'cause I had to know all styles and was never afraid to try something new. After finishing high school and spending a year and a half at Morgan State, Purdie moved to New York City. And that's where it all started. Purdie remains a sought after studio and live performer. He lives in New Jersey, but still travels domestically and internationally - a lot! Drummer, musician, producer, arranger and musical director, Bernard Purdie can be proud of a discography of over 3,000 recordings. From his first recordings with King Curtis and Aretha Franklin to later sessions with Larry Coryell, Miles Davis, Hall & Oates, Al Kooper, Herbie Mann,

Todd Rundgren, Steely Dan, Cat Stevens, BB King, James Brown, Isaac Hayes, the Rolling Stones, Joe Cocker and countless others, his definitive style has anchored sessions on some of the greatest songs of the modern era. His grooves have been sampled, cut and pasted on dance tracks and his groove is sought after in all genres of jazz, soul and funk. He is now a reference point in the basics of modern drumming with the innovation of the Purdie Shuffle, which was the inspiration behind Jeff Porcaro's Rosanna, a fusion of Purdie's Shuffle and John Bonham's 'Fool In The Rain.' - From an interview by Mike Dolbeare As you read this, someone, somewhere in the world, is listening to a hit record that features the amazing drummer, Bernard 'Pretty' Purdie. His playing reflects his magnetic personality and his passion for life. Purdie makes the magic happen, but without tricks. - Jimmy 'Wiz' Wisner BB King said to me: 'Coleman, have you ever heard the King Curtis recording Memphis Soul Stew? Well the drummer who plays that fatback groove is Bernard Purdie. So, if you groove me like he does, you and me gonna be just fine.' And that is what I do when I play, I try to groove like my mentor and friend, Bernard 'Pretty' Purdie! - Tony Coleman, B.B. King Band drummer

**Playing Along** Kiri Miller, 2012-02-09 Why don't Guitar Hero players just pick up real guitars? What happens when millions of people play the role of a young black gang member in Grand Theft Auto: San Andreas? How are YouTube-based music lessons changing the nature of amateur musicianship? This book is about play, performance, and participatory culture in the digital age. Miller shows how video

games and social media are bridging virtual and visceral experience, creating dispersed communities who forge meaningful connections by playing along with popular culture. *Playing Along* reveals how digital media are brought to bear in the transmission of embodied knowledge: how a *Grand Theft Auto* player uses a virtual radio to hear with her avatar's ears; how a *Guitar Hero* player channels the experience of a live rock performer; and how a beginning guitar student translates a two-dimensional, pre-recorded online music lesson into three-dimensional physical practice and an intimate relationship with a distant teacher. Through a series of engaging ethnographic case studies, Miller demonstrates that our everyday experiences with interactive digital media are gradually transforming our understanding of musicality, creativity, play, and participation.
