Calculator Mathematics for the Real Estate Professional Lawrence R. Rosen, 1978 Calculator Mathematics for the Real Estate Professional has two objectives: 1) to show you how to correctly answer the mathematics questions on a real estate licensing examination for salespersons or brokers; 2) to be a time-saving reference for real estate professionals, investors, tenants, accountants, lenders, and attorneys. Even those who are capable of performing complex mathematical computations will welcome the practicality of having the formulas and methods contained in one easy-to-use reference and will benefit from the short-cut, time-saving techniques described, including—how to determine in seconds (without handbooks or tables) the monthly payment on a mortgage loan, the outstanding loan balance at any particular point in time, or the interest portion of mortgage payments for a given year. The first ten chapters explain the various computations one will encounter in licensing examinations and everyday practice. The last three chapters describe how to use a pocket calculator to quickly solve these computations, and provide the method of solving more complex and advanced problems such as: computation of the area of unusually shaped land areas and the various calculations related to 'balloon mortgages. Examples are given for an algebraic language calculator and a reverse Polish calculator as well as for a basic four function model. Real estate practitioners who master the time-saving skills explained will increase their productivity, listings, commissions, and professionalism.

Real Estate Agent Martin G. Peterson, "The more you know about your customers, the more you can provide to them information that is increasingly useful, relevant, and persuasive." – Jay Baer Today only, get this bestseller for a special price. In today's market, a good real estate agent is identified by the way in which they are acting as experts with deep knowledge of the industry, they are responsive and always at the service of a client, meaning they can always be called upon to make a deal happen. Just as we live in an age where technological advancements are on the increase, it not enough to be able to show a client home or places to buy because they can see that for themselves from the internet and subsequently buy from there. You have to stand out to be different. Success in the real estate business means you need to be able to not only have all that information, but you should be able to also educate the buyers on what they do not know about these properties. Buyers feel confident in an agent who translates all the information for them and makes it easier to choose their preferred homes. Learn and master the art of being a real estate agent!
