The Arawak Language of Guiana Claudius Henricus de Goeje,1928

Excess Baggage Karen Ma,2013 With vivid prose, Karen Ma takes us on a momentous journey with a Chinese family as it tries to grow new roots in a foreign land.-Geling Yan, author of *Banquet Bug*, *White Snake*, and *The Flowers of War* Karen Ma's debut novel chronicles two Chinese sisters, one raised in China during the desolate years of the Cultural Revolution; the other in Japan during the freewheeling years of bubble capitalism. They reunite as adults in Tokyo in the early 1990s, and as the sisters circle warily, their distrust grows, fueled by family lies and secrets. Exploring themes of identity, alienation, love, jealousy, and family obligations in the face of cultural and geographic adversity, ultimately each must confront a fundamental question: what's the meaning of home when your roots aren't secure? Karen Ma is the author of *The Modern Madame Butterfly* (Tuttle Publishing, 2006). She has lived a combined twenty years in China and Japan working as a writer and journalist.

Monster theory [electronic resource] Jeffrey Jerome Cohen,1996 The contributors to *Monster Theory* consider beasts, demons, freaks and fiends as symbolic expressions of cultural unease that pervade a society and shape its collective behavior. Through a historical sampling of monsters, these essays argue that our fascination for the monstrous testifies to our continued desire to explore difference and prohibition.

Handbook of Japanese Grammar Harold G

Henderson,2010-10-18 This grammar has been written to help the student to think in the Japanese way. Part One contains several introductory notes on Nomenclature, Syntax, Verbs, Aru, Iru, Oru, on Adjectives and on Foreign Words. Part Two concentrates on connectives – the particles and suffixes which modify the sense of other words or show the relationship of these words to each other. These connectives, the heart of Japanese grammar, present unusual difficulty to foreign students. Arranged alphabetically in dictionary form, each word is followed by a textual explanation of how it is used and of its various meanings, with cautions as to its translation. The forms covered include not only those of the standard colloquial literary or bungo styles, but also the more common colloquialisms and provincial forms, whether or not these are strictly grammatical. No other text available makes as thorough or as complete a classification.

Imagining Harmony Peter Flueckiger, 2010-10-19 Many intellectuals in eighteenth-century Japan valued classical poetry in either Chinese or Japanese for its expression of unadulterated human sentiments. They also saw such poetry as a distillation of the language and aesthetic values of ancient China and Japan, which offered models of the good government and social harmony lacking in their time. By studying the poetry of the past and composing new poetry emulating its style, they believed it possible to reform their own society. *Imagining Harmony* focuses on the development of these ideas in the life and work of Ogyu Sorai, the most influential Confucian philosopher of the eighteenth century, and that of his key disciples and critics. This study contends that the literary thought of these figures needs to be understood not just for what it has to say about the composition of poetry but as a form of political and philosophical discourse. Unlike other scholars of this literature, Peter Flueckiger argues that the increased valorization of human emotions in eighteenth-century literary thought went hand in hand with new demands for how emotions were to be regulated and socialized, and that literary and political thought of the time were thus not at odds but inextricably linked.
