

Real Sniper Fire A Sniper Gun In Real Life 11

Peter Brookesmith

Sniper Gina Cavallaro, Matt Larsen, 2010-09-01 Heart-pounding real-life tales from the military's most experienced snipers, the best of the best snipers in action today. Gunfights, long distance shots, stalking, and more.

Modern Snipers Leigh Neville, 2016-08-25 The years since 9/11 have seen major changes in the way snipers are employed on the modern battlefield, alongside an incredibly rapid evolution in their weapons, equipment and training. This book covers the 14 years of near-constant warfare since the dawn of the 21st century, documenting where, when and how snipers have been deployed; their rifles, optics and their ancillary equipment such as laser range finders; their training and tactics and accounts of real-life operations involving sniper teams. The wars in Iraq and Afghanistan have reaffirmed the importance of snipers in both conventional and unconventional warfare, and this new study covers these developments in depth, as well as looking at the role of the sniper in police and counterterrorism environments.

Long Rifle Joe Lebleu, 2008-11-25 When fires raged in the ruins of the World Trade Center on September 11, 2001, Joe LeBleu, a native of Brooklyn and a retired U.S. Army Ranger veteran, was in lower Manhattan. On that day he decided to return to active duty. By the time he received an honorable discharge as a Staff Sergeant, paratrooper, and sniper team leader in the 82nd Airborne Division in 2005, he'd become known as "Long Rifle"—for shooting an Iraqi insurgent at 1,100 meters in Fallujah in the fall of 2003. That single shot remains the farthest in Iraq by any American or British sniper. This book tells his story. Long Rifle is gripping and moving, but most of all, inspiring. As 9/11 altered the terrain of so many lives, it shaped

that of Joe LeBleu: “Watching my city burn tore me up inside like nothing else in my life, ever.” Joe takes us with him from that haunting day in New York across the world, to the sweltering heat and ambush-rife conditions of desert and urban combat in Iraq. From here we enter a vastly different world: the remote and rugged mountains of Afghanistan. Joe’s accounts of sniper missions against the Taliban and Al Qaeda in this grueling landscape are engaging and intriguing. Finally, Joe trusts his gut and returns to civilian life, settling near Las Vegas and going on to train Mark Wahlberg for his role as a Force Recon Marine scout/sniper in the film, *Shooter*. Joe had come full circle from 9/11, “a day that changed my life forever.” Raw, gritty, passionate, and provocative, *Long Rifle* is both the first memoir by a U.S. Army sniper from the 9/11 generation and a stirring testament to the core values of American soldiers: integrity, honor, and courage. LeBleu’s journey to war and back also testifies to the enduring power of love: Joe carried his dream to return to Natalie, his wife, for six long years.

The Killing School Brandon Webb, John David Mann, 2017-05-09
As a SEAL sniper and combat veteran, Webb was tapped to revamp the U.S. Naval Special Warfare (SEAL) Scout/Sniper School, incorporating the latest advances in technology and ballistics software to create an entirely new course that continues to test the skills and even the best warriors. In this revealing new book, Webb takes readers through every aspect of this training, describing how Spec Ops snipers are taught each dimension of their art. Trainees learn to utilize every edge possible to make their shot--from studying crosswinds, barometric pressure, latitude, and even the rotation of the Earth to becoming ballistic experts. But marksmanship is only one aspect of the training. Each SEAL's endurance, stealth and mental and

physical stamina are tested and pushed to the breaking point. Webb also shows how this training plays out in combat, using real-life exploits of the world's top snipers, including Jason Delgado, who led a Marine platoon in the Battle of Husaybah and made some of the most remarkable kill shots in the Iraq War; Nicholas Irving, the U.S. Army Ranger credited with thirty-three kills in a single three-month tour in Afghanistan; and Rob Furlong, who during Operation Anaconda delivered the then-longest kill shot in history. During Webb's sniper school tenure, the course graduated some of the deadliest and most skilled snipers of this generation, including Marcus Luttrell (Lone Survivor), Adam Brown (Fearless), and Chris Kyle (American Sniper). From recon and stalk, to complex last minute adjustments, and finally the moment of taking the shot, *The Killing School* demonstrates how today's sniper is trained to function as an entire military operation rolled into a single individual--an army of one.

Sniper Peter Brookesmith,2001-04-22 Tracing the role of the sniper from the time of the English Civil War and the American Revolution to the Gulf War and Bosnia, this book also goes behind the scenes at the world's top sniper schools and includes real-life anecdotes and detailed information on sniper rifles and ammunition. 100+ color and b&w photos.

Sniper, 2nd Edition Peter Brookesmith,2007-04-03 Tracing the role of the sniper from the time of the English Civil War and the American Revolution to the Gulf War and Bosnia, this book also goes behind the scenes at the world's top sniper schools and includes real-life anecdotes and detailed information on sniper rifles and ammunition. 100+ color and b&w photos.

To Be a Military Sniper Gregory Mast,Hans Halberstadt,2007-12-15 The training and character that make for

success in one of the most challenging and mysterious jobs the military has to offer, clearly described and illustrated.

Long Rifle Joe LeBleu, 2008 A memoir by a US Army sniper from the 9/11 generation and a testament to the core values of American soldiers: integrity, honor & courage.

American Sniper Chris Kyle, Scott McEwen, Jim DeFelice, 2012-01-03 The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review Jaw-dropping...Undeniably riveting. —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Special Forces Sniper Skills Robert Stirling, 2012-12-20 Special Forces Sniper Skills is a hard hitting account of the men, weapons and techniques used to coldly eliminate high value targets on the battlefield. Though many books have become best-sellers through

telling one side of the story – a sniper's experiences, a training manual or a weapons catalogue – none before have combined the whole spectrum of a sniper's life and skills into one gripping book. This book examines the role of the sniper, and the unique skills employed, when serving as part of a Special Forces unit including the British SAS, the US Navy Seals and the Russian Spetznaz. The book is illustrated with photographs of every aspect of the sniper's trade and stories from the real-life experiences of the author's comrades: men who have served in almost every overt and covert conflict since World War II.

Modern American Snipers Chris Martin, 2014-12-16 Most people think of snipers as shooters perched in urban hides, dealing out death unseen from a considerable distance. But this description barely scratches the surface. [The author explains that] special operations snipers are men with stacked skill sets who have the ability to turn the tide of battles, even when they aren't pulling the trigger ... These are the most experienced warriors on the battlefield, oftentimes the units' best assaulters with years of door-kicking under their belt. These are the men who run ops in small teams across borders, or dress like locals and pull off high-risk vehicle reconnaissance and singleton missions in non-permissive environments--Dust jacket flap.

Hunters Milo S. Afong,2013-10-01 In the War on Terror, there are
no set battles. The fanatical enemy adheres to no warrior code or
international law. Their only desire is to kill—or be killed. That's
where the snipers of the U.S. Marines, Army, and Navy SEALs come
in . . . Here, in their own words, are the compelling true stories of the

snipers whose sole purpose is to eliminate the enemy with a single bullet. From Iraq to Afghanistan, this is life and death as seen through the scope of a high-powered rifle. These snipers' stories illustrate the mental discipline and psychological strength that they must possess to accomplish their missions, the effect a sniper's skill and reputation has on the enemy, and how they deal with the stark reality of their work after the target is neutralized—and after a sniper returns to civilian life. Part wartime chronicle, part psychological exploration of the warrior mind, and part exposé into a secretive brotherhood of military snipers, *Hunters* is a must-read for anyone who wants to learn the truth about war when it's fought one kill at a time. Includes photographs

World War II Snipers Gary Yee, 2022-05-04 Gary Yee takes what is already a well-researched deep dive into the specifics of sniper training, employment and equipment to a new level. - American Rifleman Magazine Thousands of volumes have been published about World War II but relatively little attention has been given to the sniper. Drawing from memoirs, government documents and interviews, *World War II Snipers* incorporates eyewitness accounts to weave a comprehensive narrative of snipers in World War II. While certain common traits were shared among belligerents, each had its unique methodology for selecting and training snipers and, as casualties were high, their replacements. Drawn from hunters, competitive shooters, natural marksmen, outdoorsmen, city dwellers, farmers and veteran soldiers, they fought to assert local battlefield dominance and instill among their enemy a paralyzing fear. Sometimes admired and other times reviled by their own comrades because of the retaliation they drew, they were always too few in number. Their battlefield role, their victories and their defeats are

retold here from neglected or forgotten sources. The scope of World War II Snipers is extensive with three chapters each on the major theaters of the war including Western Europe, Eastern Europe and the Pacific. This is supported by a lengthy chapter on the sniper rifles used by the snipers and their equipment.

Sniper Martin J Dougherty,2012-10-25 *Sniper* examines what it takes to be a special forces elite sniper, what training is required to become an expert marksman, and what weapons are used by special forces snipers today. Using 300 instructive artworks, SAS and Elite Forces: *Sniper* shows you how special forces units such as the SAS and Delta Force train their most elite soldiers.

Confirmed Kill Nigel Cawthorne,2011-12-06 Real-life accounts of the highly trained marksmen who have honed the art of killing to a fine edge—and can turn the tides of war with one perfect shot. Elite snipers—with their deadly aim, iron nerves, killer instincts and unwavering courage—play a more critical role in modern military missions than ever before. *Confirmed Kill* accurately recounts the heroic actions of the world’s deadliest snipers, from the one-on-one duel between a U.S. Marine sniper and his North Vietnamese counterpart that ended with a miracle shot straight through the Vietcong soldier’s gun scope, to the shot fired from a mountain ridge in Afghanistan that dropped an unsuspecting Taliban fighter over a mile away. *Confirmed Kill* details the missions of the most legendary snipers: Chuck Mawhinney—Marine with 103 Vietnam War confirmed kills Adelbert Waldron—U.S. record holder with 109 confirmed kills Timothy Kellner—Army sergeant with more than 100 confirmed kills in Operation Iraqi Freedom Craig Harrison—British corporal with the world-record kill shot at 2,707 Yards

The Red Circle Brandon Webb, John David Mann, 2012-04-10

Explosive, revealing, and intelligent, *The Red Circle* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world. Now including an excerpt from *The Killing School: Inside the World's Deadliest Sniper Program* BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy sniper cell and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military.
