Visible and Invisible Realms Margaret J. Wiener,1995-04-15 In 1908, the ruler of the Balinese realm of Klungkung and more than 100 members of his family and court were massacred when they marched deliberately into the fire of the Dutch colonial army. The question of what their action meant and its continued significance in contemporary Klungkung forms the basis of Margaret Wiener's complex anthropological history. Wiener challenges colonial and academic claims that Klungkung had no real power and argues that such claims enabled colonial domination. By focusing on Balinese discourses she makes clear the choices open to Balinese, both at the time of the Dutch conquest and in its narration. At the same time, she shows how these discourses, which revolve around magical weapons acquired from invisible agents such as gods, spirits, and ancestors, offer an alternative understanding of Klungkung's power. Moving between Balinese and Dutch narratives and between past and present, Wiener critiques colonial accounts by recounting Balinese memories and interpretations. Her attention to history and local situations illuminates the ways in which colonialism and orientalist scholarship have obscured the power of indigenous rulers and shows how Klungkung, once Bali's paramount realm, was relegated to a peripheral corner of the Indonesian nation-state. Both as a fascinating story and as a rich example of interdisciplinary scholarship, this book will interest students of colonialism, anthropology, history, religion, and Southeast Asia.

The Lost Realms (Book IV) Zecharia Sitchin,1990-09-01 The Earth Chronicles series is based on the premise that mythology is not fanciful but the repository of ancient memories; that the Bible ought to be read literally

as a historic/scientific document; and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, Those Who from Heaven to Earth Came. The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called Planet X. The subsequent volume, The Stairway to Heaven, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. The Wars of Gods and Men, recounting events closer to our times, concludes that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. Such gratifying corroboration of audacious conclusions has been even swifter for The Lost Realms. In the relatively short interval between the completion of the manuscript and its publication, archaeologists, linguists, and other scientists have offered a coastal theory in lieu of the frozen trekking one to account for man's arrival in the Americas--in ships, as this volume has concluded. These experts have suddenly discovered 2,000 years of missing civilization in the words of a Yale University scholar--confirming this book's conclusion--and are now linking the beginnings of such civilizations to those of the Old World, as Sumerian texts and biblical verses. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.
