**Wing Shooting** Jennifer Bringle, 2011 People have hunted for centuries, for recreation, sport, and for food. There are skills to develop and personal tricks to learn, all while the hunter enjoys the challenges of each hunt. A particularly challenging type is wing shooting. The hunter must shoot the prey while it's in flight. This outdoor guidebook advises amateur hunters on where to hunt, what equipment is necessary, and how to hunt safely.

**The Hunter's Game** Louis S. Warren, 1997-01-01 The Hunter's Game reveals that early wildlife conservation was driven not by heroic idealism, but by the interests of recreational hunters and the tourist industry. As American wildlife populations declined at the end of the nineteenth century, elite, urban sportsmen began to lobby for game laws that would restrict the customary hunting practices of immigrants, Indians, and other local hunters.

The illustrated contents include: Early Days in the Ozark Mountains - Hitting the Trap Line - Big Bend Country - Battling with Coyotes - Mexican Bandits - Hunting in Maine Wilderness - After Black Bear - A Charging Bear - Trapping Bobcats - Deer Hunting in Aroostook - etc. Many of the earliest hunting and shooting books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. **Catastrophic Injuries in Sports and Recreation** Charles H. Tator,2008-12-27 Catastrophic Injuries in Sport and Recreation is an essential reference guide to safe participation in a wide variety of sports and recreational activities. A masterful achievement of methodology, it is the first complete epidemiological study and analysis of all catastrophic injuries in all sports and recreational activities that occurred within a large defined geographical area with a large population: ten million people within the province of Ontario between 1986 and 1995. Concentrating on injuries that resulted in death or long term disability, the contributors identify both the personal risk factors for participants and the societal risk factors that are important causes for these kinds of injuries. Providing detailed analysis of 2154 case studies, the contributors demonstrate what went wrong in each event, and show how each injury could have been prevented. Recommending specific prevention strategies for

a wide range of injuries, *Catastrophic Injuries in Sport and Recreation* is a practical medical reference for athletes and doctors alike.

Wildlife Stewardship And Recreation On Private Lands Delwin E. Benson, Ross Shelton, Donny Wayne Steinbach, 1999 The authors examine franchising systems that allow the public and private sectors to work together and consider ways governments and landowners can be good stewards of the public's wildlife using recreation, tax advantages, and cost shares as incentives. Although any enfranchisement system will have problems, the authors show that these problems can be overcome with cooperation and intelligent planning.--BOOK JACKET.
