Asian American Basketball Joel S. Franks, 2016-04-27 When Jeremy Lin began to knock down shots for the New York Knicks in 2012, many Americans became aware for the first time that Asian Americans actually play basketball. Indeed, long before Lin shook up the NBA, Asian Americans played the game with passion and skill, and many excelled at high school, college and professional hoops. This comprehensive history of Asian American basketball discusses how these players first found a sense of community in the game, and competed despite an atmosphere of anti-Asian bigotry in historical and contemporary America.

Nonlinear Filtering and Smoothing Venkatarama Krishnan, 2013-10-17 Most useful for graduate students in engineering and finance who have a basic knowledge of probability theory, this volume is designed to give a concise understanding of martingales, stochastic integrals, and estimation. It emphasizes applications. Many theorems feature heuristic proofs; others include rigorous proofs to reinforce physical understanding. Numerous end-of-chapter problems enhance the book's practical value. After introducing the basic measure-theoretic concepts of probability and stochastic processes, the text examines martingales, square integrable martingales, and stopping times. Considerations of white noise and white-noise integrals are followed by examinations of stochastic integrals and stochastic differential equations, as well as the associated Ito calculus and its extensions. After defining the Stratonovich integral, the text derives the correction terms needed for computational purposes to convert the Ito stochastic differential equation to the Stratonovich form. Additional chapters contain the derivation of the

optimal nonlinear filtering representation, discuss how the Kalman filter stands as a special case of the general nonlinear filtering representation, apply the nonlinear filtering representations to a class of fault-detection problems, and discuss several optimal smoothing representations.

Bouncy the Little Red Ball Travis Ching, 2021-03 Charlotte is a precocious youngster with a huge heart and a love for all things: her parents, her friends, animals . . . and even her toys. Most of all, Charlotte loves Bouncy, a little red ball with the ability to spread happiness and joy wherever he goes. Bouncy the Little Red Ball follows Charlotte and Bouncy as together they bounce from one fun activity to another . . . eventually even getting Mom and Dad in on the fun, too!
