Red Light, Green Lion Candace Ryan,2019-05-07 A green lion. A red light. And one very unusual day. As a green lion waits for a green traffic light, some surprises appear, such as lightning, a lilac, library books and lima beans. Or rather, “li-ghtning,” “li-lac,” “li-brary books,” and “li-ma beans” because each spread ends with “Red light, green li-,” and the reader must turn the page to see the whole word — and what’s happened. Through it all, the lion calmly and helpfully deals with whatever shows up, and philosophically muses about the way life can be. “Some days are not like most days,” the lion explains. But as all children know: those days are usually the most fun!

With its bouncy rhyming text and bright illustrations, this book is perfect for every preschooler who loves planes, trains, and automobiles. It's a bold introduction to how vehicles stop . . . and go!

Artificial General Intelligence (AGI) and the Image of God Peter J. Bellini,2023-09-19 Can artificial intelligence (AI) attain human-level consciousness? And if so, should the church minister salvation to AI? Through engaging philosophy of mind, AI research, the cognitive sciences, neuroscience, and theological anthropology, Dr. Bellini attempts to answer these questions. The hypothesis is if the hard problem of consciousness can be solved, and if human consciousness is replicable in AI, then attaining artificial general conscious intelligence (AGCI) is possible, and perhaps needs to be evangelized or disciplined, as some claim. On the contrary, if the hard problem of consciousness cannot be solved and human consciousness is not replicable in AI, then AGCI is not possible, and it does not need to be evangelized. And in either case, how can the church begin a theological conversation with AI with its potential to match and exceed human intelligence and performance? A theological position on consciousness and the image of God is proposed, demonstrating the uniqueness of human consciousness in contrast with AI and artificial consciousness. A thorough exposition of the image of God is offered to serve as a cornerstone for any future conversation on a theological perspective of machines (AI).

John Williamson Nevin Linden J. DeBie,2023-09-21 John Williamson Nevin’s life has never been given the full attention that it deserves. That may be due in part to the controversial nature of his thinking. Yet in many respects, his enormous contribution to American religious history is acknowledged by those who have read him. He stood out as the great advocate of evangelical catholicism, and his call for a thorough examination of the place of the church in nineteenth-century theology was revolutionary. It was Nevin who first saw the threat to the church in the erosion of faith in the church as a divine institution sacramentally entrusted by God with the reclamation of the whole world—an erosion that occurred well before the Civil War in the hypersubjectivity of Protestant America.
