Children's Active Transportation Richard Larouche,2018-06-15 Children's Active Transportation is a rigorous and comprehensive examination of the current research and interventions on active transportation for children and youth. As the travel behaviors of these groups tend to be highly routinized, and their mobility faces unique constraints, such as parental restrictions, mandatory school attendance, and the inability to drive a motor vehicle before late adolescence, this book examines the key factors that influence travel behavior among children and youth, providing key insights into lessons learned from current interventions. Readers will find a resource that clearly demonstrates how critical it is for children to develop strong, active transportation habits that carry into adulthood. Discusses the correlates that exist between children's active transportation using a social and ecological model Summarizes active transportation interventions that show what works to increase non-motorized modes of travel in children Describes the factors that influence the implementation and effectiveness of interventions

Key Concepts in Urban Studies Mark Gottdiener,Leslie Budd,Panu Lehtovuori,2015-12-07 Key Concepts in Urban Studies is written in an accessible, concise way and introduces students to the key topics in urban studies. Drawing examples from different parts of the world, this authoritative resource exposes students to the diverse forms that cities take, and the social, spatial and temporal dimensions of urban living. It is an essential resource for students across disciplines interested in

the city. - Lily Kong, Singapore Management University An insightful multidisciplinary introduction to the multifarious places, processes and problems that constitute modern cities. Its short, digestible entries unpack the complexity and evolution of urban conditions, offering cross-references between concepts and links to key literature and to useful current and historical examples. The book's clear, often sharp critical edge also encourages deeper enquiry. - Quentin Stevens, School of Architecture and Design, RMIT University Key Concepts in Urban Studies is an essential companion for students of urban studies, urban sociology, urban politics, urban planning and urban development. This revised edition has been updated and expanded to provide a keen global focus, particularly in emerging economies with discussions on the creation of dream cities in the Gulf States and a renewed emphasis on building mega-scaled downtowns in India and China. New features include: Contemporary and international examples throughout. Detailed entries on environmental concerns and the sustainability of urban development. Discussion of the role of consumption in city culture and urban development. New entries on modern urban planning and adaptive urbanism. Key Concepts in Urban Studies is a must-have text with an explicit focus on contemporary urbanism which students will find invaluable during their studies. Mark Gottdiener is Professor Emeritus of Sociology at The University at Buffalo (SUNY). Leslie Budd is Reader in Social Science at the Open University. Panu Lehtovuori is Professor of Planning Theory at Tampere University of Technology.

Environmental Design and Human Behavior Leonard Krasner, 2013-10-22 *Environmental Design and Human Behavior: A Psychology of the Individual in Society* outlines the fundamental principles that govern the concept of environmental design in the context of human behavior. The first part of the text deals with theoretical and historical influences of environmental design, along with the ethical and value context. The selection also covers methods for assessments of environment and

interactionists approach to environmental design. The next part details the application of environmental design; this part tackles topics such as environmental design in the classroom; designing an ideal classroom; and implementation process and personal experience. The book will be of great use to behavioral scientists, sociologists, community health and social workers, and professionals involved in the designing of environment, such as city planners.

Hidden Agendas Jane Kelsey, 2013-05-01 'Forget the label "free trade agreement". The TPPA, under negotiation between New Zealand, the USA and ten other countries, is a direct assault on our right to decide our own future.' In this hard-hitting BWB Text, Professor Jane Kelsey picks apart the current negotiations surrounding the proposed Trans-Pacific Partnership Agreement (TPPA) and comes to some disturbing conclusions. Such a treaty, she says in this new work, has little credible economic rationale but could have potentially dangerous effects on our ability to decide for ourselves how we address the economic, environmental, social and Treaty challenges of the twenty-first century. At a time of constitutional review, the secrecy surrounding the TPPA negotiations

raises hard questions about the future shape of New Zealand.

The Angel Tiffany Reisz, 2017-11-13 “Reisz continues to surprise . . . her work is raising the bar for erotic fiction. This is not your mother’s Harlequin romance.” —New York Journal of Books No safe word can protect the heart . . . Infamous erotica author and accomplished dominatrix Nora Sutherlin is doing something utterly out of character: hiding. While her longtime lover, Søren—whose fetishes, if exposed, would be his ruin—is under scrutiny pending a major promotion, Nora’s lying low and away from temptation in the lap of luxury. Her host, the wealthy and uninhibited Griffin Fiske, is thrilled to have Nora stay at his country estate, especially once he meets her traveling companion. Young, inexperienced and angelically beautiful, Michael has become Nora’s protégé, and this summer with Griffin is going to be his training, where the hazing never ends. But while her flesh is willing, Nora’s mind is wandering. To thoughts of Søren, her master, under investigation by a journalist with an ax to grind. And to another man from Nora’s past, whose hold on her is less bruising, but whose secrets are no less painful. It’s a summer that will prove the old adage: love hurts. “Tiffany Reisz’s *The Original Sinners* series is painful, prideful, brilliant, beautiful, hopeful, and heart-breaking. And that’s just the first hundred pages.” —Courtney Milan, New York Times–bestselling author “I loved *The Original Sinners* series . . . Her prose is quite beautiful, and she can weave a wonderful tight story.” —Jennifer Probst, New York Times–bestselling

author “I worship at the altar of Tiffany Reisz! Whip smart, sexy as hell—The Original Sinners series knocked me to my knees.” —Lorelei James, New York Times–bestselling author

The Rose Cross and the Age of Reason Christopher McIntosh, 2012-01-02 This new edition of Christopher McIntosh's classic book on the Golden and Rosy Cross order is eagerly awaited. The order stands out as one of the most fascinating and influential of the high-degree masonic and illuminist groups that mushroomed in Europe from the 18th century onward. Active mainly in the German-speaking lands, it recast the original Rosicrucian vision and gave it renewed vitality. At one point it became politically influential when the Prussian King, Frederick William II, was a member of the order. Historians have often perceived the Golden and Rosy Cross as having had a conservative, anti-Enlightenment agenda, but this study – drawing on rare German sources – shows that the matter was more complex. The members of the order practiced alchemy and operated a degree system that was later imitated by later orders such as the Golden Dawn. Like the latter, the Golden and Rosy Cross exerted a wide and enduring cultural influence. Both the alchemy of the order and its powerful ritual system are insightfully described in Christopher McIntosh's clear and compelling style.

User-Innovation Viktor Braun, Cornelius Herstatt, 2009-06-06 Economic growth is highly dependent on technological progress and innovation, yet the sources from which these innovations originate are still largely misunderstood and untapped. Recent research has demonstrated that users, rather than manufacturers, are often a critical source of innovation in numerous fields from extreme sports to medical devices to software. This book systematically identifies the most important barriers to user-innovation and critically evaluates the democratization of innovation argument by critically assessing the main legal, economic, technological, and societal barriers to user-innovation for the first time and proposing alternative possibilities. Through original research the author reveals the dynamics of user-innovation and offers strategies for minimizing those factors that inhibit and stifle the spread of this phenomenon. From this analysis it becomes clear that user-innovation has become more difficult over time and that the problem is now of how manufacturers can enable users to overcome the discussed barriers and simultaneously benefit from such consumer-driven activities. Arguing that licenses are not just an important technology commercialization instrument but are tools critical to generating innovations, the author explains how licenses can in certain situations be employed to help users overcome some of the barriers to user-innovation. *User-Innovation: Barriers to Democratization and IP Licensing* is a practical guidebook as well as a startlingly original work of scholarship that will be essential reading for years to come.

Writing Biography Lloyd E. Ambrosius, 2004-01-01 The historian as biographer must resolve questions that reflect the dual challenge of telling history and telling lives: How does the biographer sort out the individual's role within the larger historical context? How do biographical studies relate to other forms of history? Should historians use different approaches to biography, depending on the

cultures of their subjects? What are the appropriate primary sources and techniques that scholars should use in writing biographies in their respective fields? In *Writing Biography*, six prominent historians address these issues and reflect on their varied experiences and divergent perspectives as biographers. Shirley A. Leckie examines the psychological and personal connections between biographer and subject; R. Keith Schoppa considers the pervasive effect of culture on the recognition of individuality and the presentation of a life; Retha M. Warnicke explores past context and modern cultural biases in writing the biographies of Tudor women; John Milton Cooper Jr. discusses the challenges of writing modern biographies and the interplay of the biographer's own experiences; Nell Irvin Painter looks at the process of reconstructing a life when written documents are scant; and Robert J. Richards investigates the intimate relationship between life experiences and new ideas. Despite their broad range of perspectives, all six scholars agree on two central points: biography and historical analysis are inextricably linked, and biographical studies offer an important tool for analyzing historical questions.

The Last Mermaid Shana Abé, 2008-04-29 Shana Abé has entranced countless readers with her passion-filled novels of adventure, intrigue, and romance. Now the author of *The Secret Swan* delivers a gift from the sea: three hauntingly beautiful tales connected by a legend, a locket, and a love beyond time. 531 a.d.: The tiny island of Kell is said to be enchanted, inhabited by an extraordinary creature who comforts shipwrecked sailors passing into the next world. Prince Aedan of the Isles believes in no such nonsense—until he awakens on Kell itself and meets the sensuous siren who rescued him from the sea. 1721: Ronan MacMhuirich, Earl of Kell, is the target of an unlikely assassin: Leila, a mysterious woman from an exotic land. But his irresistibly beautiful would-

be slayer is in just as much danger as Ronan when she falls for this man with a magic of his own. 2004: What do you do when you inherit a Scottish island you never knew existed—and find yourself pursued by a handsome stranger who wants to buy it from you? That’s what happens to Ruri Kell when she accepts Iain MacInnes’s invitation to visit her birthright, and listens to a proposition as sinfully tempting as everything else about him. Three seductive love stories, three passionate couples, all linked by one of the most romantic myths of all.

Assessment of Climate Change for the Baltic Sea Basin BACC Author Team, 2008-01-22 This book offers an up-to-date overview of the latest scientific findings in regional climate research on the Baltic Sea basin. This includes climate changes in the recent past, climate projections up until 2100 using the most sophisticated regional climate models available, and an assessment of climate change impacts on terrestrial, freshwater and marine ecosystems. The authors demonstrate that the regional climate has already started to change, and will continue to do so.
