Million Dollar Mistakes Moses Avalon,2005 There are dozens of books on the music business but none like this one, in most every book by an insider people love to talk about when good instincts paid off. In this book, we are turning the tables on that philosophy. We don't care how many times a person was right. We want to read about the time they were dead wrong. What they really learned from hard-won experience about what not to do in the future. We'll go behind closed doors of the most expensive mistakes ever made in the modern music industry as well as some common but lesser known ones that seven out of ten people make when starting out. Some of these mistakes will be taught first-hand, by the people who made them: record executives, managers, artists, producers who've worked with: Michael Jackson, Christina Aguilera, Courtney Love, Madonna, Nickel Back, Twisted Sister, Dead Kennedys, Susan Vega, Chaka Khan, Debbie Gibson, Destiny's Child, Joan Osborne, Kurt Cobain, Paul Stanley, The Captain & Tenille, Jessica Simpson, Aerosmith, Pink, Ricky Martin, Dido, and literally dozens more.

The Bloomsbury Handbook of Popular Music, Space and Place Geoff Stahl,J. Mark Percival,2022-01-13 Popular music scholars have long been interested in the connection between place and music. This collection brings together a number of key scholars in order to introduce readers to concepts and theories used to explore the relationships between place and music. An interdisciplinary volume, drawing from sociology, geography, ethnomusicology, media, cultural, and communication studies, this book covers a wide-range of topics germane to the production and consumption of place in popular music. Through considerations of changes in technology and the mediascape that have shaped the experience of popular music (vinyl, iPods, social media), the role of social difference and how it shapes sociomusical encounters (queer spaces, gendered and racialised spaces), as well as the construction and representations of place (musical tourism, city branding, urban mythologies), this is an up-to-the-moment overview of central discussions about place and music. The contributors explore a range of contexts, moving from the studio to the stage, the city to the suburb, the bedroom to festival, from nightclub to museum, with each entry highlighting the diverse and complex ways in which music and place are mutually constitutive.
