IPOs for Everyone Linda R. Killian, Kathleen Shelton Smith, William K. Smith, 2001-01-31 Founders of Renaissance Capital and the IPO Aftermarket Fund get in on the cutting edge of today's economy The business press has declared IPOs-Initial Public Offerings-dead seven times in the past ten years. Every time they've been wrong. Far from being deterred by the IPO obituaries, the authors of *IPOs for Everyone* show that these times in the IPO market consistently present the best buys. Once reserved for a select group of Wall Street pros, there are now many opportunities for individual investors to take advantage of in the IPO groundswell. IPOs have become a must have for investors who wish to diversify their portfolio. *IPOs for Everyone*, reveals the twelve secrets used by the founders of Renaissance Capital, the leading IPO research and money management firm, to pick a winning IPO investment. This timely book provides the inside knowledge that investors must have to play the volatile IPO market successfully, including: finding the best companies on the block, getting favorable pricing and seeking out buying opportunities in the aftermarket.

Betting on China Robert W. Koepp, 2012-03-15 The promise and perils of Chinese stocks in American stock markets Betting on China takes readers on an illuminating journey into the often confusing and poorly understood world of Chinese stock issuances in America. With insightful qualitative and quantitative analysis, it looks at the phenomenon of equity and capital exchanged between the world's two largest economies and the implications for global finance. Written in an accessible narrative style and amply supported by hard data, the book examines the context and underpinnings of the Sino-American equity relationship, revealing its core dynamics through real-world case studies that range from the precedent-setting blockbuster IPO of China Mobile to the near breakdown of the U.S.-China equity exchange mechanism brought about by short seller attacks on Chinese concept stocks. Combining an insider's eye with an outsider's objectivity, American born author and Beijing-based consultant Robert Koepp explores the reasons and the means by which China, America, and the global economy reap enormous gains from the process of Chinese companies issuing equity shares on U.S. stock markets. Betting on China exposes the complexities and nuances of a vital but underappreciated pillar of modern international finance and offers a window into China's role as a dominant but still modernizing economic superpower. Analyzes on a macro- and microscale the forces that move Chinese companies to raise capital on NASDAQ and the New York Stock Exchange and what this means for the world at large Explores the real stories behind why and how China-based enterprises develop as public companies listed in the United States—and why government regulations need to work in support of and not against this force of market nature Shows that the betting on China that occurs through the U.S. equity market exchanges is critical for getting an accurate picture of China's position and prospects in our interactively connected global economy Detailed but accessible, Betting on China is essential reading for global finance professionals, policymakers and regulators, students of finance, people doing business in China, and anyone curious about China's place in—and impact on—the global economy today and in the years to come.

The Man Who Solved the Market Gregory Zuckerman, 2019-11-05 NEW YORK TIMES BESTSELLER Shortlisted for the Financial Times/McKinsey Business Book of the Year Award The unbelievable story of a secretive mathematician who pioneered the era of the algorithm--and made \$23 billion doing it. Jim Simons is the greatest money maker in modern financial history. No other investor--Warren Buffett, Peter Lynch, Ray Dalio, Steve Cohen, or George Soros--can touch his record. Since 1988, Renaissance's signature Medallion fund has generated average annual returns of 66 percent. The firm has earned profits of more than \$100 billion; Simons is worth twenty-three billion dollars. Drawing on unprecedented access to Simons and dozens of current and former employees, Zuckerman, a veteran Wall Street Journal investigative reporter, tells the gripping story of how a world-class mathematician and former code breaker mastered the market. Simons pioneered a data-driven, algorithmic approach that's sweeping the world. As Renaissance became a market force, its executives began influencing the world beyond finance. Simons became a major figure in scientific research, education, and liberal politics. Senior executive Robert Mercer is more responsible than anyone else for the Trump presidency, placing Steve Bannon in the campaign and funding Trump's victorious 2016 effort. Mercer also impacted the campaign behind Brexit. *The Man Who Solved the Market* is a portrait of a modern-day Midas who remade markets in his own image, but failed to anticipate how his success would impact his firm and his country. It's also a story of what Simons's revolution means for the rest of us.
