14th Information Retrieval Colloquium Tony McEnery,Chris Paice,2012-12-06 We hope that all readers will find the papers included in this volume of interest. All were presented at the 14th BCS IRSG Research Colloquium held at Lancaster University on 13th-14th April 1992. The papers display very well the scope and breadth of information retrieval, as indeed did the workshop itself. They also present a good cross-section of current IR research, and as such provide a useful signpost for trends in information retrieval. Before we finish we must thank the following colleagues: Simon Botley, Paul Rayson and Paul Jones for their help in the organization of the conference. We would also like to extend a special message of thanks to Professor G.N. Leech of the Department of Linguistics at Lancaster and Roger Garside of the Department of Computing at Lancaster for their support during the conference period. Tony McEnery would also like to express his thanks and gratitude to Paul Baker for his help during the production of this book. Local Governance in England and France Alistair Cole,Peter John,2012-11-12 Local Governance in England and France addresses issues at the cutting edge of comparative politics and public policy. The book is based on extensive research and interviews, over 300 in total, with local decision makers in two pairs of cities in England and France: Lille and Leeds; Rennes and Southampton. No other Anglo-French comparative project has ever gone into such depth - based on actual case studies - making this book an invaluable resource for students and professionals alike. The book poses key questions about the changing role of the state, the difficulties of policy coordination in a fragmented institutional context, and about the relationship between governance, networks as well as political and democratic accountability. It will be of great interest to the professional research community, and practitioners in Britain, France and beyond, as well as to students of comparative politics, European public policy, British / French politics, European studies, public management and local government studies.

Marc-Antoine Caillot and the Company of the Indies in Louisiana Erin Greenwald,2016-06-13 Between 1717 and 1731, the French Company of the Indies (Compagnie des Indes) held a virtual monopoly over Louisiana culture and trade. Among numerous controls, its administrators oversaw the slave trade, the immigration of free and indentured whites, negotiations with Native American peoples, and the purchase and exportation of Louisiana-grown tobacco. In *Marc-Antoine Caillot and the Company of the Indies in Louisiana*, Erin M. Greenwald situates the colony within a French Atlantic circuit that stretched from Paris and the Brittany coast to Africa's Senegambian region to the West Indies to Louisiana and back. Focusing on the travels and travails of Marc-Antoine Caillot, a company clerk who set sail for Louisiana in 1729, Greenwald deftly examines the company's role as colonizer, developer, slaveholder, commercial entity, and deal maker. As the company's focus shifted away from agriculture with the reversion of Louisiana to the French crown in 1731, so too did the lives of the individuals whose fortunes were bound up in the company's trade, colonization, and agricultural mission in the Americas. Greenwald's focus on Caillot provides an engaging microhistory for readers interested in the culture and society of early Louisiana and its place in the larger French Atlantic world.
