Fly Like a Girl Mary Jennings Hegar,2020-03-03 A Young Readers Edition of a compelling story of courage and triumph, this is the inspiring true story of Major Mary Jennings Hegar--a brave and determined woman who gave her all for her country, her sense of justice, and for women everywhere. On July 29, 2009, Air National Guard Major Mary Jennings Hegar was shot down while on a Medevac mission in Afghanistan. Despite being wounded, her courageous actions saved the lives of her crew and their patients, earning her the Purple Heart as well as the Distinguished Flying Cross with Valor Device. That day also marked the beginning of a new mission: convincing the U.S. Government to allow women to serve openly on the front line of battle for the first time in American history. With exclusive photographs throughout, *Fly Like a Girl* tells the inspiring true story of Mary Jennings Hegar--a brave and determined woman who gave her all for her country, her sense of justice, and for women everywhere. Includes exclusive photographs throughout, a discussion guide, and a Q&A with the author written specifically for teen readers. Praise for *Fly Like a Girl*: An honest portrayal of one woman's battles in and out of combat zones.--Kirkus Reviews

Congress and U.S. Veterans Lindsey Cormack,2018-09-07 Providing a compelling look at veterans' policy, this book describes why the Republican party is considered the party for veterans despite the fact that Congressional Democrats are responsible for a greater number of policy initiatives. The United States is home to 21 million veterans, and Veterans' Affairs is the second-largest federal department, with a budget exceeding \$119 billion. Many veterans, however, remain under-served. Republicans are seen as veterans' champions, and they send the majority of Congressional constituent communications on veterans' issues, yet they are lead sponsors on only 37 percent of bills considered by the Senate Veterans' Affairs Committee. What accounts for this discrepancy? Drawing on thousands of e-newsletters sent from Congress to constituents, *Congress and U.S. Veterans: From the GI Bill to the VA Crisis* argues that the distribution of veterans across districts and the Republican Party is based on government spending, which pulls Republican legislators in opposite directions. This eye-opening book offers a history of veterans' programs, highlights legislative leaders and the most pressing policy areas for reform, identifies the issues most often discussed by members of Congress from each party, points out which Congresspeople have acted on veterans' issues and which have not, and offers an analysis of veteran population distribution and legislative policy preferences.

Who Runs? Meredith Conroy,Sarah Oliver,2020-08-04 To explain women's underrepresentation in American politics, researchers have directed their attention to differences between men and women, especially during the candidate emergence process, which includes recruitment, perception of qualifications, and political ambition. Although these previous analyses have shown that consistent dissimilarities likely explain why men outnumber women in government, they have overlooked a more explicit role for gender (masculinity and femininity) in explanations of candidate emergence variation. Meredith Conroy and Sarah Oliver focus on the candidate emergence process (recruitment, perceived qualifications, and ambition), and investigate the affects of individuals' gender personality on these variables to improve theories of women's underrepresentation in government. They argue that since politics and masculinity are congruent, we should observe more precise variation in the candidate emergence process along gender differences, than along sex differences in isolation. Individuals who

are more masculine will be more likely to be recruited, perceive of themselves as qualified, and express political ambition, than less masculine individuals. This differs from studies that look at sex differences, because it accepts that some women defy gender norms and break into politics. By including a measure of gender personality we can more fully grapple with women's progress in American politics, and consider whether this progress rests on masculine behaviors and attributes. *Who Runs? The Masculine Advantage in Candidate Emergence* explores this possibility and the potential ramifications.

American Government Leaders Harris M. Lentz, 2006 This book provides a single source of biographical information for the thousands of individuals who have held high elective and appointive offices in the federal, state, and municipal governments. The first half of the book lists positions in the government with a chronological record of the persons who have held the positions and the duration of their terms of office. Executive branch listings include the presidents, first ladies, vice presidents, cabinet members, deputy and undersecretaries of cabinet departments, directors and administrators of high government agencies, high-ranking military officials, ambassadors, and high-ranking presidential staff and White House aides. In the judiciary, the chief justice of the United States and members of the Supreme Court, the U.S. Court of Appeals, and U.S. District Courts are listed. Legislative listings include presidents of the Continental Congresses, speakers of the House of Representatives, presidents pro tempore of the Senate, majority and minority leaders in both houses of Congress, members of Congress, territorial delegates, resident commissioners, governors and lieutenant governors. Next are sections on state and territorial governments (listing governors and lieutenant governors) and city governments (listing mayors of over 150 cities). The second half of the book is a biographical index of individuals found in the earlier sections, listed in alphabetical order. The entries contain dates of birth and death, when known, political party or affiliation, state or states of significance to the officeholder, and listing of offices held.

Legislative Effectiveness in the United States Congress Craig Volden, Alan E. Wiseman, 2014-10-27 This book explores why some members of Congress are more effective than others at navigating the legislative process and what this means for how Congress is organized and what policies it produces. Craig Volden and Alan E. Wiseman develop a new metric of individual legislator effectiveness (the Legislative Effectiveness Score) that will be of interest to scholars, voters, and politicians alike. They use these scores to study party influence in Congress, the successes or failures of women and African Americans in Congress, policy gridlock, and the specific strategies that lawmakers employ to advance their agendas.
