Written by Sunil and Vani, a nature and wildlife enthusiast couple, the book features hundreds of breathtaking images and personal stories from their travels through rainforests, savannahs, deserts, the Arctic tundra, and the pristine wilderness of Antarctica. Sunil, who as a teenager viewed the world through the lens of his camera with his first prized possession - Zenit TTL, a 35mm film SLR camera made in the USSR, shares his passion for wildlife and photography with readers. Vani, inspired by Jane Goodall's work, meticulously researched and planned this journey to fragile habitats to better understand the wild. Their journey begins in Alaska and takes them across both the Arctic and Antarctic circles before ending in the southernmost national park of Tierra del Fuego in Argentina. Along the way, Sunil and Vani carry two camera backpacks and a few sets of clothes, savoring the unexpected moments and experiencing a deep humility in the face of nature's splendor. In addition to providing breathtaking images and personal stories, the book also offers practical information on researching destinations, packing for a variety of climates and destinations, photography gear and tips, and the logistics of planning a journey around the world. It is a must-read for anyone interested in exploring the rich and colorful biodiversity of our planet.
