Asians Wear Clothes on the Internet Minh-Ha T.

Pham, 2015-10-21 In the first ever book devoted to a critical investigation of the personal style blogosphere, Minh-Ha T. Pham examines the phenomenal rise of elite Asian bloggers who have made a career of posting photographs of themselves wearing clothes on the Internet. Pham understands their online activities as “taste work” practices that generate myriad forms of capital for superbloggers and the brands they feature. A multifaceted and detailed analysis, *Asians Wear Clothes on the Internet* addresses questions concerning the status and meaning of “Asian taste” in the early twenty-first century, the kinds of cultural and economic work Asian tastes do, and the fashion public and industry’s appetite for certain kinds of racialized eliteness. Situating blogging within the historical context of gendered and racialized fashion work while being attentive to the broader cultural, technological, and economic shifts in global consumer capitalism, *Asians Wear Clothes on the Internet* has profound implications for understanding the changing and enduring dynamics of race, gender, and class in shaping some of the most popular work practices and

spaces of the digital fashion media economy.

Research Perspectives on Social Media Influencers and Brand Communication Brandi Watkins, 2020-11-12 Research Perspectives on Social Media Influencers and Brand Communication examines the myriad ways in which social media and the unique characteristics of the internet have changed brand communication for both brands and consumers, focusing on the social media influencer as a brand communicator. As brands have noticed the rise of social media influencers as tastemakers and leaders in public opinion, they have increasingly begun to incorporate social media influencers into their brand communication strategies. Each chapter of this book represents a unique theoretical and methodological approach to examining the emergence and growing legitimacy of the social media influencer as a brand communicator from a variety of perspectives and contexts, discussing challenges and opportunities afforded to brands by social media influencers and providing an overview of the current research on the use of these branding approaches. Scholars of media studies, communication, and marketing will find this book particularly useful.
