Maritime Kent Through the Ages Stuart Bligh,Sheila Sweetinburgh,Elizabeth Clare Edwards,2021 A wide-ranging history of the geography and communities of Kent from the earliest times to the present day.Kent, with its long coastline and its important geopolitical position close to London and continental Europe, and on major trading routes between Britain and the wider world, has had a very significant maritime history. This book covers a wide range of topics relating to that history from the earliest times to the present day. It sets Kent's varied coastline and waters in their geological and geographical context, showing how erosion and sediment deposition have contributed to the changing nature of maritime activities and populations. It examines Kent's strategic role in the defence of the country with the development and redevelopment of coastal defences, including four naval dockyards. It goes on to consider the supporting industries which grew up around the coastline, those which supplied raw materials and agricultural products from the county's hinterland, and its wider national and international trading links. It also discusses the diverse coastal communities of Kent and how they have changed in response to the demands of defence, trade, and changing population and migration patterns. In addition, the book includes detailed case studies which explore particular subject areas as exemplars of the major themes covered by the book.l trading links. It closely monitors developments affecting world seaborne trade, freight rates, ports, surface transport, and logistics services, as well as trends in ship ownership and control and fleet age, tonnage supply, and productivity. The Review contains a chapter on legal and regulatory developments and each year includes a chapter highlighting a different region.

**I Just Lost Myself** Valerie Nash Chang,1992 Psychological abuse can be as damaging to the psyche as physical abuse can be to the body, yet little is written about this common problem. This book confronts the issue of psychological abuse of women in marriage. Psychological abuse consists of an on-going pattern of domination, oppression, unrealistic expectations, verbal attacking or silent withdrawal within a relationship typically devoid of emotional connection. The author addresses the questions of how and why these women are abused, how the abuse starts and progresses, and in what ways does the process differ from that of physical abuse? Using quotes from survivors of these relationships, Dr. Chang describes life inside one of these relationships and gives treatment recommendations.
