*Rail-highway Crossing Safety* Terry M. Klein,1994 This report was prepared as part of the June 1994 Departmental Rail-Highway Crossing Safety Action Plan. Initiative V.B, Data and Research-Demographics, called for a study describing the circumstances under which fatal rail crossing crashes occur and characteristics of the drivers involved in such crashes. This report compares fatal motor vehicle rail crossing crashes with fatal crashes occurring at intersections and all fatal crashes. Data from NHTSA's Fatal Accident Reporting System, supplemented with information from Claritas, a commercially available geodemographic database, were used to provide the descriptive statistics.

**The Art of Cycling** Greig Leach,2016-01-25 This book continues my celebration of cycling through my original watercol.ors created while races are being contested on the open road. The 2015 UCI Road World Championships took place on the streets of my adoptive home town of Richmond, Virginia. I created this artwork, from the epicenter of the championships, with everyone eagerly looking over my shoulder as they awaited the climax of the race and the unveiling of the winner of the coveted rainbow jersey. Each painting is presented with my interpretation of the unfolding race, taken from my daily blog posts at [www.theartofcycling.blogspot.com](http://www.theartofcycling.blogspot.com). I trust you will enjoy my take on the power and speed, heartbreak and jubliation of professional bicycle racing.

**Augie's Quest** Augie Nieto, T.R. Pearson, 2011-01-15 What happens to orphan diseases that aren't big enough profit centers for the pharmaceutical industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as Real Heroes on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: Your contributions to the fitness industry are well known, and your dedication an inspiration. Lance Armstrong, seven-time Le Tour de France champion: I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest. Arnold Schwarzenegger, governor of California: Your success has been incredible. But you are so much more than just a successful

businessman. You are the greatest husband, a great father, and a terrific friend. So,

*What Retirees Want* Ken Dychtwald, Robert

Morison, 2021-11-24 Dychtwald and Morison offer a brilliant and convincing perspective: an essential re-think of what 'aging' and 'retirement' mean today and an invitation to help mobilize the best in the tidal wave of Boomer Third Agers. —Daniel Goleman, PhD, Author, *Emotional Intelligence: Why It Can Matter More Than IQ* Throughout 99 percent of human history, life expectancy at birth was less than 18 years. Few people had a chance to age. Today, thanks to extraordinary medical, demographic, and economic shifts, most of us expect to live long lives. Consequently, the world is witnessing a powerful new version of retirement, driven by the power and needs of the Baby Boomer generation. Consumers over age 50 account for more than half of all spending and control more than 70% of our total net worth – yet are largely ignored by youth-focused marketers. How will work, family, and retirement be transformed to accommodate two billion people over the age of 60 worldwide? In the coming years, we'll see explosive business growth fueled by this unprecedented longevity revolution. *What Retirees Want* presents the culmination of 30 years of research by world-famous Age Wave expert Ken Dychtwald, Ph.D., and author and consultant Robert Morison. It explains how the aging of the Baby Boomers will forever change our lives, businesses, government programs, and the consumer marketplace. This exciting new stage of life, the Third Age, poses daunting questions: What will old look like in the years ahead? With continued advances in longevity, all of the traditional life-stage markers and boundaries will need to be adjusted. What new products and services will boom as a result of this coming longevity revolution? What unconscious ageist marketing practices are hurting people –

and business growth? Will the majority of elder boomers outlive their pensions and retirement savings and how can this financial disaster be prevented? What incredible new technologies of medicine, life extension, and human enhancement await us in the near future? What purposeful new roles can we create for elder boomers so that the aging nations of the Americas, Europe, and Asia capitalize on the upsides of aging? Which pioneering organizations and companies worldwide have created marketing strategies and programs that resonate with the quirky and demanding Boomer generation? In this entertaining, thought-provoking, and wide-ranging book, Dychtwald and Morison explain how individuals, businesses, non-profits, and governments can best prepare for a new era – where the needs and demands of the Third Age will set the lifestyle, health, social, marketplace, and political priorities of generations to come.
