Notary Public Handbook - A Handbook for Virginia Notaries Public Virginia Secretary of the Commonwealth, 2019-04-06 INTRODUCTION - This handbook is intended as a general guide and is designed to assist non-attorney notaries with the general requirements, duties, powers, limitations, liabilities, and legal significance of their actions as a notary public. Legal counsel should be consulted whenever specific problems or questions arise concerning any aspect of the office of notary public. THE NOTARY'S FUNCTION - A notary public is a public official whose powers and duties are defined by statute. A notary acts as an official, unbiased witness to the identity and signature of the person who comes before the notary for a specific purpose. The person may be taking an oath, giving oral or written testimony, or signing or acknowledging his or her signature on a legal document. In each case, the notary attests that certain formalities have been observed. The key function is to be certain that the person appearing before the notary is who that person claims to be.

Implicit Incremental Model Analyses and Transformations Hinkel, Georg, 2021-07-20 When models of a system change, analyses based on them have to be reevaluated in order for the results to stay meaningful. In many cases, the time to get updated analysis results is critical. This thesis proposes multiple, combinable approaches and a new formalism based on category theory for implicitly incremental model analyses and transformations. The advantages of the implementation are validated using seven case studies, partially drawn from the Transformation Tool Contest (TTC).

The Dueling Loops of the Political Powerplace: Why Progressives Are Stymied and How They Can Find Their Way Again Jack Harich, 2007-04-01 Contrary to popular myth, it is possible for progressives to take an analytical approach to solving difficult social problems and win. Using the sustainability problem as a running example, this book demonstrates how. The same key tool Limits to Growth used, simulation modeling, is applied. However, unlike Limits to Growth this book explores the social side of the problem, rather than the technical side, to find the fundamental cause of the very strong change resistance civilization has encountered. The root cause turns out to lie in a surprisingly simple social structure called the Dueling Loops of the Political Powerplace. The book explains in layman's terms how the Dueling Loops model works, where the intuitively attractive but low leverage point is that progressives are presently pushing on, and where the high leverage points are they must push on instead. The end result is a whole new way of thinking. For further information on this book and project, please see thwink.org.

Changing Our Minds Miles Myers, 1996 Suggesting that the United States' dominant form of literacy is contingent and historical, not permanent and absolute, this book asserts that when a society changes its definition of literacy, it also changes its models of mind and its models for teaching English. The book challenges the assumption that the public schools are a failure, arguing instead that public school teachers have met every literacy challenge put to them by parents and government. The book introduces a new standard of literacy (translation/critical literacy), and discusses how the new standard affects the English and language arts curriculum, the tools and methods of learning, and the conceptualization of assessment of knowledge. Chapters in the book are: (1) Shifting Social Needs: From Clocks to Thermostats; (2) From Oracy (or Face-to-Face Literacy) to Signature Literacy: 1660-1776; (3) Signature and Recording Literacy: 1776-1864; (4) Recitation and Report Literacy: 1864-1916; (5) A Literacy of Decoding, Defining, and Analyzing: 1916-1983; (6) The Transition to a New Standard of Literacy: 1960-1983; (7) The Event-Based Features of Translation/Critical Literacy; (8) Embodied Knowledge: Self-Fashioning and Agency; (9) Distributed Knowledge: The Technology of Translation/Critical Literacy; (10) Negotiated and Situated Knowledge: Translating among Sign Systems; (11) Negotiated and Situated Knowledge: Translating among Speech Events; (12) Negotiated, Situated, and Embodied Knowledge: Translating among the Modes; (13) Negotiated and Situated Knowledge: Translating between Stances; (14) Style and Worldviews in Literature and Public Discourse; and (15) Conclusion: I Think It Happened Again.
