**Tandai Sh?shin Roku** Ueda Akinari,2010-02-06 This is the first complete translation of Tandai shÅ shin roku, which provides the best source for an understanding of the eighteenth-century Japanese literary figure Ueda Akinari (1734-1809) â a man of many talents and wide-ranging interests: haikai and waka poet, writer of fiction, commentator on Japanese classical texts, doctor of Confucian medicine, keen student of history and botany, tea connoisseur and amateur potter. In this highly personal work dating from his last year, when he was almost blind and in poor health, Akinari allows his writing brush to wander at will, giving his unvarnished opinions on contemporary and historical people and events, commenting on various social customs, criticizing friend and foe alike, defending the existence of the supernatural and sharing his love of nature. Akinariâs candour, humour, curiosity of mind and impressive erudition make Tandai shÅ shin roku an unusual and interesting text that has long deserved to be better known.

**Memory & Oblivion** A.W. Reinink,Jeroen Stumpel,2012-12-06 Memory is a subject that recently has attracted many scholars and readers not only in the general historical sciences, but also in the special field of art history. However, in this book, in which more than 130 papers given at the XXIXth International Congress of the History of Art (Amsterdam) 1996 have been compiled, Memory is also juxtaposed to its counterpart, Oblivion, thus generating extra excitement in the exchange of ideas. The papers are presented in eleven sections, each of which is devoted to a different aspect of memory and oblivion, ranging from purely material aspects of preservation, to social phenomena with regard to art collecting, from the memory of the art historian to workshop practices, from art in antiquity, to the newest media, from Buddhist iconography to the Berlin Wall. The book addresses readers in the field of history, history of art and psychology.

**The HTML of Cruciform Love** John Frederick,Eric Lewellen,2020-01-01 Despite an increasing portion of our lives being conducted online, the topic of the internet is vastly underrepresented in the current literature on technology and theology. The HTML of Cruciform Love challenges outdated misconceptions about internet theology and asserts that there is no topic more pertinent to our daily walk as contemporary followers of Jesus Christ than the theological implications of the internet age. These twelve essays investigate the themes of community and character formation in the digital realm. A host of interrelated sub-themes are represented, including the application of patristic theology to contemporary internet praxis, a demonology of the internet, and virtue ethics in cyberspace, while other studies consider the influence of internet technology on aesthetics, personhood, and the self. Together, the essays work towards a collaborative, constructive, cruciform theology of the internet as something more than a supplementary component to our personal lives; rather, it is a vital medium for the digital communion of the saints through the HTML of cruciform love.

**A Commercial Law of Privacy and Security for the Internet of Things** Stacy-Ann Elvy,2021-07-29 In the Internet of Things (IoT) era, online activities are no longer limited to desktop or laptop computers,

smartphones and tablets. Instead, these activities now include ordinary tasks, such as using an internet-connected refrigerator or washing machine. At the same time, the IoT provides unlimited opportunities for household objects to serve as surveillance devices that continually monitor, collect and process vast quantities of our data. In this work, Stacy-Ann Elvy critically examines the consumer ramifications of the IoT through the lens of commercial law and privacy and security law. The book provides concrete legal solutions to remedy inadequacies in the law that will help usher in a more robust commercial law of privacy and security that protects consumer interests.

**Astrology: Its Worldview & Implications** Joseph Howard Tyson,2021-05-09 J. H. Tyson writes that astrology is neither a science nor pseudoscience. It falls into the category of crafts which somehow work, though science can’t fathom why. In that respect it resembles acupuncture and Feng Shui (the Chinese art of proper arrangement.) Astrology holds that cosmic forces influence us, just as the moon affects the ebb and flow of tides. Since 6,000 B.C. learned astrologers have collaborated on a body of data which links planetary positions at birth with certain human traits. A birth chart summarizes the native’s personality characteristics and provides an indication as to how that person might fare in various departments of life. Astrologers help clarify clients’ aptitudes with the intention of facilitating their development. Natal charts may be conceived of as blueprints which encourage people to cultivate their strengths, overcome faults, and circumvent avoidable problems. Tyson’s book outlines the history and principles of astrology, then provides examples of its value by juxtaposing biographical sketches of Napoleon, Theodore Roosevelt, Empress Alexandra of Russia, John F. Kennedy, Martin Luther King Jr., and others with their natal charts. Tyson argues for Earth’s inclusion into astrological theory. This globe under our very feet exerts great influence. He demonstrates how the slower-moving planets (Jupiter-through-Pluto) provide more accurate generational profiles than the “boomer,” gen-x-er, millennial classifications bandied about by pundits. In his chapter on Esoteric Astrology Tyson explains the Sixteen Astrological Ages of Humankind. Check out J. H. Tyson’s latest book for new insights into the prehistoric art of astrology.
