The Echo Room Parker Peevyhouse,2018-09-11 Parker

Peevyhouse's *The Echo Room* is a smart, claustrophobic, speculative young adult thriller with an immersive psychological mystery. The only thing worse than being locked in is facing what you locked out. Rett Ward knows how to hide. He's had six years of practice at Walling Home, the state-run boarding school where he learned how to keep his head down to survive. But when Rett wakes up locked in a small depot with no memory of how he got there, he can't hide. Not from the stranger in the next room. Or from the fact that there's someone else's blood on his jumpsuit. Worse, every time he tries to escape, he wakes up right back where he started. Same day, same stranger, same bloodstained jumpsuit. As memories start to surface, Rett realizes that the logo on the walls is familiar, the stranger isn't a stranger, and the blood on his jumpsuit belongs to someone—or something—banging on the door to get in. “*The Maze Runner* meets *Memento* in this clever, engrossing sci-fi mystery!” —New York Times bestselling author Jeanne Ryan “*The Echo Room* is just brilliant.... Full of twists and blinding turns. Peevyhouse is a master storyteller.” —New York Times bestselling author Brittany Cavallaro At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Seventeen-year-old Lake spends her days searching a strange, post-apocalyptic landscape for people who have forgotten one

very important thing: this isn't reality. Everyone she meets is a passenger aboard a ship that's been orbiting Earth since a nuclear event. The simulation that was supposed to prepare them all for life after the apocalypse has trapped their minds in a shared virtual reality and their bodies in stasis chambers. No one can get off the ship until all of the passengers are out of the sim, and no one can get out of the sim unless they believe it's a simulation. It's up to Lake to help them remember. When Lake reveals the truth to a fellow passenger, seventeen-year-old Taren, he joins her mission to find everyone, persuade them that they've forgotten reality, and wake them up. But time's running out before the simulation completely deconstructs, and soon Taren's deciding who's worth saving and who must be sacrificed for the greater good. Now, Lake has no choice but to pit herself against Taren in a race to find the secret heart of the sim, where something waits that will either save them or destroy them all.
