Lock In Learning With Escape Rooms Lisa Haberman,2014-10-10 Picture this: You and your colleagues are in an escape room. Your mission is to read the scenario and solve clues to uncover the mystery and unlock the door to the room and get out. All the while, you must learn how to work together. Escape rooms aren't just for fun or team building. They could be the instructional designer's answer to creating a gamified learning journey—one that balances learning objectives while creating a fun environment. In this issue of TD at Work, Lisa Haberman details: Why you should consider an escape room experience for your organization Practical steps for designing your game Ways to communicate and market the escape room learning event The return on investment for staging this gamified learning experience

Will They Escape? Daniel Huiet,2020-10-29 In *Will They Escape?*, Daniel Huiet reveals the teamwork lessons he has decoded from behind the scenes of his escape room business. Covering observations ranging from the classic differences such as age and gender, all the way down to the small words people use that create a big impact. But it is not only how the teams functioned as a whole, but how the individual affected the group with their attitude: the superstars who went unnoticed, know-it-alls, an interesting first date, and even a ghost! Huiet analyzed thousands of people and the methods they used to work through his escape rooms and noticed the behaviors of teams that succeeded and the patterns of teams that collapsed. How people used words or what actions they took could either uplift a group to success or tear the group down. Under pressure, even the most trained among us can burst like a frozen pipe and the people you least expect can rise to the occasion and win in record-breaking fashion. Light-hearted tales interspersed with lessons, this unique perspective on human interaction and cooperation is an insight into how each individual action leads to escape...or failure.

Escape the Living Room Donna Wray,2019-02-11 Five people are in a room with a hardened criminal holding them at gunpoint, with only an hour to escape. To do this, they must decipher a clue to figure out the code to open the lock on a mysterious box. They succeed! But only to find still more puzzling things inside the box.... If this sounds like fun to you, you have the right book!With this book, you can make your own Escape game that has the attractions of a professional game such as mysterious boxes, locks, and clues, with just a little shopping at your local stores. You can use the script and puzzles included to play 'Zuleika's Connection,' or you can create your own games from scratch. There are options within the Zuleika instructions to make it easier or harder, depending on the puzzle experience of the group who will be playing. The Zuleika game as written is for mature audiences, as it contains references to (pretend) drugs and (pretend) violence. It could be modified for younger children. By playing an Escape Room in your house,

apartment, or dorm, you can invite who you want, serve food and drinks, and make sure the puzzles and clues are fun to your group. Change the rules, or provide hints, to allow for a great team building experience. A link provides materials to download and print. A shopping list can be completed at your local big box stores. If you include thrift shopping, you can budget less than \$40 for a game that can be played multiple times. To put it together, you will need glue, scissors, and a love of puzzles.
