Roulette Winning Made Easy - Part 1. Secrets of Winning Casino Roulette Online! R.Narasimhan,2017-03-10 Roulette is one of the challenging and strategic casino betting games where we keep limited stakes for betting to get profits depending upon the strategy we use. The percentage of winning would be up to 98% approximately if proper mathematical strategy and approach used with the numbers on the board. Obviously, if we are bit careless and lazy to miss any sequence strategy; leads to minimum or maximum loss. So the roulette must be played very carefully with stable mind and quite intelligent approach only for limited time in a day or week. Though the roulette game comes under gambling; it is like a chess board where you will win if properly played with advanced techniques. European and American roulette games are very popular and we choose European roulette example throughout this book to understand well and increase winning chance. European roulette has single zero '0' and American roulette has double '0', '00's where almost playing style is same with approaches. There are many different types of casinos are available like direct casinos in club where really you can play with the people and second approach is to play online. Believe in your talent and knowledge; learn well and really you can perform at the best. Some of the online casino vendors are Royal Panda, Royal Vegas, Spin Palace, Best 365, Indio Casino, 1Cent Casino etc. As we are giving only few strategic approach or techniques to win the roulette game for money, more about these online casinos can be searched in the sites like www.casino.org etc or google the same. These online casino sites are giving free play of roulette where you can use dummy money to play and learn. First practise any methods of strategies in that and then play with your hard earned money to win. Do not play with the real money unless you are at expert level to play roulette. This book is not for learning history or basics/ full strategies of roulette games. Please learn roulette theory of basics first by searching in google or from the above mentioned sites and then go through these methods.
