General Custer, Libbie Custer and Their Dogs Brian Patrick Duggan,2019-03-11 General George Armstrong Custer and his wife, Libbie Custer, were wholehearted dog lovers. At the time of his death at Little Bighorn, they owned a rollicking pack of 40 hunting dogs, including Scottish Deerhounds, Russian Wolfhounds, Greyhounds and Foxhounds. Told from a dog owner's perspective, this biography covers their first dogs during the Civil War and in Texas; hunting on the Kansas and Dakota frontiers; entertaining tourist buffalo hunters, including a Russian Archduke, English aristocrats and P. T. Barnum (all of whom presented the general with hounds); Custer's attack on the Washita village (when he was accused of strangling his own dogs); and the 7th Cavalry's march to Little Bighorn with an analysis of rumors about a Last Stand dog. The Custers' pack was re-homed after his death in the first national dog rescue effort. Well illustrated, the book includes an appendix giving depictions of the Custers' dogs in art, literature and film.

What Shall We Do Now? Dorothy Canfield Fisher,1922

From Property to Family Andrei S. Markovits,Katherine Crosby,2014-09-15 In the wake of the considerable cultural changes and social shifts that the United States and all advanced industrial democracies have experienced since the late 1960s and early 1970s, social discourse around the disempowered has changed in demonstrable ways. In *From Property to Family: American Dog Rescue and the Discourse of Compassion*, Andrei Markovits and Katherine Crosby describe a “discourse of compassion” that actually alters the way we treat persons and ideas once scorned by the social mainstream. This “culture turn” has also affected our treatment of animals inaugurating an accompanying “animal turn”. In the case of dogs, this shift has increasingly transformed the discursive category of the animal from human companion to human family member. One of the new institutions created by this attitudinal and behavioral change towards dogs has been the breed specific canine rescue organization, examples of which have arisen all over the United States beginning in the early 1980s and massively proliferating in the 1990s and subsequent years. While the growing scholarship on the changed dimension of the human-animal relationship attests to its social, political, moral and intellectual salience to our contemporary world, the work presented in Markovits and Crosby’s book constitutes the first academic research on the particularly important institution of breed specific dog rescue.
