Generic Dungeon Generator James Shipman, 2012-06-05 Generic Dungeon Generator has been specially designed to create your own random Tunnels & Trolls dungeon, but it could be used for any Fantasy RPG. All you have to do is just follow the instructions at the end of each section to determine which table to consult next. After a few minutes, it should all become self-explanatory. As you design your dungeon, map it out. If you roll up something that doesn't fit the existing dungeon structure, you will have two options. You can either ignore the new result, or re-roll. Some items within require judgment calls; just come up with whatever strikes your fancy at the time. The creature encounters are based around an assumption that FOUR 1st-level characters will be delving into the dungeon on the 1st level. If you have more or fewer characters, you will want to adjust the creature encounters appropriately. Also added to this book are two articles on writing and creating your own solos and a bonus short story about a Troll.

The Oldskull Dungeon Generator - Level 1 Kent David Kelly, 2018-09-07 This supplement features an immense Gygaxian OSR random dungeon generator system, crammed into 83 pages. It's focused on empowering you to create the sprawling level 1 of any mega-dungeon, or any smaller dungeon set to challenge adventurers of experience levels 1 to 3. The challenge levels of the monsters, traps, tricks, and treasures all reflect that difficulty level. You can use this book to design any number of dungeons, and if your group is patient you can even use it during play. You will also find some experimental solitaire rules here, if you like to practice the dungeon crawling yourself! This book's systems interlock with the Classic Dungeon Design Guide series (CDDG1-3) as well as the Book of Dungeon Traps (BDT1) if you want to add more detail to any aspect of the design. The system is comprised of many branching D100 and D1000 tables. Sub-systems are provided to generate: [1] starting areas, [2] random doorways, [3] corridors, [4] dead ends, [5] level connectors (stairs etc.), [6] unusual level connectors (teleporters, slides, etc.), [7] monster lairs, [8] monster-guarded treasures, [9] room size and dimensions, [10] room exits, [11] unusual doors, [12] room contents (lair, trap, trick, etc.), [13] side passages, [14] traps, [15] tricks (a full 17-page system with millions of potential results), and [16] unguarded treasure hoards. At the end you'll find an Appendix with troubleshooting and solitaire advice, and a quick reference hyperlink section which will allow you to flip through the tables quickly. From Kent David Kelly and Wonderland Imprints, Only the Finest Works of Fantasy.

Every character in the Exodus System is versatile enough to be useful both in and out of combat situations. The Exodus System is already a bestseller. Check it out today to see why!

Each chapter explains an algorithm type or domain, including fractal methods, grammar-based methods, search-based and evolutionary methods, constraint-based methods, and narrative, terrain, and dungeon generation. Mega Dungeon Maker Justin Sirois, 2019-02-08 Dungeon Dealer's decks [are] a quintessential supplement to tabletop roleplaying. Easy Roller Dice. Adapted from the Dungeon Dealer card decks for 5e and other systems. Create unlimited random dungeons with this easy to use book. Each page has a unique 5x5 dungeon tile that you can draw as well as D20 hallway sections to join tiles when you need to. Using the key, you choose the shape of the rooms (square, circle, pentagon, rectangle, or oval) or randomize it using 1D4. D20 larger chambers mix up the room size and open the map up for boss encounters. This open system allows you to add or subtract elements you might not need. This is a system-neutral map generator that will never make the same map twice. It uses the classic playing card deck 52 factorial which is really a super sized 140 factorial when you add all the variables inside the book + the variable orientation of the map sections + variable shape rooms. Didn't prep the night before? This is great for live map making If you're running a campaign and need a map on the fly, you can create rooms, hallways, and chambers as your party explores. If a PC enters a chamber and an enemy marker is facing them in the doorway, they have been surprised by that enemy. Pits can send PCs or NPCs down a level into a new randomly generated floor of the dungeon. As the Game Master, you will constantly be surprised by the outcomes.

Table Fables Madeline Hale, 2017-02-02 Do you play Dungeons and Dragons, Pathfinder or some other obscure brand of fantasy tabletop role-playing game? Do you enjoy lists of magical items, fantastical weapons, dubious potions and fascinating books? Do you tire of your players asking difficult questions, like 'what is in the dead guy's pocket?' or 'what is on this tavern's menu?' or other such wearisome inquiries concerning details you had no time to prepare for? Well, then this is the book for you. Table Fables is filled over eighty illustrated pages of lists and generators designed to be useful to game masters, young and wizened alike.

OSR Solo Peter Rudin-Burgess, 2021-02-23 OSR Solo rules These rules are intended to allow you to play an OSR, in this case meaning OD&D, B/X style games, without a Dungeon Master. game you will get using these rules will be a sandbox-style adventure, you will not need to do any Dungeon Master [DM] style preparation although having a few stock NPCs or appropriate levels would be helpful. No DM? The normal cycle of play is that the DM describes the scene and asks what do you do? The players describe their actions. The DM

describes the effects of those actions and the cycle repeats. In solo play there is just the single character and no DM. You start by imagining your character in the game setting and play them through all the social interactions, all the NPCs and events that would normally come up. At some point you will reach a point where you would normally ask your DM for more information. Are there any guards? Are there any ways out? What can you hear? At this point the solo rules come into play. You pitch your question in a Yes/No format. The solo rules will then return an answer to your question much like a Magic 8 Ball toy. It is then down to you and your improv. skills to decide what does this answer mean right now? Often the first thing that comes into your head is the answer to go with. If you just got yes and no answers things would get boring quite quickly. These rules are designed to throw up twists and turns into your character's story. is a perfect way to learn a new game, test your first adventures and going beyond just making characters when you are first getting to know the rules
