*Employee Assistance Programs in South Africa* R Paul Maiden,2014-04-23 Employee Assistance Programs (EAPs) are a relatively new development in South Africa, having emerged in the 1980s, and this groundbreaking book provides a comprehensive overview of these EAPs in South Africa. It gives readers a first-hand view of the myriad issues encountered by South African practitioners. Employee Assistance Programs in South Africa provides EAP professionals, human resources managers, social workers, psychologists, and other mental health professionals with startling insight into the significant clinical, cultural, and ethical problems that their South African colleagues face in the workplace. It begins to fill the gap in the literature on professional practice in an apartheid society and can help develop opportunities for dialogue and an exchange of ideas between all EAP workers to help educate them and bring them together. This enlightening and potentially controversial book addresses a variety of pertinent topics, including: the conceptual sophistication of EAPs currently operating in the South African business community an evaluation of the macro model EAP in South Africa in light of the country’s sociopolitical, economic, and social problems cultural concerns facing black and white EAP practitioners and clients ethical conflicts inherent in working in an environment sanctioned by apartheid widespread alcohol and drug problems in South Africa the development of a post-traumatic stress and accident involvement program current educational developments in the EAP field in South Africa Providing a thorough, clear understanding of South Africa’s EAPs, this is an ideal book for all professionals and advanced students interested in the effects of political, societal, and cultural values on the operations of EAPs in a foreign country.

*Decolonising Schools in South Africa* Pam Christie,2020-06-07 This book explores the challenge of dismantling colonial schooling and how entangled power relations of the past have lingered in post-apartheid South Africa. It examines the ‘on the ground’ history of colonialism from the vantage point of a small town in the Karoo region, showing how patterns of possession and dispossession have played out in the municipality and schools. Using the strong political and ontological critique of decoloniality theories, the book demonstrates the ways in which government interventions over many years have allowed colonial relations and the construction of racialised differences to linger in new forms, including unequal access to schooling. Written in an accessible style, the book considers how the dream of decolonial schooling might be realised, from the vantage point of research on the margins. This Karoo region also offers an interesting case study as the site where the world’s largest radio telescope was recently located and highlights the contrasting logics of international ‘big science’ and local development needs. This book will be of interest to academics and scholars in the education field as well as to social geographers, sociologists, human geographers, historians and policy makers. Chapters 1 and 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

**Higher Education in South Africa** Eli Bitzer,2009-10-01 Higher Education in South Africa should be of considerable interest to higher education researchers outside of South Africa, as well as within, for the general and comparative assessments it makes. The South African higher education researchers included within its covers have clearly engaged with research and writing from many parts of the world, which they have then applied to make sense of their own condition. - Malcolm Tight Lancaster University, UK

South Africa and the Logic of Regional Cooperation James J. Hentz,2005-07-19 In South Africa and the Logic of Regional Cooperation, James J. Hentz addresses changes in South Africa's strategies for regional cooperation and economic development since its transition from apartheid to democracy. Hentz focuses on why the new South African government continues to make regional cooperation a priority and what methods this dominant state uses to pursue its neighborly goals. While providing a synthetic overview of the history of regional cooperation in southern Africa, Hentz considers the logic of cooperation more generally. An extensive discussion of South African politics provides the context for Hentz's exploration of the more widely felt effects of domestic change. Readers interested in the international organization of the politics and economy of southern Africa will find thought-provoking material in this important book.
