Your Practice by Design Mike Keiser, Maria Keiser,2013-11 Successful practices don't just happen by accident. They are orchestrated. After more than 10 years of research, practice, and working with insurance brokers, Mike and Maria Keiser have created a step by step system to help you create the insurance practice of your dreams. This book was written with you in mind. Its goal is to provide you with a comprehensive guide to creating a top performing insurance practice. This isn't a book on sales or management techniques, but rather a tool box to help you build a practice poised for success. Mike & Maria Keiser have always held the philosophy of practice what you preach. Everything in this book has been practiced, proven and vetted. It isn't just rehashed material in a new package. The insurance brokers we have worked with not only stay in business for the long term, they continuously see their practices grow and reap the rewards year after year.

*21st Century Communication for Insurance Agents* Robert Edgin,2013-10-31 The insurance industry has changed, consumers have changed, the competition has changed, communication has changed...BUT MOST INSURANCE AGENTS HAVE NOT! With mass marketing and over \$1 BILLION dollars spent on advertising last year alone by a few of the biggest players in the insurance industry, there's not a day that goes by that your clients and prospects aren't bombarded with messages from your competitors. Unfortunately, most of those messages focus on cheap insurance, saving money or depict the agent as outdated and useless. Consumers are being taught that the only difference between insurance providers is PRICE and the entire industry is being commoditized by direct writers trying to push the retail agency force into extinction! Retail agents want to know how they can compete with the giants of advertising and mass marketing to keep their clients and grow their agencies. The unfortunate answer is that you simply can NOT compete in the price wars and mass marketing being done by the big industry advertisers. IF YOU TRY, YOU WILL LOSE! However, you CAN beat them by communicating with your clients and prospects in ways that the big companies cannot. You CAN use the new rules of communication and new methods to reach your clients and prospects that will set you apart as THE go-to insurance advisor in your area. Agents need to break away from the price wars and commoditization and start creating experiences and relationships with their clients that are

impossible to replace. You're in a fight for your agency's life. Whether you realize it or not, change in the insurance industry is going to continue at a rapid pace over the coming years. The big discounters will continue to increase their advertising and banks and other large corporations will join in to try and make the retail agent as irrelevant as possible. Consumers will rely more on the internet and social media for their research and communication with insurance companies and agents. Only the strongest agents who find new ways to communicate their value and set themselves apart will survive. You can do more than just survive, you can thrive in the coming years by becoming a 21st Century agent and using 21st Century Communication tools with your clients and prospects. You can be known in your community as an insurance expert and a trusted advisor that people seek out and want to do business with. You can learn:

1. The 3 jobs of a 21st Century agent that are vital to your success
2. Strategic ways to bring new sales to your door without having to chase them
3. How to keep clients married to your agency for life
4. How to create top of mind awareness with clients and prospects
5. The seven questions that every prospect wants to know before choosing an agent
6. How to overcome price as an objection to doing business with you
7. The 6 new rules of communication and how to use them with clients and prospects
8. 7 tools of 21st Century Communication
9. The best way to use social media with clients and prospects
10. How to set up online and social media tools and manage them in a few minutes
11. How to make old-school communication techniques new and relevant again
12. The secret to getting clients to consistently refer prospects to your agency
13. How to attract client cross-sales instead of constantly having to chase them
14. The importance of touching your clients 24 times per year and how to do it
15. The importance of a communication calendar and the formula that makes it easy
16. How to create social influence
17. Two easy formulas for writing communication pieces that clients want to read
18. The two most important things to concentrate your time, effort and energy on

No one is going to make you grow, make you improve or make you keep up with the consumers and the insurance industry. But if you don't, it's just a matter of time before you get left behind.

**Broker Executive** Val Vogel, Jr., 2013-06 **Broker Executive** is a strategic guidebook for business owners and executives to help them get the most out of their insurance and insurance broker. It also

describes a new type of insurance broker - the broker executive - as one who adheres to the highest standards of customer service and business ethics. This book gives business executives an understanding of the thought process their broker should go through to find the right solution for them, with an emphasis on the usage of life insurance as a business tool. It identifies some of the hazards of the insurance world, and ways to avoid them. It also uncovers techniques top brokers can use to create additional value using insurance, including succession planning and key personnel retention strategies.

**So You Want to Be an Insurance Agent Third Edition** Jeff Hastings,2013-07 There is more to selling insurance than writing policies. When done right, you can build a successful business that affords you a lifestyle most people only dream about. Why try to figure it out on your own when you can learn from someone who has already been there and done that? Jeff Hastings knows insurance, and he knows how to build a profitable business. Since starting as a file clerk with Farmers Insurance Group in 1985, Jeff has built an extraordinary business, consistently receiving top awards, including District Manager of the Year in 2005. He and the agents in his district have achieved phenomenal success, and now he shares the keys to their success with you. Many of the business tools you will need are included such as licensing guidelines, a business plan, employment contracts, an employee handbook, business forms and more. If you are serious about building your own insurance agency, *So You Want to Be an Insurance Agent* gives you a complete system to develop, manage and grow your business.

**Confessions of an Insurance Agent** Allen Drew, 2017-04-24 Do you hate shopping for insurance? Try selling it! Although insurance companies have some of the most entertaining commercials on television, most people still dread shopping for insurance more than just about any other product or service. The experience people have often leaves them confused as to what they are really paying for. As an insurance agency owner since 2001, I have learned it doesn't have to be that way. This book will explain how people can have a better experience when buying insurance if: \* They feel that their needs are the focus of the agent. \* They feel confident the insurance coverage will help them when it's needed. \* The customer relationship is maintained by the agent through effective communication. This book will also explain how insurance agents can: \* Create a learning environment when meeting with a client. \* Foster the perception of an insurance expert. \* Build an agency team of teachers. \* Continue to educate and coach clients beyond the initial purchase. The best salespeople are good teachers. Buying insurance requires trust that the policy you buy is what you need. An insurance agent that can educate someone on their needs as well as their policy coverages will earn that trust. Maintaining that trust as life and needs change will allow for a long term client/ advisor relationship which is the ultimate goal.
