*The Miracle of the Kurds* Stephen Mansfield, 2014-10-14 New York Times best-selling author Stephen Mansfield was witness to much of the modern history of the Kurds. In this riveting account, Mansfield movingly tells the stories of the people who have fashioned one of the greatest economic and cultural resurrections in human history. They are the largest people group in the world without a homeland of their own. Despised and persecuted the world over, they even call themselves the people without a friend. Saddam Hussein tried to wipe them from the face of the earth, killing several hundred thousand of them in the attempt. Their sufferings have become legend. They are the Kurds, descendants of the ancient Medes best known today from the pages of the Bible -- inhabitants of what the world now calls Northern Iraq. Yet today the Kurds are rebuilding so brilliantly from war and oppression that even their enemies call it a miracle. Six star hotels stand where bombs once fell, shopping malls and gleaming schools rise where massacres once occurred. National Geographic and Conde Nast have listed modern Kurdistan as a must-see tourist destination.

**Social Media and Democratization in Iraqi Kurdistan** Munir

Mohammad, 2019-10-15 This book assesses the implications of increased use of social media platforms for democratization in a hybrid political system such as Iraqi Kurdistan. It finds that using social media has increased online political participation and political communication, but without a positive effect on the democratization process.

**Federalism, Secession, and International Recognition Regime** Alex

Danilovich, 2018-10-10 Federalism is widely believed to be an efficient tool to quell ethnic conflict, yet recently there has been a pronounced global tendency among ethnic minorities to break away from larger nations. Iraqi Kurdistan, a region within the newly established Iraqi federation, also harbors plans to proclaim its own sovereign state. This volume analyses the factors that have caused the Kurds to change their minds about living in a federal Iraq, and the reaction of their neighbors and the international community at large. Using a broad theoretical framework of federal studies and secession theory, this book examines the causes for the breakup of ethnic federations fuelled by nationalism as well as the international regime of recognition of newly formed entities. It provides a first-hand account and theoretically informed interpretations of the Iraqi situation, showing that federalism is not always a universal remedy for ethnic and religious conflicts; it also emphasizes that the international recognition regime is a significant variable in peoples' actions and aspirations to sovereignty. Enriching the ongoing debate on federalism and self-determination, this volume will appeal to scholars and students of politics, international relations, and comparative politics, as well as those interested in federalism, the Middle East and Kurdistan.

**The Kurds before a Regional Transformation** Ferhad Ibrahim Seyder, 2020-02-18

The Kurdish independence movement is in retreat. Contributing factors for this withdrawal are the new outbreak of the Kurdish war in Turkey, the structural weakening of the autonomous region Rojava in Syria, proclaimed by the DUP, and the setbacks in Iraqi Kurdistan, caused by political and economic blockades. The Kurdish autonomy projects will be reduced to a minimum. The independence referendum in Iraq and the Iraqi and Shiite militias' military response are indicative of the reluctance of the Middle-Eastern ruling forces to accept political and ethnical pluralism. External actors as the USA, the EU and the UN, support the return of the strong state in order to support regional stability. Kurdish elites and their political organisations are facing a crisis of their own. The Kurdistan Workers' Party propagates postmodern concepts of a post-nation state in a region requiring stable political structures more than ever before. In Iraqi Kurdistan ongoing internal fighting between the main actors sets back Nation and State building processes by decades. All these factors are part of a phase of transition aiming at a new

regional order, whose outlines can't be anticipated yet.

Elite Theory and the 2003 Iraq Occupation by the United States Bamo

Nouri, 2021-09-09 This book locates US elites as members of corporate elite networks and drivers of corporate elite interests, arguing that studying the social sources of US power plays an important part in understanding the nature of their decisions in US foreign policy. Exploring the decisions taken by American elites on the Iraq War, the author argues that the decisions and agendas US elites pursued in Iraq were driven by corporate elite interests – embedded in them as individuals and in groups through the corporate elite networks they were rooted in – which they prioritised, using democracy promotion as a cover up. Using elite theory, membership network analysis and content analysis, this book explains who these elites were, how their backgrounds and social influences impacted their world-views, and what this looked like in a detailed exploration of their decision-making on the ground in Iraq. Nouri examines the nature of US power, what drives it, what it looks like and its legacies. This volume provides valuable understandings and lessons to scholars and students of International Relations studying democracy, US foreign policy, post-colonialism, elite theory, US imperialism, neoliberalism, orientalism, Iraqi politics, and the making of the Iraq constitution.

*Syria After the Uprisings* Joseph Daher, 2020-02-22 Syria has been at the center of world news since 2011, following the beginnings of a popular uprising in the country and its subsequent violent and murderous repression by the Assad regime. Eight years on, Joseph Daher analyzes the resilience of the regime and the failings of the uprising, while also taking a closer look at the counter revolutionary processes that have been undermining the uprising from without and within. Joseph Daher is the author of *Hezbollah: The Political Economy of the Party of God*, and founder of the blog *Syria Freedom Forever*.

*The Mountains We Carry* Zaid Brifkani, 2021-09-29 Azad's father was brutally executed by the Iraqi army. Since then, Azad has moved to the city of Duhok to pursue his education. In doing so he hopes to provide a new life for his family and his fiancée, Juwan, who are back in their home village. But as the Iran-Iraq War comes to an end, the Iraqi government launches the genocidal Anfal campaign against the Kurds. Fleeing separately across physical and emotional borders, Azad and Juwan find themselves in the crosshairs of the Iraqi army. However, the most dangerous threat is the one they least expect.

*Kurds Under Threat* Deniz Gumustekin, 2021-08-30 The aim of this book is to identify the causal factors that influence the transnational networks between Kurdish organizations. Research findings reveal that political rationality and external threats seem to be stronger predictors of political behavior than ethnic ties in the Kurdish case.

**Nationalism and Islamism in the Kurdistan Region of Iraq** Mohammad Salih Mustafa, 2020-11-29 Exploring a new political phenomenon in the Middle East, this book studies the reconciliation of nationalism and Islamism by Islamic political parties in the context of nation states. Islamism in Kurdistan has become significantly framed by the politics of nationalism. Although the concept of religious nationalism has been discussed substantially before, this work highlights a new brand of religious nationalism that has emerged as a result of intertwining nationalism and Islamism. The focus of this study is on the development of religious nationalism in the continuously tumultuous region of the Middle East. The volume investigates whether Islamism in Kurdistan is limited by the politics of nationalism – which is an accentuated example for the whole Middle East region. By looking at the Kurdistan Islamic Union (KIU), the research studies Islamism in the Kurdistan Region to elaborate on this new type of politics. This is essentially due to the absence of a politically recognised nation state, which renders Kurds to be particularly susceptible to various manifestations of nationalism. Offering an account on the spread of the Muslim Brotherhood in the Kurdistan Region, this original research on Kurdish

nationalism will be a key text for students and researchers interested in nationalism, Islamism and Middle East politics.

**The Drone Wars** Seth J. Frantzman, 2021-06-22 In the battle for the streets of Mosul in Iraq, drones in the hands of ISIS terrorists made life hell for the Iraq army and civilians. Today, defense companies are racing to develop the lasers, microwave weapons, and technology necessary for confronting the next drone threat. Seth J. Frantzman takes the reader from the midnight exercises with Israel's elite drone warriors, to the CIA headquarters where new drone technology was once adopted in the 1990s to hunt Osama bin Laden. This rapidly expanding technology could be used to target nuclear power plants and pose a threat to civilian airports. In the Middle East, the US used a drone to kill Iranian arch-terrorist Qasem Soleimani, a key Iranian commander. Drones are transforming the battlefield from Syria to Libya and Yemen. For militaries and security agencies—the main users of expensive drones—the UAV market is expanding as well; there were more than 20,000 military drones in use by 2020. Once the province of only a few militaries, drones now being built in Turkey, China, Russia, and smaller countries like Taiwan may be joining the military drone market. It's big business, too—\$100 billion will be spent over the next decade on drones. Militaries may soon be spending more on drones than tanks, much as navies transitioned away from giant vulnerable battleships to more agile ships. The future wars will be fought with drones and won by whoever has the most sophisticated technology.

**The Cambridge History of the Kurds** Hamit Bozarslan, Cengiz Gunes, Veli Yadirgi, 2021-04-22 The Cambridge History of the Kurds is an authoritative and comprehensive volume exploring the social, political and economic features, forces and evolution amongst the Kurds, and in the region known as Kurdistan, from the fifteenth to the twenty-first century. Written in a clear and accessible style by leading scholars in the field, the chapters survey key issues and themes vital to any understanding of the Kurds and Kurdistan including Kurdish language; Kurdish art, culture and literature; Kurdistan in the age of empires; political, social and religious movements in Kurdistan; and domestic political developments in the twentieth and twenty-first centuries. Other chapters on gender, diaspora, political economy, tribes, cinema and folklore offer fresh perspectives on the Kurds and Kurdistan as well as neatly meeting an exigent need in Middle Eastern studies. Situating contemporary developments taking place in Kurdish-majority regions within broader histories of the region, it forms a definitive survey of the history of the Kurds and Kurdistan.

**The Great Betrayal** David L. Phillips, 2018-11-29 The twentieth century saw dramatic changes in the once Kurd-dominated Kirkuk region of Iraq. Despite having repeatedly relied on the Kurdish population of Iraq for military support, on three occasions the United States have abandoned their supposed allies in Kirkuk. The Great Betrayal provides a political and diplomatic history of the Kirkuk region and its international relations from the 1920s to the present day. Based on first-hand interviews and previously unseen sources, it provides an accessible account of a region at the very heart of America's foreign policy priorities in the Middle East. In September 2017, Iraqi Kurdistan held an independence referendum, intended to be a starting point on negotiations with the Iraqi Government in Baghdad on the terms of a friendly divorce. Though the US, Turkey, and Iran opposed it, the referendum passed with 93% of the vote. Rather than negotiate, Iraq's Prime Minister Heider al-Abadi issued an ultimatum and then attacked the region. Iraq's Kurdish population have been abandoned, once again, by their supposed allies in the US. In this book, David L. Phillips reveals the failings of America's policies towards Kirkuk and the devastating effects of betraying an ally.

**The Kurdish Question Revisited** Gareth Stansfield, Mohammed Shareef, 2017-08-15 The Kurds, once marginal in the study of the Middle East and secondary in its

international relations, have moved to centre stage in recent years. The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable, immutable phenomenon is being transformed amid the new political realities of the Middle East.

**Iran and Turkey** Marianna Charountaki, 2018-03-30 The foreign policies of Turkey and Iran seem increasingly to dictate the course of events in the Middle East. More recently, and especially following the Syrian crisis, the spotlight has turned to these states' dynamic re-entry onto the political stage, revealing them as key players with an international role in efforts towards the balance of power across the region. This book traces the major determinants of Turkish and Iranian foreign policies and their influence on events in the Middle East. Based on an examination of these states' politics and policies since 1979, and using material gathered from interviews with leading political figures from Turkey, Iran and the Kurdistan Region of Iraq, Marianna Charountaki offers fresh insights into how we understand the contemporary global order. Of particular importance, this book shows, is the effect of both external and internal factors on foreign policy and how the interaction between state and non-state actors informs political decisions. In placing these issues in a theoretical framework, Marianna Charountaki pioneers a new conceptual map within International Relations. An interdisciplinary study that provides a fresh new perspective, this book will be of particular interest to scholars of International Relations, Politics, Foreign Policy, Kurdish and Middle East Studies.

**Towards an Understanding of Kurdistan Memory Culture** Bareez

Majid, 2024-01-21 This book presents a thorough analysis of the Kurdistan Region of Iraq's memory culture, focusing particularly on commemorations and representations of the Anfal and Halabja atrocities. The author employs a transdisciplinary approach that draws on Memory Studies, Postcolonial Studies, Heritage Studies, Kurdish Studies, Literary Studies and Trauma Studies, to analyze cultural objects such as Kurdistan literary novels, museums, and school curricula. The book introduces two key concepts: the phantomic museum and the apostrophic museum. The former explores the fragile and politicized nature of memories of missing individuals who disappeared during Saddam Hussein's genocidal campaigns and who have never been found, primarily as they return in the Halabja Monument and Peace Museum. The latter examines how the addressing - apostrophizing - of Kurdistan, in and by the Amna Suraka museum in the city of Sulaymaniyah, institutionalizes "official" and highly politicized versions of the past.

**After Mosul** Andrea Plebani, After several months of heavy fighting, Mosul has been liberated. However, this will not mark the complete defeat of IS in Iraq, nor will it signal the end of the crisis affecting the country. What will be the fate of the city and of the other liberated territories? Could this victory re-ignite competition among Iraq's various ethno-sectarian communities? And how could this impact on the Iraqi Kurdistan region? What are the interests and agendas of the main regional and international players? This volume sketches out possible answers through a multi-pronged approach, bringing to light the complexity of the Iraqi scenario and the influence exerted over it by a broad array of internal and external actors.

The Kurds of Northern Syria Harriet Allsopp, Wladimir van Wilgenburg, 2019-08-08 Based on unprecedented access to Kurdish-governed areas of Syria, including exclusive interviews with administration officials and civilian surveys, this book sheds light on the socio-political landscape of this minority group and the various political factions vying to speak for them. The first English-language book to capture the momentous transformations that have occurred since 2011, the authors move beyond idealized images of Rojava and the Kurdish PYD (Democratic Union Party) to provide a nuanced assessment of the Kurdish autonomous experience and the prospects for self-rule in Syria. The book

draws on unparalleled field research, as well as analysis of the literature on the evolution of Kurdish politics and the Syrian war. You will understand why the PYD-led project in Syria split the Kurdish political movement and how other representative structures amongst Syria's Kurds fared. Emerging clearly are the complex range of views about pre-existing, current and future governance structures.

Youth Identity, Politics and Change in Contemporary Kurdistan Shivan Fazil, Bahar Baser, 2021-09-01 Today's youth are challenging the older political class around the world and are forming new political generations. Examples from South Africa and elsewhere where peace processes were deemed to be successful show signs of youth disapproval of the current post-conflict conditions. Moreover, the Arab Spring witnessed numerous youth movements emerge in authoritarian and illiberal contexts. This book was prepared in light of these discussions and aims to contribute to these ongoing debates on youth politics by presenting the situation of youth in the Kurdistan Region of Iraq (KRI) as a case study. It will be the first book that specifically focuses on the Iraqi Kurdish youth and their political, social, and economic participation in Kurdistan. The contemporary history of the KRI is marked by conflict, war, and ethnic cleansing under Saddam Hussein and the tyranny of the Ba'ath regime, significantly affecting the political situation of the Kurds in the Middle East. Most of the recent academic literature has focused on the broader picture or, in other words, the macro politics of the Kurdish conundrum within Iraq and beyond. There is little scholarship about the Kurdish population and their socio-economic conditions after 2003, and almost none about the younger generation of Kurds who came of age during autonomous Kurdish rule. This is a generation that, unlike their forebears, has no direct memory of the decades-long campaigns of repression. Studying and examining the rise of this generation of Kurdish young millennials—"Generation 2000"—who came of age in the aftermath of the United States invasion of Iraq offers a unique approach to understand the dynamics in a region that underwent a substantial socio-political transformation after 2003 as well as the impact of these developments on the youth population. Pursuing different themes and lines of inquiry the contributors of the book analyze the challenges and opportunities for young men and women to fulfil their needs and desires, and contribute to the ongoing quest for nationhood and nation-building. In this book, our aim is to bring together a variety of perspectives from local and foreign academics who have been working on pressing issues in Kurdistan and beyond. The chapters focus on an array of themes, particularly including political participation, political situation and change, religiosity, and extremism. ... Taken together, the chapters provide us with an introduction to youth politics in Kurdistan. This book is just the first attempt to open academic and nonacademic debate on this subject at a time when protests around youth-related issues are becoming a more prevalent method of political engagement in the region. Our hope is that more research follows and supplements what has not been addressed in this book, especially through the introduction of first-hand youth perspectives to the core of this analysis and giving them a voice in nonviolent platforms. **Extremism in the Digital Era** Adib Abdulmajid, 2021-07-15 This book constitutes a journey into the obscure field of sectarian-guided discourses of radical Islamist groups. It provides new insights into the ideological mechanisms utilized by such organizations to incite sectarian conflicts and recruit local and foreign guardians to their alleged cause.
