Understanding Morphology Martin Haspelmath, Andrea D. Sims, 2013-10-28 This new edition of *Understanding Morphology* has been fully revised in line with the latest research. It now includes 'big picture' questions to highlight central themes in morphology, as well as research exercises for each chapter. *Understanding Morphology* presents an introduction to the study of word structure that starts at the very beginning. Assuming no knowledge of the field of morphology on the part of the reader, the book presents a broad range of morphological phenomena from a wide variety of languages. Starting with the core areas of inflection and derivation, the book presents the interfaces between morphology and syntax and between morphology and phonology. The synchronic study of word structure is covered, as are the phenomena of diachronic change, such as analogy and grammaticalization. Theories are presented clearly in accessible language with the main purpose of shedding light on the data, rather than as a goal in themselves. The authors consistently draw on the best research available, thus utilizing and discussing both functionalist and generative theoretical approaches. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics, or anyone in a related discipline looking for a first introduction to morphology.

After Atlas Emma Newman, 2017-12-28 Acclaimed author Emma Newman returns to the captivating universe she created in *Planetfall* with a stunning science fiction mystery where one man's murder is much more than it seems... Gov-corp detective Carlos Moreno was only a baby when Atlas left Earth to seek truth among the stars. But in that moment, the course of Carlos's entire life changed. Atlas is what took his mother away; what made his father lose hope; what led Alejandro Casales, leader of the religious cult known as the Circle, to his door. And now, on the eve of the fortieth anniversary of Atlas's departure, it's got something to do why Casales was found dead in his hotel room-and why Carlos is the man in charge of the investigation. To figure out who killed one of the most powerful men on Earth, Carlos is supposed to put aside his personal history. But the deeper he delves into the case, the more he realizes that escaping the past is not so easy. There's more to Casales's death than meets the eye, and something much more sinister to the legacy of Atlas than anyone realizes...

The Islamic Traditions of Cirebon A.G. Muhaimin, 2006-11-01 This work deals with the socio-religious traditions of the Javanese Muslims living in Cirebon, a region on the north coast in the eastern part of West Java. It examines a wide range of popular traditional religious beliefs and practices. The diverse manifestations of these traditions are considered in an analysis of the belief system, mythology, cosmology and ritual practices in Cirebon. In addition, particular attention is directed to the formal and informal institutionalised transmission of all these traditions

Multiword expressions at length and in depth Stella Markantonatou, Carlos Ramisch, Agata Savary, Veronika Vincze, The annual workshop on multiword expressions takes place since 2001 in conjunction with major computational linguistics conferences and attracts the attention of an ever-growing community working on a variety of languages, linguistic phenomena and related computational processing issues. MWE 2017 took place in Valencia, Spain, and represented a vibrant panorama of the current research landscape on the computational treatment of multiword expressions, featuring many high-quality submissions. Furthermore, MWE 2017 included the first shared task on multilingual identification of verbal multiword expressions. The shared task, with extended communal work, has developed important multilingual resources and mobilised several research groups in computational linguistics worldwide. This book contains extended versions of selected papers from the workshop. Authors worked hard to include detailed explanations, broader and deeper analyses, and new exciting results, which were thoroughly reviewed by an internationally renowned committee. We hope that this distinctly joint effort will provide a meaningful and useful snapshot of the multilingual state of the art in multiword expressions modelling and processing, and will be a point point of reference for future work.

Red Tigress Amélie Wen Zhao, 2021-03-02 Fans of *Children of Blood and Bone* will love the sequel to *Blood Heir*. The second book in an epic fantasy series about a princess hiding a dark secret and the con man she must trust to liberate her empire from a dark reign. Ana Mikhailov is the only surviving member of the royal family of Cyrilia. She has no army, no title, and no allies, and now she must find a way to take back the throne or risk the brutal retribution of the empress. Morganya is determined to establish a new world order on the spilled blood of non-Affinites. Ana is certain that Morganya won't stop until she kills them all. Ana's only chance at navigating the dangerous world of her homeland means partnering with Ramson Quicktongue again. But the cunning crime lord has schemes of his own. For Ana to find an army, they must cross the Whitewaves to the impenetrable stone forts of Bregon. Only, no one can be certain what they will find there. A dark power has risen. Will revolution bring peace--or will it only paint the streets in more blood.

The Taker Alma Katsu, 2012-03-27 Drawn to a woman who reveals herself to be immortal, Luke, a young doctor, hears the story of how she was abandoned by a lover 200 years earlier and abducted by a centuries-old Hungarian count who granted her eternal life.

Eighteen Years in the Khyber, 1879-1898 Sir Robert Warburton, 1900 Sir Robert Warburton (1842-99) was a British army officer who served for 18 years as the political officer, or warden, of the Khyber Pass, the most important of the mountain passes connecting Afghanistan and present-day Pakistan. He was born in Afghanistan, the son of a British officer and his wife, a noble Afghan woman who was the niece of Amir Dost Mohammad Khan. Warburton was educated in England, commissioned an officer, and served at posts in British India and in Abyssinia (present-day Ethiopia) before being appointed, in 1879, to his post in the Khyber. Home to the fiercely independent Pushtun Afridi people who resisted external control, the pass frequently had been blocked by the Afridis or by fighting among the hill tribes. Warburton is credited with keeping the frontier peaceful and the pass open, mainly through diplomacy rather than force. He drew upon his Afghan background and his fluent Persian and Pushto to gradually win the trust of tribesmen whose traditions made them deeply suspicious of outsiders. In August 1897, one month after Warburton's retirement, unrest broke out among the Afridis, who seized the pass and held it for several months. Warburton was called back into service and participated in the Tirah expedition of 1897-98, in which Anglo-Indian forces reopened the pass. Warburton was especially proud of the role played in the expedition by the Khyber Rifles, a paramilitary force recruited from Afridi tribesmen that he had raised and commanded. *Eighteen Years in the Khyber, 1879-1898* is Warburton's account of his education and career. It touches upon virtually every individual and event that played a role in relations between Afghanistan and British India during the last quarter of the 19th century. Long in poor health, Warburton returned to England and died before the book was completed. Posthumously published, it is illustrated with a number of striking photographs and includes a detailed fold-out map of the Khyber.

Bosnian, Croatian, Serbian, a Textbook Ronelle Alexander, Ellen Elias-Bursac, 2010-03-01 Three official languages have emerged in the Balkan region that was formerly Yugoslavia: Croatian in Croatia, Serbian in Serbia, and both of these languages plus Bosnian in Bosnia-Herzegovina. *Bosnian, Croatian, Serbian, a Textbook* introduces the student to all three. Dialogues and exercises are presented in each language, shown side by side for easy comparison; in addition, Serbian is rendered in both its Latin and its Cyrillic spellings. Teachers may choose a single language to use in the classroom, or they may familiarize students with all three. This popular textbook is now revised and updated with current maps, discussion of a Montenegrin language, advice for self-study learners, an expanded glossary, and an appendix of verb types. It also features:

- All dialogues, exercises, and homework assignments available in Bosnian, Croatian, and Serbian
- Classroom exercises

designed for both small-group and full-class work, allowing for maximum oral participation • Reading selections written by Bosnian, Croatian, and Serbian authors especially for this book • Vocabulary lists for each individual section and full glossaries at the end of the book • A short animated film, on an accompanying DVD, for use with chapter 15 • Brief grammar explanations after each dialogue, with a cross-reference to more detailed grammar chapters in the companion book, Bosnian, Croatian, Serbian, a Grammar.

Multiword expressions Manfred Sailer ,Stella Markantonatou , Multiword expressions (MWEs) are a challenge for both the natural language applications and the linguistic theory because they often defy the application of the machinery developed for free combinations where the default is that the meaning of an utterance can be predicted from its structure. There is a rich body of primarily descriptive work on MWEs for many European languages but comparative work is little. The volume brings together MWE experts to explore the benefits of a multilingual perspective on MWEs. The ten contributions in this volume look at MWEs in Bulgarian, English, French, German, Maori, Modern Greek, Romanian, Serbian, and Spanish. They discuss prominent issues in MWE research such as classification of MWEs, their formal grammatical modeling, and the description of individual MWE types from the point of view of different theoretical frameworks, such as Dependency Grammar, Generative Grammar, Head-driven Phrase Structure Grammar, Lexical Functional Grammar, Lexicon Grammar.

Other special features that set this dictionary apart include: Over 25,000 words and expressions including idioms and slang. User-friendly layout with main entries in color. Complete Japanese-English and English-Japanese sections. Romanized forms and the Japanese script are given for all Japanese words. A guide to pronunciation helps the user to pronounce Japanese words correctly. Different senses of each word are distinguished by multiple definitions.

Haiku Guy David G. Lanoue,2001-05 Perhaps the first novel to take as its subject the appreciation and crafting of haiku, this is the story of Buck-Teeth, a provincial poet and fictitious student of the Japanese classical haiku master Issa, who, in the course of his training, travels to ancient Edo and contemporary New Orleans, falls in and out of love, considers the many schools of haiku, and ultimately learns what it is to be a poet. Along the way we are offered gentle lessons on haiku and what we might put into it, how it and we got this way, and what it all might mean.

Daniil Kharms and the Poetics of the Absurd Neil Cornwell,1991-06-18 This volume of essays and other materials offers an assessment of the short prose, verse and drama of Daniil Kharms, Leningrad absurdist of the 1920s and 1930s, who was one of the last representatives of the Russian literary avante-garde.

Jan Kaláb Jan Kaláb,Petr Volf,2019-03-28 Point of Space is an artist monograph and the first comprehensive survey of the work of Jan Kalab, a leading graffiti and street artist (formerly known as Cakes and Point), as well as an original painter and sculptor. In its more than three hundred pages, the book presents the artist's extensive oeuvre from 1993 to 2018: walls, trains, three-dimensional graffiti, pavement paintings, murals, paintings on canvas, sculptures, and installations. At the same time, it shows many different cities in Europe and the US from rarely seen angles and in unexpected contexts.

Translating Children's Literature Gillian Lathey,2015-07-24 Translating Children's Literature is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature, from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering: · Narrative style and the challenges of translating the child's voice; · The translation of cultural markers for young readers; · Translation of the modern picture book; · Dialogue, dialect and street language in modern children's literature; · Read-aloud qualities, wordplay, onomatopoeia and the translation of children's poetry; · Retranslation, retelling and reworking; · The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with published translators of children's literature, as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers and students on courses in translation studies or children's literature.
