On Rumors Cass R. Sunstein,2014-03-09 Many of us are being misled. Claiming to know dark secrets about public officials, hidden causes of the current economic situation, and nefarious plans and plots, those who spread rumors know precisely what they are doing. And in the era of social media and the Internet, they know a lot about how to manipulate the mechanics of false rumors—social cascades, group polarization, and biased assimilation. They also know that the presumed correctives—publishing balanced information, issuing corrections, and trusting the marketplace of ideas—do not always work. All of us are vulnerable. In *On Rumors*, Cass Sunstein uses examples from the real world and from behavioral studies to explain why certain rumors spread like wildfire, what their consequences are, and what we can do to avoid being misled. In a new afterword, he revisits his arguments in light of his time working in the Obama administration.

How to Get Your Kid to Eat Ellyn Satter,2012-06-01 Answering a multitude of questions—such as What should a parent do with a child who wants to snack continuously? How should parents deal with a young teen who has declared herself a vegetarian and refuses to eat any type of meat? Or What can parents do with a child who claims he doesn't like what's been prepared, only to turn around and eat it at his friend's house?—this guide explores the relationship between parents, children, and food in a warm, friendly, and supportive way.

The Steel-Bar Motel Ed Fedorowich,2000-10 An informer who is convinced he is with the C.I.A.; John and Blue, two inmates with an axe to grind; Alexander, who refused to be strip-searched; and the Dough Boy, a jovial burglar: these are some of the residents of the Steel-Bar Motel. Correctional training captain Ed Fedorowich has written a tough poignant, often funny and nearly always tragic memoir of his years at the now-defunct Seyms Street Jail in Hartford, Connecticut. These are real stories about real people, and their hopes, dreams and quirks. These are stories you won't soon forget.

Rumor Mills Veronique Campion-Vincent,2017-07-05 The goal of this volume is to explore the social and political dynamics of rumor and the related concept of urban or contemporary legend. These forms of communication often appear in tandem with social problems, including riots, racial or political violence, and social and economic upheavals. The volume emphasizes the connection of rumor to a set of social concerns from government corruption and corporate scandal, to racial, religious, and other prejudices. Central to the dialogue are issues of truth, belief, history, public policy, and evidence. Rumor has been recognized as one of the most important contributing factors to violence and discrimination. Yet, despite its significance in exacerbating social discord and mistrust, little systematic scholarly attention has been paid to the political origins and consequences of rumor. Rumor is defined as a proposition for belief that is not backed by secure standards of evidence.

Rumor can be traditional or not, and can be expressed as a simple claim of fact. In both instances groups of claim-makers, operating out of their own interests and with a set of resources, attempt to depict reality, and if possible, impact the future. The need for this book is underscored by changing patterns of technology. What in the past was grounded in face- to-face interaction is now often found on the Internet, which is a major source of rumor. An appreciation of how new electronic forms of communication affect communal belief is essential for explicating rumor dynamics. The volume is comprehensive. Essays cover race and ethnicity, migration and globalization, corporate malfeasance, and state and government corruption. While editors and contributors well appreciate the dynamic nature of rumors and legends, the high quality of the effort make it evident that the issues that are raised and reoccur will serve to channel and inspire research in this major field of communications research for years to come.

Rumor and Communication in Asia in the Internet Age Greg Dalziel, 2013-07-18 New communication technology has transformed the way in which news about key events is communicated. For example, in the immediate aftermath of catastrophic events such as the Mumbai attacks or the Japanese tsunami, partial accounts, accurate and inaccurate facts, rumour and speculation are now very rapidly disseminated across the globe, often ahead of official announcements and formal news reporting. Often in such situations rumours take hold, and continue to characterise events even after a more complete, more accurate picture eventually emerges. This book explores how such rumours are created, disseminated and absorbed in the age of the internet and mobile communications. It includes a wide range of examples and, besides considering the overall processes involved, engages with scholarly debates in the field of media and communication studies.

Eating Asian America Robert Ji-Song Ku, Martin F. Manalansan, Anita Mannur, 2013-09-23 Examines the ways our conceptions of Asian American food have been shaped Chop suey. Sushi. Curry. Adobo. Kimchi. The deep associations Asians in the United States have with food have become ingrained in the American popular imagination. So much so that contentious notions of ethnic authenticity and authority are marked by and argued around images and ideas of food. *Eating Asian America: A Food Studies Reader* collects burgeoning new scholarship in Asian American Studies that centers the study of foodways and culinary practices in our understanding of the racialized underpinnings of Asian Americanness. It does so by bringing together twenty scholars from across the disciplinary spectrum to inaugurate a new turn in food studies: the refusal to yield to a superficial multiculturalism that naively celebrates difference and reconciliation through the pleasures of food and eating. By focusing on multi-sited struggles across various spaces and times, the contributors to this anthology bring into focus the potent forces of class, racial, ethnic, sexual and gender inequalities that pervade and persist in the production of Asian American culinary and alimentary practices, ideas, and images. This is the first collection to consider the fraught itineraries of Asian American immigrant histories and how they are inscribed in the production and dissemination of ideas about Asian American foodways.
