The Legend of Running Brook William C. Barnes,Yonassan Gershom,2015-01-24 An unseen Watcher lives in the land of the Kepke. He resides in the inner forest -- the Forest of Thought and Creation. He was sent by the Great Everywhere Father to observe and judge the Kepke people. Every Kepke man is warned not to venture too far away from the outer forest, for he might come upon the Watcher and die a terrible fearful death. Yet someday there will be a Kepke man who will possess great medicine. He will venture into the inner forest. The Watcher will seek him out and the lives of the Kepke will be changed forever. But the legends never say exactly HOW this will happen, or what the change will be. To find the answer, Running Brook must leave the land of the Kepke on a quest that will take him into the mystical Forest and deep within himself. (A spiritual fantasy tale by William C. Barnes with Yonassan

Gershom.)

Internal Colonization in Medieval Europe Felipe

Fernandez-Armesto,James Muldoon,2017-05-15 Around the year 1000 Rodulfus Glaber described France as being in the throes of a building boom. He may have been the first writer to perceive the early medieval period as a Dark Age that was ending to be replaced by a better world. In the articles gathered here distinguished medieval historians discuss the ways in which this transformation took place. European society was becoming more stable, the climate was improving, and the population increasing so that it was necessary to increase food production. These circumstances in turn led to the cutting down of forests, the draining of wetlands, and the creation of pastures on higher elevations from which the glaciers had retreated. New towns were established to serve as economic and administrative centers. These developments were witness to the processes of internal colonization that helped create medieval Europe.

The 10th Kentucky Volunteer Infantry in the Civil War

Dennis W. Belcher,2009-09-12 The 10th Regiment Kentucky Volunteer Infantry waged battle for the Union for three years during the Civil War, ranging from its home state to Atlanta. This thorough history is filled with personal accounts, including 25 wartime letters written by the men of the regiment and official records of the regiment's activities, which included action at Chickamauga and Missionary Ridge. The regiment began the war with 867 men, suffered a 40 percent casualty rate at Chickamauga, and helped break Confederate lines at Jonesboro. At the end of the war only 140 men staggered home in victory. Features more than 60 photos, 14 maps, rosters and descriptions of the unit's soldiers.

Dickinson's Nerves, Frost's Woods William Logan,2018-06-05 In Dickinson's Nerves, Frost's Woods, William Logan, the noted and often controversial critic of contemporary poetry, returns to some of the greatest poems in English literature. He reveals what we may not have seen before and what his critical eye can do with what he loves. In essays that pair different poems—"Ozymandias," "On First Looking Into Chapman's Homer," "In a Station of the Metro," "The Red Wheelbarrow," "After great pain, a formal feeling comes," and "Stopping by Woods on a Snowy Evening," among others—Logan reconciles history and poetry to provide new ways of reading poets ranging from Shakespeare and Shelley to Lowell and Heaney. In these striking essays, Logan presents the poetry of the past through the lens of the past, attempting to bring poems back to the world in which they were made. Logan's criticism is informed by the material culture of that world, whether postal deliveries in Regency London, the Métro lighting in 1911 Paris, or the wheelbarrows used in 1923. Deeper knowledge of the poet's daily existence lets us read old poems afresh, providing a new way of understanding poems now encrusted with commentary. Logan shows that criticism cannot just root blindly among the words of the poem but must live partly in a lost world, in the shadow of the poet's life and the shadow of the age.
