Run:Walk Pace Tables in Minutes/Kilometer Kirk Mahoney, 2012-07-01 I love the run:walk method. Hi, I'm Kirk Mahoney, the author of Run:Walk Pace Tables in Minutes/Kilometer. Why did I write this book? I love the run:walk method. I trained for my first marathon with the run:walk ratio of 5:1. I now train regularly with people who use ratios of 10:1, 5:1, and 3:1. My best average pace in training has been with the 1:1 ratio. And, my marathon personal best (PB) came by racing with the 2:1 ratio. But, before I wrote this book, I saw a HUGE gap in the run:walk community. This gap has been causing a lot of unnecessary confusion and unhappiness. This book closes that gap. Is the run:walk method driving you crazy? If you are like me, here is why you love the run:walk method: You get a better workout because you use your muscles differently. You get more variety during a workout or race. You get predictable milestones in a race or training session. You get more stamina. You get fewer injuries. Last but not least, you can get faster chip-times! All of this contributes to greater happiness as an endurance athlete, and I'm all about happier running and walking! Unfortunately, there has been a gap that has driven many of us run:walk athletes crazy. Let me talk more about that in a moment... Do you prefer guessing, folklore, driving directions, or a map? Seriously, how do you figure out just the right combination of running and walking on any given day and for any given race or training distance? Let's compare it to driving from point A to point B: You could guess. Some of us have done this, at least when we were younger. Well, let's see. If I want to go to the convention center, then I guess that I'll start by driving toward downtown and keep looking for the big building along the way. You could rely on folklore. Many of us have done this. A neighbor told me that I should take highway X to somewhere around street Y and then go left until I get to street Z ... and the convention center will be around there somewhere. You could use driving directions. A lot of us do this now. We get driving directions from a GPS unit, which can work well ... until the unit dies suddenly or there is an unexpected obstacle. Or, we go online, enter our starting point and destination, and print the directions. Still, printed directions cannot handle unexpected detours, and they give you no sense of the greater territory around, say, the convention-center destination. You could use a map. I know -- What's that?! Yes, you have to learn how to read maps. You have to locate on a map where you are now and where, say, the convention center is. But, a map eliminates guessing and folklore, never dies suddenly, and gives you options -- LOTS of options -- when one route or another is blocked. Pace calculators are like driving-directions websites. Yes, you could search the Web and find some run:walk pace calculators that will let you enter some variables to get some other variables. A pace calculator is like a driving-directions website. You enter some stuff, and it tells you what to do. That's fine, as far as it goes. But, what if you were to run into an obstacle? Would you know what to do? The fact is, you could poke and prod all day with a pace calculator and still not end up with the big picture about how YOU can best use the run:walk method. In contrast, pace tables are like maps. Now, think about a map. It gives you the big picture, and this gives you LOTS of options to achieve your goal. Pace tables are like maps. They give you the big picture and lots of options to achieve your goal. This book fills the gap of pace tables for the run:walk method!

Earth Force Shemer Kuznits, 2019-04-30 On the first day, a mist descended from the heavens blanketing Earth. On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began... There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

Run or Die Kilian Jornet, 2013-07-01 Shortlisted for the 2014 William Hill Sports Book of the Year Award National Geographic Adventurer of the Year 2014 The most dominating endurance athlete of his generation. -- The New York Times An exceptional athlete. A dominating force. An extraordinary person. Kilian Jornet has conquered some of the toughest physical tests on the planet. He has run up and down Mt. Kilimanjaro faster than any other human being, and struck down world records in every challenge that has been proposed, all before the age of 25. Redefining what is possible, Jornet continually pushes the limits of human ability, astonishing competitors with his near-superhuman fitness and ability. Born and raised at 6,000 feet above sea level in the Spanish Pyrenees, Jornet climbed an 11,000 foot mountain -- the highest mountain in the region -- at age 5. Now Jornet adores the mountains with the same ferocity with which he runs them. In **Run or Die** he shares his passion, inviting readers into a fascinating world rich with the beauty of rugged trails and mountain vistas, the pulse-pounding drama of racing, and an intense love for sport and the landscapes that surround him. In his book, Jornet describes his record-breaking runs at Lake Tahoe, Western States 100, Ultra-Trail du Mont-Blanc, and Mount Kilimanjaro--the first of his ambitious Summits of My Life project in which Jornet will attempt to break records climbing the highest peaks on each continent. In turns inspiring, insightful, candid, and deeply personal, this is a book written from the heart of the world's greatest endurance runner, for whom life presents one simple choice: Run. Or die. Trail running's first true breakout star, [Jornet] has yet to find a record he can't shatter. -- Runner's World
