Perspectives on Soviet and Russian Computing John Impagliazzo,Eduard

Proydakov,2011-09-06 This book contains a collection of thoroughly refereed papers derived from the First IFIP WG 9.7 Conference on Soviet and Russian Computing, held in Petrozavodsk, Russia, in July 2006. The 32 revised papers were carefully selected from numerous submissions; many of them were translated from Russian. They reflect much of the shining history of computing activities within the former Soviet Union from its origins in the 1950s with the first computers used for military decision-making problems up to the modern period where Russian ICT grew substantially, especially in the field of custom-made programming.

Information Sources in Patents Stephen Adams,2020-09-21 This completely revised and

expanded edition recognises the growing importance of patent systems and documentation from Asia, South America and Africa. The most prominent patent systems from these regions are treated individually, together with revisions to existing country coverage and an overview of IP developments in general. This is an essential reference tool for librarians, information specialists, data analysts and others seeking to use patent information either at the document level or in bulk.

Blockbuster History in the New Russia Stephen M. Norris, 2012-10-19 Seeking to rebuild the Russian film industry after its post-Soviet collapse, directors and producers sparked a revival of nationalist and patriotic sentiment by applying Hollywood techniques to themes drawn from Russian history. Unsettled by the government's move toward market capitalism, Russians embraced these historical blockbusters, packing the American-style multiplexes that sprouted across the country. Stephen M. Norris examines the connections among cinema, politics, economics, history, and patriotism in the creation of blockbuster history—the adaptation of an American cinematic style to Russian historical epics.

North Korea's Second Nuclear Crisis and Northeast Asian Security Tae-Hwan Kwak, 2016-05-23 North Korea's testing of a nuclear bomb sent out a shock wave throughout the world and totally changed the strategic equation in the Korean peninsula and Northeast Asia. This testing has far-reaching implications for Korean peace and unification, Northeast Asian security and America's global war on terrorism. This key volume provides an in-depth analysis of the inter-Korean and international dynamics of North Korea's nuclear crisis. It offers new insights into the six-party talks designed to resolve the crisis, suggests creative formulas to resolve the ongoing crisis through

peaceful, diplomatic means and delves into the interests and policies of the major powers - the US, China, Japan and Russia - at the six-party negotiating table. The contributing authors are distinguished specialists and experts in the field and as such offer valuable expertise into the dynamics of this nuclear crisis for students and academics

Electronic Governance and Open Society: Challenges in Eurasia Andrei Chugunov, Yuri Misnikov, Evgeny Roshchin, Dmitrii Trutnev, 2019-02-09 This book constitutes the refereed proceedings of the 5th Conference on AElectronic Governance and Open Society: Challenges in Eurasia, EGOSE 2018, held in St. Petersburg, Russia, in November 2018. The 36 revised full papers were carefully reviewed and selected from 98 submissions. The papers are organized in topical sections on smart city infrastructure, policy; digital privacy, rights, security; data science, machine learning, algorithms, computational linguistics; digital public administration, economy, policy; digital services, values, inclusion; digital democracy, participation, security, communities, social media, activism; social media discourse analysis; digital data, policy modeling; digital government, administration, communication.

Socio-economic Systems: Paradigms for the Future Elena G. Popkova, Victoria N. Ostrovskaya, Aleksei V. Bogoviz, 2021-03-05 This book is reflective of a science-based vision of the future development paradigm of economic and social systems. It deals with the digitization as the technological basis for the future development of economic and social systems and presents a review of groundbreaking technologies and prospects for their application. The specific character of the industry and prospects for the application of digital technologies in business are analyzed. A rationale is provided for future prospects for the sustainable development of economic and social systems in a digital economy. The authors determine the process of the formation and development

of the information-oriented society, social and educational aspects of the digitization, as well as the institutional framework of the digital future of social and economic systems. The book combines the best works following the results of the 12th International Research-to-Practice Conference “Artificial Intelligence: Anthropogenic Nature vs. Social Origin” that was held by the Institute of Scientific Communications (ISC) in cooperation with the Siberian Federal University and the Krasnoyarsk Regional Fund of support of scientific and scientific-technical activities on 5–7 December 2019, in Krasnoyarsk, Russia, as well as following the results of the 3rd International Research-to-Practice Conference “Economic and Social Systems: Paradigms for the Future” that was held by the ISC in cooperation with the Pyatigorsk State University on 5–6 February 2020. The target audience of the book consists of representatives of the academic community concerned with the future prospects for the development of economic and social systems, as well as economic agents engaged in the digitization of business processes, and representatives of public agencies regulating the development of business systems for their progressivity, sustainability and competitiveness.

Russia in Africa Samuel Ramani, 2023-05-01 Three decades after the Soviet Union's collapse, Russia has transformed from a fringe player to a resurgent great power in Africa. The October 2019 Russia-Africa Summit in Sochi highlighted the appeal of Russia's normative agenda, the ubiquity of Russian military technology, and the breadth of Moscow's presence on the continent. Beneath the pageantry, a darker side of Russia's African resurgence looms large. From Libya to Madagascar, Russia has used sinister tactics to expand its influence, such as private military contractors, shadowy mining and energy deals with authoritarian regimes, and election interference campaigns. This book presents a chronological examination of Russia's post-Cold War foreign policy towards Africa, and outlines the factors that have enabled and impeded the growth of its influence. It pays special attention to the non-material factors behind this rising power; the domestic drivers of Russian decision-making; Moscow's relationships with fellow external powers; and African

perspectives on Russia's geopolitical role. Samuel Ramani's analysis cites extensively both Russian-language media and academic sources, and his own interviews with Russian and African elites. His fascinating study challenges popular depictions of Russia as an opportunistic anti-Western actor, instead emphasizing Moscow's strategic commitment to Africa and the endurance of historical memory.

The Women's Liberation Movement in Russia Richard Stites, 1978-02-21 This book offers a brilliant treatment of many facets of its subject, but it also ends up being, for the reader, one of the finest general histories to be found, of these crucial years in Russian history. The source material is unbelievably detailed, and clearly cited on each page. Not only that, the writing is, at many points, the boldest, clearest I've almost ever found in the Academy. The author's opinions, summaries, insights easily spill out of the historical constructions. The presence of the author's psyche (he never hides behind his quotes) means the material is contoured. The reader gets, not only huge amounts of information, but an authorial presence, as company, that is often daring, bold, insightful, revelatory. And one stylistic point made me especially happy: when Stites uses metaphors to explain history, these are revelatory, and their internal implications are followed through in the prose. -- from www.goodreads.com (Feb. 2, 2011.)
