Exercises in Russian Syntax V. S. Belevitskaya, 2017-07-26 Excerpt from Exercises in Russian Syntax: With Explanatory Notes, the Simple Sentence This is the first part of a two-volume exercises IN russian syntax designed for adult foreign students of Russian studying with or without a teacher. This book is not meant for beginners. In it special attention has been given to those problems of Russian syntax which generally prove to be particularly difficult to foreign students of Russian. Thus, the book comprises a large number of exercises on agreement and govern ment and on the uses of tense, aspect, and mood forms of the verb. The book also contains a number of lexical exercises. This fact is accounted for by the need to show how the lexical meaning of words may determine a particular syntactical construction. The commonest set expressions and colloquialisms in contemporary Russian are also dealt with in the exercises. The Notes following many of the exercises deal with those points of Russian syntax which usually present greater difficulty to foreign students of Russian. The contents of this book have been arranged in the order generally accepted for books on Russian syntax. There are, however, a few depart ures from that order. Thus, the theme Detached Parts of the Sentence has been divided into two parts: Detached Parts of the Sentence which do not Form a Construction follow the relevant sections on the second ary parts of the sentence. Detached Constructions (constructions with the adjective, the participle, or the verbal adverb) have been included in Volume 2 of this book. Such departures from the usual order are justified by teaching practice: the knowledge of the different types of complex sentences provides a better basis for studying the detached participle and verbal adverb constructions. Multi-disciplinary Lexicography Olga M. Karpova, Faina I. Kartashkova, 2014-08-11 The present book is based on presentations made during the IXth International School on Lexicography, "Multi-disciplinary Lexicography: Traditions and Challenges of the XXIst Century", at Ivanovo State University, September 8-10, 2011, and continues a series of collective monographs devoted to the theoretical and practical problems of lexicography, published by Cambridge Scholars Publishing in 2007, 2009 and 2010. The scope of topics discussed in four parts (Dictionary as a Cross-road of Language and Culture, Dictionary Use and Dictionary Criticism, Terminology and LSP Studies, and Projects of New Dictionaries) is rather wide and focuses on burning problems of European, Russian and world lexicography, as well as on projects of new dictionaries. This book will be of interest to theoreticians, practitioners, and students of linguistic faculties.

Russian Eurasianism Marlène Laruelle, 2012-06-15 Since the dissolution of the Soviet Union, Russia has been marginalized at the edge of a Western-dominated political and economic system. In recent years, however, leading Russian figures, including former president Vladimir Putin, have begun to stress a geopolitics that puts Russia at the center of a number of axes: European-Asian, Christian-Muslim-Buddhist, Mediterranean-Indian, Slavic-Turkic, and so on. This volume examines the political presuppositions and expanding intellectual impact of Eurasianism, a movement promoting an ideology of Russian-Asian greatness, which has begun to take hold throughout Russia, Kazakhstan, and Turkey. Eurasianism purports to tell Russians what is unalterably important about them and why it can only be expressed in an empire. Using a wide range of sources, Marlène Laruelle discusses the impact of the ideology of Eurasianism on geopolitics, interior policy, foreign policy, and culturalist philosophy.

The Qırghız Baatır and the Russian Empire Tetsu Akiyama, 2021-07-15 In *The Qırghız Baatır and the Russian Empire* Tetsu Akiyama gives a vivid description of the dynamism and dilemmas of empire-building in nomadic Central Asia from the mid-nineteenth to the early twentieth century, through reconstructing the biography of Shabdan Jantay uulu (ca. 1839-1912), a chieftain from the northern Qırghız (Kirghiz, Kyrgyz) tribes. Based on the comprehensive study of primary sources stored in the archives of Central Asian countries and Russia, Akiyama explores Shabdan's intermediary role in the Russian Empire's military advance and rule in southern Semirech'e and its surrounding regions. Beyond the commonly held stereotype as a "faithful collaborator" to Russia, he appears here as a flexible and tough leader who strategically faced and dealt with Russian dominance.

Early Modern Russian Letters Marcus Levitt, 2018-05-30 *Early Modern Russian Letters: Texts and Contexts* brings together twenty essays by Marcus C. Levitt, a leading scholar of eighteenth-century Russian literature. The essays address a spectrum of works and issues that shaped the development of modern Russian literature, from authorship and philosophy to gender and religion in Russian Enlightenment culture. The first part of the collection explores the career and works of Alexander Sumarokov, who played a formative role in literary life of his day. In the essays of the second part Levitt argues that the Enlightenment's privileging of vision played an especially important role in eighteenth-century Russian self-image, and that its occularcentrism was profoundly shaped by Orthodox religious views. *Early Modern Russian Letters* offers a series of original and provocative explorations of a vital but little studied period.

How Russia Shaped the Modern World Steven G. Marks, 2004-01-25 This sweeping history tells the story of how Russian figures, ideas, and movements changed our world in dramatic but often unattributed ways. It points out that Russia gave the world new ways of writing novels, and launched trends in ballet, theatre and art that revolutionized cultural life.

Sources of Contemporary Russian Foreign Policy David A. Welch, 1994 This thesis systematically employs two explanatory theories for the study of Russian foreign policy, and tests these two theories against one another to determine their explanatory power. This thesis investigates Russian Federation foreign policy regarding three contemporary issues, the near abroad, the Kuril Islands dispute, and the current Bosnian conflict. It conducts an analysis of Russian policy statements and doctrine during the period from the dissolution of the Soviet Union through the formation of the Russian Federation (from 1 January 1992 until August 1994). The analysis is based on hypotheses which seek to explain Russian foreign policy decisions with reference to two theoretical concepts: the concept of balance of power that emerges from political realism and the more recently developed concept of strategic culture.

Heritage and Identity in the Turkic World Alva Robinson, Kağan Arık, Elmira Köchümkulova, Jonathan North Washington, 2023-10-24 This volume builds on the work of Ilse Laude-Cirtautas (1926-2019), a pioneering Turkologist who introduced the field of comparative Turkic studies to the US in the 1960s. It presents an ongoing dialogue whereby scholars from central and inner Asia and the West engage on issues of Turkic heritage, identity, language and literature. The discussions enrich scholarship in Central and Inner Asian Studies and explore the question Who are the Turks?

Gendering Postsocialism Yulia Gradskaia, Ildikó Asztalos Morell, 2018-03-14 *Gendering Postsocialism* explores changes in

gendered norms and expectations in Eastern Europe and Eurasia after the fall of the Berlin Wall. The dismantlement of state socialism in these regions triggered monumental shifts in their economic landscape, the involvement of their welfare states in social citizenship and, crucially, their established gender norms and relations, all contributing to the formation of the postsocialist citizen. Case studies examine a wide range of issues across 15 countries of the post-Soviet era. These include gender aspects of the developments in education in Kazakhstan, Uzbekistan and Hungary, controversies around abortion legislation in Poland, migrant women and housing as a gendered problem in Russia, challenges facing women's NGOs in Bosnia, and identity formation of unemployed men in Lithuania. This close analysis reveals how different variations of neoliberal ideology, centred around the notion of the self-reliant and self-determining individual, have strongly influenced postsocialist gender identities, whilst simultaneously showing significant trends for a "retraditionalising" of gender norms and expectations. This volume suggests that despite integration with global political and free market systems, the postsocialist gendered subject combines strategies from the past with those from contemporary ideologies to navigate new multifaceted injustices around gender in Eastern Europe and Eurasia.

Meaning as Explanation Ellen Contini-Morava, Barbara Sussman Goldberg, Robert S. Kirsner, 1995 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state-of-the-art work on core areas of linguistics across theoretical frameworks, as well as studies that provide new insights by approaching language from an interdisciplinary perspective. TRENDS IN LINGUISTICS considers itself a forum for cutting-edge research based on solid empirical data on language in its various manifestations, including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes, which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing. To discuss your book idea or submit a proposal, please contact Birgit Sievert.

Dictionary of Lexicography R. R. K. Hartmann, Gregory James, 2002-01-04 Dictionaries are among the most frequently consulted books, yet we know remarkably little about them. Who makes them? Where do they come from? What do they offer? How can we evaluate them? The Dictionary of Lexicography provides answers to all these questions and addresses a wide range of issues: * the traditions of dictionary-making * the different types of dictionaries and other reference works (such as thesaurus, encyclopedia, atlas and telephone directory) * the principles and concerns of lexicographers and other reference professionals * the standards of dictionary criticism and dictionary use. It is both a professional handbook and an easy-to-use reference work. This is the first time that the subject has been covered in such a comprehensive manner in the form of a reference book. All articles are self-contained, cross-referenced and uniformly structured. The whole is an up-to-date and forward-looking survey of lexicography.

Lexicographic Description of English Morton Benson, Evelyn Benson, Robert F. Ilson, 1986-01-01 Designed to help lexicographers compile better dictionaries of English, this book provides information about the language that is not available in any other single source. It is the first serious attempt to describe in detail the lexical and grammatical differences between American and British English and offers a trailblazing solution to the vexing problem of how to treat General American and British RP pronunciation in the same dictionary with the help of a Simplified Transcription for which any typewriter keyboard can be adapted and a pioneering description of the principles concerning the treatment of fixed grammatical and lexical collocations in future general-purpose dictionaries of English.

Digital Future Economic Growth, Social Adaptation, and Technological Perspectives Tatiana Kolmykova, Ekaterina V. Kharchenko, 2020-04-06 This book provides a systemic view on the digital future from the perspectives of various socio-humanitarian sciences: economics, social sciences, pedagogics and law. Presenting selected papers from the multi-disciplinary international conference "Climate changes and economy of the future: global transformation", which was held at Pskov State University (Russia) on November 13-14, 2019, it offers a comprehensive overview of the current problems and the future potential of digital transformations of economic activities. This multidisciplinary book includes the latest research on the opportunities of the digital economy and the social and ecological consequences of its implementation, and as such offers a "road map" for development. It also features scientific and practical recommendations to allow effective management of the digitization process according to the current priorities.

The Cold War in the Classroom Barbara Christophe, Peter Gautschi, Robert Thorp, 2019-10-23 This book is open access under a CC BY 4.0 license. This book explores how the socially disputed period of the Cold War is remembered in today's history classroom. Applying a diverse set of methodological strategies, the authors map the dividing lines in and between memory cultures across the globe, paying special attention to the impact the crisis-driven age of our present has on images of the past. Authors analysing educational media point to ambivalence, vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies. Others focus on teachers and the history classroom, showing how unresolved political issues create tensions in history education. They render visible how teachers struggle to handle these challenges by pretending that what they do is 'just history'. The contributions to this book unveil how teachers, backgrounding the political inherent in all memory practices, often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach.

Modern Occultism in Late Imperial Russia Julia Mannherz, 2012-10-15 Modern Occultism in Late Imperial Russia traces the history of occult thought and practice from its origins in private salons to its popularity in turn-of-the-century mass culture. In lucid prose, Julia Mannherz examines the ferocious public debates of the 1870s on higher dimensional mathematics and the workings of seance phenomena, discusses the world of cheap instruction manuals and popular occult journals, and looks at haunted houses, which brought together the rural settings and the urban masses that obsessed over them. In addition, Mannherz looks at reactions of Russian Orthodox theologians to the occult. In spite of its prominence, the role of the occult in turn-of-the-century Russian culture has been largely ignored, if not actively written out of histories of the modern state. For specialists and students of Russian history, culture, and science, as well as those generally interested in the occult, Mannherz's fascinating study remedies this gap and returns the occult to its rightful place in the popular imagination of late nineteenth- and early twentieth-century Russian society.

A Common-school Dictionary of the English Language, Explanatory, Pronouncing, and Synonymous William G. Wheeler, William A. Webster,2020-09-23 Reprint of the original, first published in 1868.

The United States and Contemporary China-Russia Relations Brandon K. Yoder,2022-04-28 China and Russia have grown progressively closer over the last two decades, yielding a China-Russia “axis” uniquely capable of challenging the United States and of revising key aspects of the international order. Although the scholarly literature has offered detailed descriptions and various ad hoc explanations of this trend, the Sino-Russian bilateral relationship has been the subject of very little scrutiny using rigorous theory, which has precluded the formation of logically coherent and empirically supported explanations for increasing China-Russia cooperation. Moreover, the cooperative post-Cold War trend in the bilateral relationship is puzzling for each of the major paradigms of international relations theory: realism, constructivism and liberalism. This volume brings together leading IR scholars from various theoretical perspectives, as well as theoretically-informed experts in Chinese and Russian foreign policy. The chapters develop and apply nuanced theoretical arguments to derive testable hypotheses for the cooperative trend in China-Russia relations. In contrast to existing scholarship, the book offers generalizable insights that both improve our understanding of a crucially important contemporary case, while also advancing IR theory in substantial ways.
