Artemiy Belyaev

Russian Language Outside the Nation Lara Ryazanova-Clarke, 2014-03-17 This book explores a comprehensive set of tensions which emerged from the dislocated and deterritorialised position of Russian in the contemporary world from a sociolinguistic perspective.

What Mean? Lynn Visson, 2013 As Lynn Visson explores in this fascinating book, sometimes simply knowing a language is not enough to ensure good communication. Speaking a language without understanding the culture in which it is spoken can lead to misunderstandings and miscommunication. This book explores the problems of language and culture facing both Russians speaking English and Americans speaking Russian. An introduction to the basic issues of the link between language and culture is followed by a discussion of the reasons for some common errors in Russian and English. Numerous practical examples help readers understand the importance of cultural markers and signposts in both languages. Written in an accessible style, this book is intended for businesspeople, émigrés and expatriates, tourists, students and teachers, and scholars (or anyone else) with an interest in the links between language and culture.

Context and Contextuality Vyacheslav Tsvirinko,2018-01-31 Since 1988, hundreds of thousands of evangelical Christians have migrated to the United States of America from former Soviet Union countries, establishing many Russian-speaking immigrant congregations across the country. This study analyzes how these immigrant churches function in their new cultural, social, and religious context. Dr Vyacheslav Tsvirinko, a Russian who lived in the USA for over twenty-five years, examines the holism, authenticity and contextuality of the mission work done by churches in the Pacific Coast Slavic Baptist Association (PCSBA) in America. He defines authentic mission in light of three major Christian groups – the World Council of Churches, the Lausanne Movement, and Anabaptists – and uncovers startling insights on how PCSBA churches engage in mission, both back in their homeland and in the USA. The findings and conclusions of this work are invaluable to diasporic Christian communities who wish to address their authenticity in the way they do mission, both internationally and in their local context, creating a path to more fruitful gospel and kingdom work.

The Russians and Their Language Nadine Jarintzov, 1916

Speech Etiquette in Slavic Online Communities Lilia Duskaeva, 2021-10-08 This edited book focuses on speech etiquette, examining the rules that govern communication in various online communities: professional, female, and ethnospecific. The contributors analyze online communication in the Slavic languages Russian, Slovak, Polish, and Belarusian, showing how the concept of speech etiquette differs from the concept of politeness, although both reflect the relationship between people in interaction. Online communities are united on the basis of common informative or phatic illocutions among their participants, and their speech etiquette is manifested in stable forms of conducting discussions – stimulating and responding. Each group has its own ideas of unacceptable speech behavior and approaches to sanitation, and the rules of speech etiquette in each group determine the degree of rapport and distancing between the participants in discourse. The chapters in this book explore how rapport and distance are established through acts such as showing attention to the addressee and increasing his or her communicative status; reducing or increasing the illocutionary power of evaluations and motivations; and evaluating one's own or someone else's speech. The volume will be of interest to researchers studying online communication in such diverse fields as linguistics, sociology, anthropology, programming, and media studies.

Mixed Messages Kathryn E. Graber, 2020-08-15 Focusing on language and media in Asian Russia, particularly in Buryat territories, *Mixed Messages* engages debates about the role of minority media in society, alternative visions of modernity, and the impact of media on everyday language use. Graber demonstrates that language and the production, circulation, and consumption of media are practices by which residents of the region perform and negotiate competing possible identities. What languages should be used in newspapers, magazines, or radio and television broadcasts? Who should produce them? What kinds of publics are and are not possible through media? How exactly do discourses move into, out of, and through the media to affect everyday social practices? *Mixed Messages* addresses these questions through a rich ethnography of the Russian Federation's Buryat territories, a multilingual and multiethnic region on the Mongolian border with a complex relationship to both Europe and Asia. *Mixed Messages* shows that belonging in Asian Russia is a dynamic process that one cannot capture analytically by using straightforward categories of ethnolinguistic identity.
