The (Almost) Complete Hitchhiker in Time Shawn M. Tomlinson, 2015-11-07 The Hitchhiker in Time columns were the single most popular things ever written by Shawn M. Tomlinson, which honestly doesn't say all that much. All together, they appeared in fewer than 10 newspapers between 1988 and 2001. Well, multiple copies of those newspapers, of course. The highest circulation was approximately 40,000, so not exactly Bob Greene levels. Still, Tomlinson had a following with these columns and to a great extent, they hold up well today. Either that or Tomlinson would like to think so. Many of these columns appeared in chapbooks over the years, but this is the first full collection of them to be in print.

The Complete Poetry of James Hearst James Hearst, 2001 Part of the regionalist movement that included Grant Wood, Paul Engle, Hamlin Garland, and Jay G. Sigmund, James Hearst helped create what Iowa novelist Ruth Suckow called a poetry of place. A lifelong Iowa farmer, Hearst began writing poetry at age nineteen and eventually wrote thirteen books of poems, a novel, short stories, cantatas, and essays, which gained him a devoted following. Many of his poems were published in the regionalist periodicals of the time, including the Midland, and by the great regional presses, including Carroll Coleman's Prairie Press. Drawing on his experiences as a farmer, Hearst wrote with a distinct voice of rural life and its joys and conflicts, of his own battles with physical and emotional pain (he was partially paralyzed in a farm accident), and of his own place in the world. His clear eye offered a vision of the midwestern agrarian life that was sympathetic but not sentimental - a people and an art rooted in place.

**Introduction to Statistical Quality Control** Douglas C. Montgomery, 2019-12-30 Once solely the domain of engineers, quality control has become a vital business operation used to increase productivity and secure competitive advantage. Introduction to Statistical Quality Control offers a detailed presentation of the modern statistical methods for quality control and improvement. Thorough coverage of statistical process control (SPC) demonstrates the efficacy of statistically-oriented experiments in the context of process characterization, optimization, and acceptance sampling, while examination of the implementation process provides context to real-world applications. Emphasis on Six Sigma DMAIC (Define, Measure, Analyze, Improve and Control) provides a strategic problem-solving framework that can be applied across a variety of disciplines. Adopting a balanced approach to traditional and modern methods, this text includes coverage of SQC techniques in both industrial and non-manufacturing settings, providing fundamental knowledge to students of engineering, statistics, business, and management sciences. A strong pedagogical toolset, including multiple practice problems, real-world data sets and examples, provides students with a solid base of conceptual and practical knowledge.--

**Boys of Blur** N. D. Wilson, 2015-07-28 Fans of Jerry Spinelli's *Maniac Magee* and Louis Sachar's *Holes* will enjoy this story about a boy and the ancient secrets that hide deep in the heart of the Florida everglades near a place called Muck City. When Charlie moves to the small town of Taper, Florida, he discovers a different world. Pinned between the everglades and the swampy banks of Lake Okeechobee, the small town produces sugar cane . . . and the fastest runners in the country. Kids chase muck rabbits in the fields while the cane is being burned and harvested. Dodging flames and blades and breathing smoke, they run down the rabbits for three dollars a skin. And when they can do that, running a football is easy. But there are things in the swamp, roaming the cane at night, that cannot be explained, and they seem connected to sprawling mounds older than the swamps. Together with his step-second cousin Cotton Mack, the fastest boy on the muck, Charlie hunts secrets in the glades and on the muck flats where the cane grows secrets as old as the soft earth, secrets that haunted, tripped, and trapped the original native tribes, ensnared conquistadors, and buried runaway slaves. Secrets only the muck knows.

**Urban Stormwater Management in the United States** National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Reducing Stormwater Discharge Contributions to Water Pollution, 2009-03-17 The rapid conversion of land to urban and suburban areas has profoundly altered how water flows during and following storm events, putting higher volumes of water and more pollutants into the nation's rivers, lakes, and estuaries. These changes have degraded water quality and habitat in virtually every urban stream system. The Clean Water Act regulatory framework for addressing sewage and industrial wastes is not well suited to the more difficult problem of stormwater discharges. This book calls for an entirely new permitting structure that would put authority and accountability for stormwater discharges at the municipal level. A number of additional actions, such as conserving natural areas, reducing hard surface cover (e.g., roads and parking lots), and retrofitting urban areas with features that hold and treat stormwater, are recommended.

**Beloved** Toni Morrison, 2006-10-17 Winner of the Pulitzer Prize, Toni Morrison's Beloved is a spellbinding and dazzlingly innovative portrait of a woman haunted by the past. Sethe was born a slave and escaped to Ohio, but eighteen years later she is still not free. She has borne the unthinkable and not gone mad, yet she is still held captive by memories of Sweet Home, the beautiful farm where so many hideous things happened. Meanwhile Sethe's house has long been troubled by the angry, destructive ghost of her baby, who died nameless and whose tombstone is engraved with a single word: Beloved. Sethe works at beating back the past, but it makes itself heard and felt incessantly in her memory and in the lives of those around her. When a mysterious teenage girl arrives, calling herself Beloved, Sethe's terrible secret explodes into the present. Combining the visionary power of legend with the unassailible truth of history, Morrison's unforgettable novel is one of the great and enduring works of American literature.

**A Pleasure to Burn** Ray Bradbury, 2013-05-21 Ray Bradbury's novel Fahrenheit 451 is an enduring masterwork of twentieth-century American literature—a chilling vision of a dystopian future built on the foundations of ignorance, censorship, and brutal repression. The origins and evolution of Bradbury's darkly magnificent tale are explored in A Pleasure to Burn, a collection of sixteen selected shorter works that prefigure the grand master's landmark novel. Classic, thematically interrelated stories alongside many crucial lesser-known ones—including, at the collection's heart, the novellas "Long After Midnight" and "The Fireman"—A Pleasure to Burn is an indispensable companion to the most powerful work of America's preeminent storyteller, a wondrous confirmation of the inimitable Bradbury's brilliance, magic . . . and fire.

**A Taste of Power** Elaine Brown, 2015-05-20 "A stunning picture of a black woman's coming of age in America. Put it on the shelf beside The Autobiography of Malcolm X." —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities

and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post
